# **EXCELLENT INSTRUCTORS** AT THE BARRIEFIELD CAMP

#### Officers Returned Right From the Front.

LIEUT. STETHEM GIVES MA-CHINE GUN INSTRUCTION.

The 59th Battalion Organization Is Proceeding-Officers Of the 8th C.M.R. Present Whig Reporter With a New Testament.

There is one branch of Barriefield Camp which deserves a great deal of credit, and that is the instructional branch. Without a doubt there for an inspection, is no camp in Canada at the present time which has such a high standard of instructors to teach the officers and men going overseas.

Assisting Major Brown, the Gen eral Staff Officer, is Major S. A. Thomson, who is on the staff of the Royal Military College. Officers studying under him say that his lectures are given in a way that anyone can understand the work covered, and he was the knack of emphasizing the important points. There qualifications, but very few are able to impart their knowledge to others in the way done by Major Thom-

The latest addition to the instructional staff is Lieut. Stethem, who was recently invalided home from the front, where he has been fighting with the Princess Patricias. He will be able to tell the officers of the camp the exact conditions there, and having proved himself so efficient an officer he will thoroughly understand the conditions and know what is necessary to improve the already high efficiency of the soldiers at the camp. Lieut. W. E. Swaine, who is Musketry Instructor at the camp, is one of the best in Canada. He is not none. only a good instructor, but a crack shot himself, having been on the

Bisley team from Canada. Sergt Major Cutbush, of the Royal Military College staff, commenced a class of qualification for N. C. O.'s of the 59th Battalion, and the mere fact that he is an instructor at the R. M. C. proves his ability.

The 38th Battalion is fortunate in having all of their officers, highly qualified. Sergt.-Major Marsden was instructor for the Princess Patricias, and to a great extent is responsible for the high standard of excellence

which that unit reached before go-

Lieut. Stethem, who is now on the instructional staff, at Barriefield Camp, is a specialist in machine gun operations, and as this branch of offensive warfare has received a great amount of attention in this conflict; his lectures will be particularly valu-

Major Meighen, who has been invalided home from the front, and is tion of the city by-law in soliciting now in Montreal, will give a series of. lectures in the different camps throughout the country. It is expected that he will come to Barriefield in the near future.

Major-General L. Lessard, Inspector-General of the Eastern Forces will arrive in camp in about a month

Major R. J. Gardiner and Major in the country, while the city "cab-Burritt are in Peterboro inspecting bies" and auto drivers can take a buildings which might be suitable fare from the city to any point in the for convalescent homes for soldiers, leounty.

Lieut.-Col. H. J. Dawson is kept busy taking the eath of recruits who have been accepted for his battalion. Seven arrived on Tuesday, the smallest number in some time. The battalion is being formed into compaare many officers who have high nies, "A" Company now being complete, and the formation of other companies is taking place. As each company is completed officers are assigned and commence the work of bringing the 250 men into a state of efficiency which will make them capable of taking their position on battalion parades. The men being secured are of a splendid type, and although like all recruits are hard to judge before being issued with uniform, appear to be splendid material for the formation of what Col. Dawson states will be one of the best battalions to leave Canada. The colonel is justly proud of his men, and is confident that in a very short while the 59th Battalion will be second to

At nine o'clock on Wednesday morning, "C" Battery, R. C. H. A., Lieut.-Col. Edwards returned from accompanied by the fifteen cadets who will take artillery commissions this year, paraded to Barriefield. On a transport following, a large number of shovels and bags were also taken

The scheme to be worked out is as In the Police Court Wednesday follows: The battery was supposed to be moving from Belleville to Gandriving automobiles in the county anoque, when a message reaches the officers while they are at Kingston that their scouts are being held up somewhere in the vicinity of Dunlop's farm, on the Gananoque road The battery receives orders to try and reach Cartwright's home, the Maples. To do this it must destroy an enemy who has already crossed in boats from Garden Island to Grass As the drivers do not belong to the

city, they cannot secure a license One section of the battery took up positions on Barriefield heights, and laid its guns in such a position that its fire would strike the force landing at the creek. The other section meanwhile prepared for battle if the enemy should not be destroyed.

The men were set to work to dig trenches for the guns and waggons, and the horses were taken to a safe position in the rear. As soon as the one section of the battery was entrenched the other section was rate of St. Paul's Church, Kingston, also entrenched under Archdeacon Carey, has been

### Keen Anxiety As to Safety of Steamers

New York, July 7.—The keenest anxiety pervades shipping circles today regarding the statement of Frank Holt, alias Meunter, J.P. Morgan's German assailant and suicide, to the effect that he placed a trunk loaded with dynamite in the steamer Saxonia, of the Cunard line, or the steamer Philadelphia, of the American line, with clockwork explosion timed to explode to-day. Both steam. ers are now in mid-ocean. The Philadelphia's captain has been communicated with by wireless, and says all trunks on his ship were inspected and found all right The Saxonia's wireless has not been raised yet. In the meantime there is also much apprehension as to the safety
