

Staggering Losses To Turko-German Forces

FRENCH DECIMATED GERMAN ATTACKERS

Enemy Tried to Blow the French Out of Their Positions in Labyrinth Southeast of Neuville.

Used Explosive Shells and Gases, But Attacks Failed--In Fighting in Underground Passages Germans Were Utterly Routed--Enemy Repulsed at Apremont.

(Special to the Whig.) Paris, July 13.—(Official.) By frightful fire and heavy explosive shells, the Germans attempted to blow the French out of their positions in the "Labyrinth" south east of Neuville during the night. The artillery attack failed to wreck the strong concrete and metal works. The Germans then resorted to asphyxiating bombs and under a cross-fire of explosive shells and gas bombs their infantry troops attempted to rush the French out of the entrenchments. The attacking forces were decimated in hand-to-hand fighting in underground passages, and utterly routed. The Germans have renewed their onslaughts against the French positions in the forest of Apremont. Following heavy cannonading the German infantry attacked with grenades but were repulsed with heavy losses.

War Tidings. The Allies have ordered 300,000,000 cigarettes from American makers for July for use in the trenches. Emperor Nicholas of Russia has conferred the Cross of St. George upon all the officers and crew of the British submarine which recently sank a German battleship in the Baltic.

Anti-Allies Terrorist Plot in the U. S.

(Special to the Whig.) Washington, July 13.—Though it is true that the United States secret service suspects a widespread anti-Allies terrorist plot in this country, it has not yet made sufficient progress with its investigation to have definite proof. That this conspiracy included an attempt to kidnap British Ambassador Spring-Rice on Long Island on Monday night, could not be verified.

BRITISH COMMONS THANKS

Gen. Botha For Conquering German Southwest Africa. (Special to the Whig.) London, July 13.—The House of Commons this afternoon, on motion of Premier Asquith, enthusiastically extended a vote of thanks to Gen. Botha, commander of the South African forces, who conquered German Southwest Africa.

LLOYD-GEORGE RETURNS

From Wales After a Much-Needed Rest. (Special to the Whig.) London, July 13.—Minister of Munitions, David Lloyd George, who absented himself from office while the reports of the impending clash with Lord Kitchener and Premier Asquith were in circulation, resumed his duties to-day. It was stated that he had returned from a much-needed rest in Wales.

The Turks are determined to sue for a separate peace.

TERRIBLE SLAUGHTER OF TURKISH FORCES

London, July 13.—The Chronicle publishes a report from George Renwick, its correspondent at the Dardanelles, who gives his account of the recent heavy fighting on the Gallipoli Peninsula already officially reported. He says that the heaviest fighting which has taken place in the Gallipoli Peninsula since the Allied forces landed there was that which began late on Tuesday last and lasted well into Wednesday. It resulted in a swing forward of the southern line of the allied armies for about five furlongs and in the infliction of staggering losses on the enemy. Those who were in the battle place the Turkish and German casualties at 7,000 killed and between 14,000

ARTILLERY WAGON WHEELS COVERED WITH STRAW TO KEEP COOL.

The excessive heat of the summer sun in Egypt has an injurious effect upon the tires of wheels. The picture, taken in Cairo, shows what is done to preserve the wheels in good condition.

100 LODGES IN BELLEVILLE.

Fifteen Thousand Visitors Attended the Celebration. Belleville, July 13.—One of the largest Orange demonstrations held in Eastern Ontario took place in this city yesterday. Over 100 lodges were in the parade, and upwards of 5,000 marched. The procession was headed by Sir M. Bowell, Right Worshipful Brother E. H. McLean, of Bowmanville, Grand Master for Ontario East, and many other prominent members of the order rode in automobiles. After parading the principal streets of the city, which were most appropriately decorated, the procession marched to the Agricultural Park, where speeches were delivered. The gathering was presided over by Sir M. Bowell, who has been a member of the order for 71 years. He spoke, as did also E. G. Porter, K.C., M.P., E. R. Highburn, M.P., E. H. McLean, Rev. Mr. Barber, E. W. Tamm, Deputy Grand Master; R. Graham, Kingston, and W. B. B. Pictou. The day passed off most pleasantly without anything occurring to mar the proceedings. It was estimated that at least 15,000 visitors were in the city.

WOULD USE 10,000 AEROPLANES

To Bombard Germany and Bring Her to Her Knees. (Special to the Whig.) London, July 13.—That Berlin should immediately provide herself with a flotilla of ten thousand aeroplanes and win the present war from the air, was a movement launched to-day by prominent aeronauts and aeronautical writers, led by H. G. Wells and others. By sending one thousand aeroplanes over Germany every day, bombarding and destroying strategic bridges and munitions they said Britain could bring Germany to her knees in one month.

ATTACKED GERMAN STATION.

And Destroyed Tons of the Enemy's Munitions. (Special to the Whig.) Paris, July 13.—Thirty-five French aeroplanes participated in a great air raid on an important German strategic station at Vigneulle Les Saittonchot, the War Office announced this afternoon, stating several fires that are believed to have destroyed tons of German munition supplies.

Two Messages Will be Ready For Germany

(Special to the Whig.) Washington, July 13.—Secretary of State Lansing was keeping his own counsel to-day concerning the nature of the reply he was framing to the latest note from Berlin. Indications were that when the Chief Executive returns from Corning, two messages will be ready, the President's and the Secretary's, concerning the details of which no one will have a particle of information except their respective authors.

The Canadian Honor Roll.

(Special to the Whig.) Ottawa, July 13.—The Canadian casualty list now totals 10,103 of whom 1,726 are killed, and 6,519 wounded. The missing total 1,857. Over-night casualties include six killed, thirteen wounded and three missing. Three previously reported as missing have rejoined their regiments.

WAR BULLETINS.

The Germans have apparently taken a sharp offensive on the western front and are pushing forward their reinforcements.

The German cruiser Koonigsberg lurking up the African river was destroyed by British gunboats.

Allies have secured a brilliant victory on the Gallipoli peninsula; Turko-German forces sustain staggering losses.

Bulgaria has ended her negotiations with Turkey and may join the Allies immediately.

KILLED CHAMPION TO CREATE REPRISALS

But the Italians Were Aware of the Intention of Austrian Stragglers. (Special to the Whig.) Rome, July 13.—Austrian stragglers purposely killed the great Italian bicycle champion, Caralta, in the hope of provoking Italian troops to outrages against civilians in the Austrian territory. Gen. Cadorna reported to the War Office to-day. Caralta left his company to drink at a well at a village Italian troops had just taken from the enemy. He was found stabbed in the neck, and dead. New orders have been issued to Italian troops not to harm civilian population in any way, no matter how great the aggravation.

Approval From Abroad

Some time ago the Bureau of the Advertising of the American Newspaper Publishers' Association issued a valuable little booklet in which appeared a number of interviews with prominent advertisers, endorsing newspaper advertising as opposed to other forms of publicity. In a series of articles headed "Business Talks," published in these columns during the past few weeks, the Whig quoted these endorsements and gave them a local application. The July 10th issue of the Bureau's Weekly Bulletin has the following reference to this paper's use of the information:

"Many enquiries are reaching the Bureau for the new booklet, 'The Newspapers,' and this week copies are being mailed to all national advertisers and agents. "The Kingston British Whig has made excellent use of the booklet by taking the experiences quoted and reprinting them from day to day under the head of business talks. It so happens that most of these advertisers have been users of space in the Whig, and this newspaper is not only making an argument for the newspaper cause, but is turning the talks to its own immediate advantage."

The Whig much appreciates this word of commendation from the American Newspaper Publishers' Association, and we feel sure that our advertisers, also, will be glad to learn that the biggest publishers' organization in the United States bears unsolicited testimony to the enterprise of a Kingston Daily.

GERMANY'S CAMPAIGN

Committed Against Russia For Months To Come.

Petrograd, July 13.—It is believed here that the Galician adventure is openly a part of a scheme extending all over the Russian front, from the Baltic to Bukovina. The next German adventures are expected in the Baltic provinces and between the Niemen and the lower Vistula, while the possibility of another overwhelming drive toward Warsaw by the direct eastern route is never forgotten.

Experts here state positively that the entire real striking forces of the Germanic allies are definitely committed solely to the Russian front for months to come. This would give Russia's western allies ample time to prepare for a united forward move from all sides simultaneously.

DETECTIVES WATCH

The Loading of Munitions for Allies at New York. New York, July 13.—An investigation of the alleged conspiracy to place bombs on board steamships leaving here loaded with war munitions for the Allies was in progress to-day. A conference of police officials, agents of the Federal Government and private detectives employed by the steamship companies was called to consider means of cooperation to prevent the placing of any more bombs on board steamships in New York harbor. A special bomb squad of detectives was assigned to work around the river front, and all piers where war munitions were being loaded on board steamers were closely guarded. In the great number of cases, the bombs are placed in the cargo, while it is being transferred to steamships by lighters, it is believed. Steps were taken to guard the cargoes while in the hands of the lighterage men.

ORANGEMEN SOUNDED CALL FOR RECRUITS

"Patriotism" Was the Keynote of the Addresses at the Big Celebration at Gananoque on Monday.

Roman Catholic Mayor Welcomed the Visiting Orangemen -- Senator Taylor Was Chairman -- Hon. W. T. White Was the Chief Speaker -- James Berney, Kingston, Also Spoke.

(By Staff Reporter.) Gananoque, July 13.—"Patriotism" was the keynote of the addresses delivered at the big Orange celebration here on Monday. The Glorious Twelfth was celebrated with what might be quite properly

The town certainly did itself proud. Close on to thirteen hundred men were in line in the parade, and the different orders represented made a very fine appearance. The Kingston Orangemen headed by the 8th C.M.R. pipe band from Barriefield made a big "hit", and was mentioned in the despatches announced from the speakers' platform, in the report of the committee judging the parade. The boys gave a military tone to the parade, and it was most appropriate. About one hundred and twenty members of the Orange order at Watertown, N.Y., joined in the celebration, and the members from Uncle Sam's territory were given a warm welcome. The visitors made the trip by train from Watertown to Clayton, and then took the rest of the journey by boat. Senator George Taylor of Gananoque acted as chairman at the speaking-making.

Hon. W. T. White's Address. Hon. W. T. White, M.P., Canadian Minister of Finance, speaking on the Outlook of the war, declared that it would be a long war, one of attrition, one which would require the wearing down of the opponents and resources of all kinds, but that in this fight all the advantages were with the Allies. Success was bound to come their way. The (Continued on Page 3.)

A YOUNG VICTORIA OFFICER MURDERED

Lieut. Ward Greer, Army Service Corps, Victim—Clothes Had Been Rifled. Vancouver, B. C., July 13.—Lieut. Ward Greer, an officer of the Army Service Corps at the summer camp at Vernon, was murdered on Tuesday of this week at Lumbly, about 10 miles from Vernon. The crime was discovered yesterday, but the military authorities withheld news until noon to-day, when the young man's family in Vancouver was notified. Greer was twenty-three years of age, a native of Victoria, and a son of B. W. Greer, for many years general freight agent in Vancouver of the freight department of the C. P. R.

Lieut. Greer was attached to Brigadier Duff-Stuart's staff at Vernon as a member of the commissariat department. Last Monday, taking a horse and buggy, and accompanied by a brother officer, Greer left Vernon on a purchasing trip along the country-side. He left his companions near a farmhouse, and started to walk to another place a little distance away, while his friend attended to another errand. He did not return, and his friend returning yesterday his body was found, and the money he carried was gone. His own revolver, fully loaded, was in his pocket. The most generally accepted theory is that he was held up and robbed and then shot, for there is a bullet wound in his head, and he evidently had been badly beaten. Three men were arrested last evening, but they have been discharged, as it was found they could have had nothing to do with the crime. The military investigation is still going on.
