JAMES BELANGER KILLED BY FALL FROM SCAFFOLD

An accident, which resulted fatally, occurred inside of the new theatre which is under the course of construction on Monday afternoon about 4.20 o'clock, when James Belanger fell a distance of sixteen feet from the scaffold on which he was standing and received a fracture at the base of his skull from which he died after reaching the Hotel Dieu ten minutes later.

The victim, who was employed by Thomas Milo, painter, Princess street, was upon the scaffold with another painter, Ernest Thompson, and both were in the act of enamelling the ceiling, which they had practically finished. At various intervals it is claimed both men had placed the planking around in various positions to reach certain portions of the ceiling. Whether Mr. Belanger did not overlap the planking well enough or whether he lost his balance is not known. Hearing the plank fall, Mr. Thompson turned around to see what had happened and seeing his companion working lying unconscious on the hard cement floor he hurried down the ladder and ran to secure assistance. James Reid's ambulance was summoned and conveyed the mortally injured man to the above hospital.

The late James Belanger was born in Kingston about sixty years ago, and had always been a resident of the Limestone City. In religion he was a devout Roman Catholic, and member of St. Mary's Cathedral. The deceased was also a member of the League of the Sacred Heart, and as well as a member of the Holy Name Society.

By his death Mr. Milo loses an excellent painter and decorator. To mourn his loss there are an aged mother, a wife, one daughter and one son: Elizabeth and Michael, both residing at home. Four brothers also survive, George and Frederick, of this city; Louis and Joseph, Rochester, N.Y.

ABOLISH BATH RATE COMMISSIONER TOVE TO MAKE THIS MOVE

Report Made To Utilities Commission On the Efficiency Of the Light and Power Plant.
At the next meeting of the Utilities-Commission, K. H. Tove will move that the waterworks bath rate be abolished. The Commission collects \$2,800 a year in bath rates. Commissioner Tove, at yesterday's meeting, stated that the water department could well afford cutting off this rate, as the yearly surplus is large. The cutting off of the rate would reduce the amount of book-keeping in the city treasurer's office. At the meeting the Utilities Commission, at the invitation of Commissioner Tove cut in two the closet rate.

Prof. C. W. Burroughs at yesterday's meeting reported to the Commission with regard to the efficiency of the light and power plant and made some recommendations with regard to what should be done to increase its efficiency. Prof. Burroughs found that the boilers were working only from 50 to 60 per cent efficiency, which was rather low. Some changes were necessary in the layout of the boilers and meters should be attached to them.

Prof. Burroughs told the Commission that if the street railway company engine was replaced by a rotary converter, four dollars a day in coal would be saved. If the rotary converter was installed on the street there would be a further cut in the cost of production.

The Commission referred the report to General Manager Folger for his recommendations. Commissioner Birkett wanted a meter attached to the waterworks pumping station to show just how much water was pumped every day. His recommendation may be followed out.

General Manager Folger reported that during the very hot spell recently between three and four million gallons of water a day were pumped. All the Commission members were in attendance at the meeting.

Gananoque

The old established firm of Cowan and Britton of this town, manufacturers of butts and hinges has disposed of its business here to the Canadian Steel Goods Company of Hamilton. Ralph B. Britton, it is understood will be retained as manager of the new plant.

The Gananoque Water Power Company which recently asked the local manufacturers to arrange to close down their works for a week to permit necessary repairs at the dams, flume and canals, has in accordance with the wishes of the manufacturers decided to shut off the water supply for one week on August 21st.

The Gananoque Water Power Company which recently asked the local manufacturers to arrange to close down their works for a week to permit necessary repairs at the dams, flume and canals, has in accordance with the wishes of the manufacturers decided to shut off the water supply for one week on August 21st.

The following pupils of Gananoque high school were successful in passing the middle school examinations for entrance to normal school: Misses May Brett, Hazel A. Haig, Jessie E. McBroom, Alice M. Smith, and Leah M. Thompson.

Miss Gretel Shies, only daughter of Mr. and Mrs. Bernard Shies of the Brophy House, is very seriously ill at her island residence at Idwyld.

A number of the members of Grace Church met at the home of Mrs. Horace Griffin, Garden street, on Saturday evening, and presented a purse of money to Mrs. William Meigs, who with her husband, is leaving shortly for the far west provinces.

At Half Moon Bay on Sunday evening there was quite a large gathering for divine worship it being the occasion of the second annual collection in aid of the Fresh Air Fund. As usual a generous response was made by the congregation and the amount of both collections will be divided equally between Montreal and New York as has been done in other years, to provide an outing for the young who otherwise would be unable to enjoy one.

Messrs. H. Gould and G. H. Hurd spent the past few days on a fishing excursion to Gananoque Lake. Mr. and Mrs. John Townsend spent the week-end with relatives at Long Point.

AT LAKE ONTARIO PARK.
New Yandeville and Pictures For This Week.
Despite the wetness of the grounds, there was a good-sized audience at Lake Ontario Park last evening. The new programme was an excellent one.

Gordon Bros., comedy cycle riders, engaged an expert riding act and also in some daring acrobatic work while riding on the cycle and also on the bicycle. Mr. Gordon was the winner of the 15-mile race at Madison Square Garden, New York, and on closing his engagement will proceed to New York and compete with King, the champion fast rider of the world.

Professor Frizzo, the European illusionist and noted magician, is without question the greatest entertainer in his line ever seen at the park. He held his audience for forty minutes last night, entertaining them with the highest class of magic and illusions. His mysterious disappearing doll and "Mutt and Jeff" skeleton dance was a bit. His apparatus and stage settings are elaborate.

The moving pictures included "The Manufacture of Big Guns, and the factory with man at work." "Sax from the Vampire" and

THE SUM OF \$4,100

Paid Out Of Patriotic Fund To Kingston For July.
During July \$4,100 has been paid out by the Canadian Patriotic Fund to wives and children of the Kingston soldiers at the front," was the statement of Ald. H. C. Nickle, chairman of the local committee.

The chairman states that during the past month a number of applications have been added to the list, making it 242 as compared with 231 for the previous month. There are 454 children drawing money out of the fund. When Ald. Nickle took over the work in October last there were only 161 children drawing from the fund.

When one takes into consideration that Kingston gave \$50,000 towards the fund, he can see how long that amount could have lasted if \$4,100 is going to be paid out every month. As the money is all turned into a general fund it makes it possible to exceed the amount donated.

The local committee has nothing whatever to do with the wives of the officers who are drawing from this fund, as that work is handled by a special committee at Ottawa.

Ald. Nickle has no light job. He investigates every case where people apply for support from the fund. In a few cases the committee may be fooled, but mistakes are soon rectified.

DEATH OFFENCES IN ARMY.

Soldiers May Be Shot For Many Reasons.
There are more than a dozen different offences for which a British soldier may be sentenced to death while on active service.

The first on the list of death offences applies to a commanding officer and reads, "Shamefully delinquency up a garrison when in command of troops, without due necessity—punishment, death."

A soldier can be shot for throwing away his rifle in the presence of the enemy, for cowardice, or for leaving his commanding officer in order to plunder. If he forces his way past a sentry on active service he may be sentenced to death, or for assaulting anyone bringing up provisions for the troops.

Soldiers are expressly forbidden while on active service to commit any offence against a resident of the country in which he is fighting under pain of death, nor may he break into any house in search of plunder, or discharge his rifle intentionally to create a false alarm on the march.

A soldier while acting as sentry who is found sleeping at his post may be shot. Any man causing or joining in a mutiny is liable to be shot. Desertion or attempt at desertion while on active service is naturally a death sentence.

"Cherry Cordials," Gibson's. Be kind to children. Most of them retain their memories after they grow up.

A 200-MILE CANOE RACE.

From Ottawa To Kingston Is Scheduled.
The Ottawa Free Press says: There are 61 miles by rail from Prescott to Kingston and a little more by water—possibly 62 along the shore line. Will the contestants in the two hundred mile canoe race be able to cover the distance in a day of fourteen or fifteen hours paddling, and make Kingston the first stop at Gananoque? Opinions are divided on this point. It is pointed out that the current is fair swift along the shore in many places and that paddlers will have to do some real work to make four miles an hour. Again, the wind may blow from the west and anyone who has seen the big rollers raised by a western wind on the St. Lawrence knows that Kingston would be entirely out of the question in the event of a western gale.

However, it is remembered that in the two previous canoe races, the contestants did a little better than was expected of them. Last year, in fact, they beat the officials by several hours at Oka and other reporting stations. Everything considered, if they are of the same stuff as in the two previous years, they have a good chance to make Kingston.

HAS NO USE FOR MILLIONS.

Pittsburg Priest Turns Down Legacies Of Relatives.
Pittsburg, Pa., Aug. 10.—The Rev. William Graham, priest of St. Patrick's Roman Catholic Church has refused to accept legacies left him by relatives in Sidney, Australia, and Bolivia, South America, aggregating between \$12,000,000 and \$15,000,000. He gave as his reason that he is too old to be burdened with such immense wealth, as he is sixty years of age, and he has enough of this world's goods to see him through life.

"It may seem strange that I should say this, but I still sleep better than I know the collectors have taken my refusal seriously and finally and cease to consider me in the distribution of the wealth. I have long known that uncles of mine, named Murphy and Hughes, lived in Australia, and that they were possessed of vast landed estates and immense herds of cattle, pigs and horses, and that I was the nearest of kin. Also that I had several step-nieces named Graham at Bolivia, who are said to be immensely wealthy and childless, and I never knew any of them personally, and, in fact never communicated with them in any manner. Why, then, even if I was disposed to pile up this world's goods, should I accept any of the inheritance they have left?"

"Belladonna Plasters," Gibson's. Of course the average man is above the average. If you doubt it, ask him.
