The Charm Of a Cozy, Cool Veranda.
The modern veranda during the summer months can easily be converted into an outdoor living room, where the family and friends will find a real pleasure in lingering. By hanging an adjustable screen on one or more sides to shield from the persers-by an ideal breakfast room may be had, or a cool retreat where one may lounge at ease. Owing to the lateness of actual summer days many of us have delayed the furnishing of our verandas until now! Here are a few suggestions along the lines of a furnishing. Straw matting or a rug, a rustic settee, a generous hammock in a cool and shady angle inviting a lazy hour, and a porch of light construction. Old-fashioned splint bottomed rockers and armchairs lend an air of simplicity and comfort; the more modern willow pieces are always in favor. Flower boxes add to the appearance of the porch, a jardiniere containing a fern or plant, add charm to the ensemble and convey a pleasing suggestion of both hospitality and leisure.

Straight Hair Made Curly While You Sleep

By an entirely new and harmless method, the roughest hair can now be made beautifully curly "while you sleep." Not that the sleeping has anything to do with it, except to prevent loss of any of your precious time while the process is at work. You simply apply a little liquid salmerine to the hair, using a clean tooth brush for the purpose. This it seems has the property of causing the hair to dry with a delightful wavy effect, as will be quite apparent in the morning. The effect lasts considerably longer than where a hot iron is used, and curliness appears far more natural. If you'll get a few ounces of the liquid salmerine from your druggist you will have enough to keep the hair in curl for many weeks. This, by the way, is excellent also as a dressing for the hair, keeping it bright and lustrous. It is neither sticky nor greasy.

To Ward Off Summer Complexion Ills

To keep the face smooth, white and beautiful all summer, there's nothing quite as good as ordinary mercerized wax. Discolored or freckled skin so common at this season, is gently absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no trace of the wax, which is applied at bedtime and washed off mornings. Greasy creams, powders and rouges, on the other hand, are apt to appear more conspicuous than usual these days of excessive perspiration. Just get an ounce of mercerized wax at any druggist and use like cold cream. This will help any skin at once and in a week or so the complexion will look remarkably young and healthy.

Sun, winds and flying dust often cause scalding and other contortions which make wrinkles. You can quickly get rid of every line, however caused, by using a harmless wash lotion made by dissolving 1 oz. powdered saxolite in 1/2 pt. witch hazel.

Freckle-Face

How to Remove Freckles.
Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from Geo. W. Mahood, or any druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.
