**"That's My Corn"**

What a Confession!

Something hits ashoe. There's a flash of pain, and the victim says, "That's my corn."  
"My corn," pared and coddled for years, perhaps. It's as needless as dirty hands.  
A Blue-jay plaster, applied in a jiffy, would end that pain instantly. And the B & B wax that's in it would terminate the corn in two days.  
No pain, no soreness, no inconvenience. The corn loosens and comes out. It disappears forever.  
It's hard to prevent corns while having dainty feet. But it isn't hard to end them. A million corns a month are ended in this easy Blue-jay way. You do yourself injustice when you suffer from a corn.  
Half your friends have proved this.
