WALDRON'S

PRECAUTIONS WERE TAKEN AGAINST WIND AT CAMP

And Very Few Tents Were Blown Down.

THE DEAN OF ONTARIO

ADDED TO STAFF FOR PAY, RATIONS AND DISCIPLINE

Major G. H. Gillespie Added To Instructional Cadre With Extra Pay of a Dollar a Day — Applications For Next Provisional School of Infantry Course.

The last thing that was thought of before getting between the blankets at Barriefield Camp on Monday night was whether the guy-ropes were tight enough. They usually were as each man in the tent, rather than take a chance on the canvas blowing down, made a personal inspection. It is a case with tents to tighten them in windy weather and loosen them in wet weather. It rained hard on Monday morning and to prevent the shrinking ropes from pulling the pegs all the ropes were let out a little. This is not quite so important as keeping them tight during wind however, as it is inconvenient, to say the least, to wake up in the night finding the tent that should be over you, over the lines of the next company. There were a few cases of this in the camp on Monday night but there were enough experienced campers in the lot to make the number of blow-downs small.

The rain on Monday morning wet the parade grounds a little, but not enough to interfere with the drilling programme.

On Monday morning the 8th C.M.R. had a short exercise ride down the Gananoque road and back. In the afternoon kit-inspection was in order.

The 8th Battalion recruits were instructed in rifle exercises and also extended order work on Monday. Bayonet fighting was also engaged in. The recruits are progressing splendidly and the work of drilling them is a good experience for the N.C.O.'s and officers some of whom might have forgotten some of the details of the elementary work since the main body of the battalion was broken in. The remainder of the battalion was engaged in advance guard work and also in musketry on Monday.

Almost each day part of the timetable is taken up by the company officers commanding, who deliver a lecture on the work for the following day.

Every morning at 6 a.m. Major G. H. Gillespie begins his duties in connection with the physical drilling of the soldiers in camp. There is a definite order in force which says that every man in camp must have physical drill between 6 and 6.30 a.m., every day and it is the duty of Major Gillespie to see that this order is carried out. He makes an inspection of the soldiers at the work and corrects any mistakes that the instructor might be making and at times takes the class himself.

A number of applications are being received for entrance into the Provisional School of Infantry which opens on July 26th for the instruction of officers up to and including the rank of captain. A number made their applications to attend the last course at too late a day and these will be accepted for the next course.

The following order has been issued: "It is published that the information of all concerned that N.C.O.'s and men visiting points outside of Kingston will be required to report on arrival to the senior officer in the locality in which they are visiting. The officer will initial pass."

The signallers attending the class at the camp are progressing favorably and doing splendid work. It is planned to give even greater attention to night signalling as this class of the work is very desirable at the front.

Lieut. Rackham, 3rd Dragoons, has been appointed Camp Signalling Officer, taking over the duties of Capt. W. S. Wood, 38th Battalion.

The assault-at-arms announced for the Militia Y.M.C.A., tent for Wednesday night will be held on Thursday night, and the remainder of the Dominion Day programme will be run off on Saturday afternoon next.

Orders contain the transfer of Major, the Very Rev. Starr from the 8th C.M.R., to the Headquarters Staff for pay rations and discipline, dating from May 27th. The Dean was not attached to the staff until a few days ago.

Major G. H. Gillespie has been transferred from 3rd Division staff to the Instructional Cadre from June 15th with extra duty pay of \$1 per diem and the allowances of a field officer.

Major Burritt will detail an officer for a quarterly inspection of the different militia buildings in the city.

The officers attending the Provisional School of Infantry have been struck off the strength of the 59th Battalion and the officers of that Battalion have taken over the work.

A class of instruction for all N.C.O.'s, and those recommended for promotion, in the 59th Battalion commenced on Tuesday morning with Sergt-Major. Cutbush as instructor.

There are only two cases of contagious diseases among the soldiers at Barriefield Camp, these cases being measles. The patients are in the city hospitals for treatment.

Barriefield Camp Y.M.C.A. Rev. E. LeRoy Rice will address the meeting at the Y.M.C.A. tent to-night.

A new gramophone for the use of the men has been placed in the tent. The assault-at-arms will take place on Thursday night. Princess Street Methodist Church choir will provide an entertainment on Wednesday evening.

At Tete de Pont Barracks. Gunner Fraser, who is in the General Hospital with an injured foot, and Gunner Dawson, who is also troubled with his foot as a result of an accident at Barriefield a short time ago when a gun-carriage ran over him, are progressing favorably.

Cadet D. L. Savage, Royal Military College, is attached to "C" Battery for duty.

J. Burbidge and T. McTasney have been accepted as members of "C" Battery.

At Fort Henry. Capt. Dillon, quartermaster of the Internment camps throughout Canada, was a visitor at Fort Henry on Monday and found everything satisfactory.

A. M'GREGOR ARRIVES

TO ANSWER CHARGE OF ABSCONDING WITH PAY.

Brockville Member of First Contingent in Tete de Pont Barracks—Charged With Leaving England With Pay Office Money.

Allan P. McGregor, 1st Field Artillery Brigade, C. E. F., who, it is alleged, absconded from Salisbury Barracks with several thousand dollars belonging to the pay office, and destined as pay for the men, is in the cells at Tete de Pont barracks. When volunteers were called for last year, McGregor, whose home is in Brockville, joined the 5th Field Detachment, and went overseas with the detachment, eventually being absorbed into the 1st Brigade. He proved a good clerk, and was quickly transferred as an artillery clerk in the pay office. In November a cable was received which stated that McGregor had absconded with a large sum of money, and was supposed to be heading for Canada and his home at Brockville.

McGregor crossed the ocean to New York, and went, after a short delay, to Brockville, being there on New Year's Day. He re-crossed the border to the United States, and was next heard of as being under arrest at Rochester, N.Y. An application was made by the 3rd Division Headquarters to have him brought to Kingston for trial. The reason this time was committed in England, the nature of the case. It is obviously impossible for his commanding officer, Major R. H. Britton, to try him by court-martial, as the major is at the front. As the case was committed in England, the civil law states that he may be deported to that country. As all the evidence is at the local headquarters, there was no object in sending him to England, so that under the circumstances he was deported to Canada, and arrived Monday night in charge of the civil police, and turned over to the military authorities for trial.
