My Corns

Were Ended This Way

Countless women have told other women about Blue-jay plasters. Now a million corns a month are ended in this scientific

Women who know Blue-jay do not suffer corns. When one appears, they put a Blue-jay plaster on it. That ends the pain. In 48 hours the corn is gone forever, with no soreness left.

If you can't believe it, ask your friends. Half of them have probably ended corns with Blue-jay. If you still doubt it, ask us for samples. Try them on corns of your own.

Don't coddle corns. Don't pare and keep them. Don't use old-time treatments. A famous chemist has made corns utterly unnecessary. That sort of torture is a thing of the past.
