## USIT

Has Removed Wrinkles For Over 2,000 Years

Since the time of Cleopatra, the beauties of the East have preserved their fresh bloom of youth and kept their skins free from all wrinkles by the application of a combination of Oriental oils, the preparation of which is a secret handed down from generation to generation.

### Hair Made Curly In Single Night

(Woman's Tribune) It has been discovered that the application of liquid salicylic acid actually makes straight hair curly and wavy in a single night! Also it acts as a perfectly harmless hair beautifier and dressing. It has the peculiar quality of drying in pretty waves, swirls and creases.

### Freckle-Face

Sun and Wind Bring Out Ugly Spots. Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

### DESSERTS EASILY MADE

Changes Range On Old Favorites With Little Trouble. All sorts of water ices are particularly refreshing and tempting when warm weather arrives.

Various fruit juices from last year's supply of canned fruit can be used to flavor the ices, with a little lemon juice to give sweet. The plain water ice consists of the fruit simply frozen.

To make a sherbet add the beaten whites of two or three eggs for each quart of juice when it is almost frozen, or a tablespoon of gelatin softened in a little cold water and added before the juice is frozen.

For a change you can grate bitter chocolate into vanilla ice cream mixture just before freezing. The flavor of chocolate will be there but the color of chocolate will not. Instead the result will be a white ice cream dotted with brown. Grape juice sherbet is delicious.

Add the juice of two lemons to each quart of grape juice, and add more sugar if necessary. Individual ones in muffin or party cake tins. Cool the crusts, fill them and serve. They can be filled with chocolate blanc mange and topped with whipped cream, or filled with lemon filling, thickened in a double boiler and topped with meringue. They can be filled with canned peaches drained of juice and served with whipped cream of they can be filled with fresh berries.

Custards and floating islands, especially at this time of year, can be faintly made and daintily served. Three tablespoons of smooth boiled custard, chilled thoroughly and served in a thin, long stemmed glass with a big tablespoon of beaten egg white, topped with a single candied cherry, is far more appetizing than the same dessert, served more generously without the cherry in big china saucers.

Nothing in Them. "William," said the good wife, looking up from her paper, "here I see an article that says a man out in Kansas is suing his wife for divorce simply because she went through his pockets after he was asleep. Goodness knows, William, probably the poor woman never got a cent from the brute of a husband in any other way."

"Uh-huh," replied William. "William," came from his better half, "don't you dare sit there and 'uh-huh' me in such a manner! What would you do if you woke up and found me going through your pockets?"

"Who-me?" asked the sleepy husband, who had already turned over his pay envelope to the boss of the house. "Why, I'd get up and help you search, of course, my dear!"—Public Ledger.

She Spoke The Truth. Two women, whose husbands are members of the faculty of Oberlin college, went to call on the new professor's wife. They were shown into a room where the small daughter of the house was playing. While awaiting the appearance of their hostess, one of the ladies remarked to her friend, the little girl: "Not very p-r-e-t-y, but awfully s-m-a-r-t."—Exchange.

### Baby Thriving Mother Happy

EVERY mother and nurse is anxious about baby's health during the hot weather. The dread of colic is ever present, and the awful infantile mortality in summer cannot be forgotten.

Baby can only thrive during the summer if his food—being proof against contamination—is absolutely pure, is suited to his age and powers, and is wholly digestible and nourishing.

Remember—that as baby's digestive capabilities increase the "Allenburys" Foods Nos. 1, 2 & 3—the only progressive dietary for infants—provide all the essential elements in right proportions to ensure healthy growth and development.
