BOARD OF EDUCATION
ASKED TO ESTABLISH DAY INDUSTRIAL CLASSES
Dr. Merchant Makes Recommendation In Submitting Report On Recent Inspection—Inspector's Report On School Attendance.
The Board of Education held its first session following the summer vacation on Thursday night, but there was very little business on hand, and as a result there was an early adjournment. Reports of the management, property and finance committees were received and adopted, and arrangements made for the placing of the teachers for the opening of the fall term. The chairman, James Craig, presided, and the other members present were Trustees Austin, Bell, Chown, Elliott, Farrell, Godwin, Macnee, Meek, Monk, Mills, and McLean.
A number of communications were received, and they will be referred to the proper committees for consideration.

Mildred Stinson, Toronto, made application for a position on the High School teaching staff.
Hazel B. Contryman, of Aultsville, Ont., asked for a position on the public school teaching staff.
Resignations of Rosa L. Macleish, Ella V. Evans, and E. Mabel Dennis from the public school teaching staff were received, and on motion of Trustees Elliott and Sawyer were accepted.
J. W. Henstridge, clerk of the Portsmouth Council, wrote on behalf of the Council, asking if county pupils could be admitted to the Collegiate Institute, under the provisions of the High School Act.
Newland & Sons, architects, wrote stating that the Canada Floors Ltd., had made an assignment, and that there was some work, amounting to about \$200, which was not satisfactory at the Collegiate.

E. Leach applied for a position as caretaker of a school.
The secretary reported the receipts of a cheque for \$305.32 from the provincial treasurer's department for the night industrial classes in Kingston.
The City Clerk notified the Board that its request for an additional amount of money, \$420, for the purchase of typewriters for use at the Collegiate had been granted.

Mrs. E. Tremblay sent in her resignation as caretaker of Cataract school.
Dr. Merchant submitted a report on his recent inspection of the industrial classes in Kingston. He recommended the taking into consideration the establishing of day classes both for girls and boys. He stated that many dropped out of school before they reached the Collegiate Institute. There could be a course of study for girls who do not intend to enter into business, by preparing themselves for the university or professional examinations. The school here had the equipment for giving such a course.
The report of Inspector, J. R. Russell Stuart, on the school attendance for June was as follows: Total enrollment, 2,494; increase over same month a year ago, 68; total average daily attendance, 2,162; it was reported that fire drill had been held in all the schools.

Inspector Stuart presented his annual report which contains a great deal of useful information for the Board. It will be printed and copies distributed to the members for consideration. The following is an important extract from the report:
"It will be noted that the enrollment for each year or grade is sustained until the senior third grade is reached. In the highest grades there is a progressive falling off. It is evident that only about 60 per cent. of the pupils reach the senior fourth; and it may be added that only about 40 per cent. qualify for admission to the Collegiate Institute. We cannot claim, that more than about one-half of the children entering the school complete the course."

Reports Of Committees.
These recommendations of the Management Committee were adopted:
There being no male teacher available for the head of the Modern Department in the Collegiate Institute, your Committee recommends that Miss Henstridge, the present junior teacher, take charge of the senior classes for the coming year, she to be allowed \$200 additional for the work; and that Miss Agnes Johnston, of Gananoque, be appointed assistant at a salary of \$1,000.
The Committee, desiring to go on record as favoring the appointment of a male head of this department, recommends that an effort be made to secure a suitable male teacher for this position for next year.
Miss Macleish, one of the new appointments to the Public School teaching staff, not having accepted the position, it is recommended that Miss Annie Baxter be appointed to the vacancy at schedule salary of \$550.
That Underwood typewriters be purchased with the money granted for this purpose by the City Council.
The report of the Property Committee, also adopted, read as follows:
That Osborne, caretaker of Macdonald School, receive \$50 per

MOTHERS
REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always.
50c. Box at All Druggists and Stores.

ZAM-BUK
FOR CHILDREN'S SKIN

year for services in connection with the Manual Training department.
That the tender of Joseph Hackett for unloading coal from boats and placing it in the school buildings, viz., 75c per ton, be accepted. This was the only figure received by the Committee.
That the tender of Hooper & Slater for 20 tables for the physics room in the Collegiate Institute, viz., \$2.75 each, being the lowest, be accepted.
After all available pupils' desks were placed in position in the Collegiate Institute, it was found that 30 more were needed to complete the necessary accommodation. It is recommended that these be purchased at a cost of about \$90 from the Smart Manufacturing Co., Brockville. This firm had the contract to supply the new desks already put in.
The report of the finance committee recommending the payment of a grant of accounts was also passed.

THE SPORT REVIEW

Such a race as that under way in the National Baseball League now has never before been seen. Every team has a chance.
President Ban Johnson, of the American Baseball League, has forwarded \$150 to the Sportmen's Patriotic Fund.

The Hamilton players lost their gloves, shoes, bats and other paraphernalia in the fire which destroyed part of the grandstand at that city.
Chicago has purchased Williams, a left-hand pitcher, from Salt Lake City. Detroit, Boston, American, Philadelphia and New York Nationals were all after him.

Hauser, the former St. Louis shortstop, who went virtually insane two years ago, is back in the game. He is playing with the Chicago Cubs.
Campbellford won its tenth straight victory and the Eastern Ontario Intermediate championship of the O. A. L. A. when it defeated Tweed by the score of 6 to 2.

Catcher Schang, one of the Pittsburgh Pirates, was sold to the New York Giants yesterday. The deal was put through by Managers Clarke and McGraw.
Four Canadians—George S. Lyon of Toronto, A. A. Adams of Hamilton, J. M. Hunt and F. G. Hohlziel of Sarnia—will compete in the amateur championship tourney of the United States Golf Association at the Detroit Country Club, commencing Saturday. About 150 players will start.

The Toronto Ball Club has purchased Catcher Cooper from the Brantford Club, of the Canadian League. Cooper is said to be the best catcher in the league and reports had it that Connie Mack of the Athletics was trying to secure him. He will report to the Leafs at the end of the Canadian season.

The Toronto News says it is more than likely that the colors of the Argonauts and Varsity Rugby Clubs will be carried on the field as usual in the fall and they will be able to muster teams strong enough to give the Hamilton Tigers and Frank Shaughnessy's McGill aggregation a good tussle for the rugby honors.
Eddie Duran, the Canadian professional sculling champion, has accepted terms to row Frank Hagney at Springfield, Mass. The purse is \$1,500, but Duran refuses to risk his title of American champion anywhere except on Toronto Bay. The date has not yet been settled.

Uncertainty whether Guy Nickalls, the famous English professional rowing coach at Yale, would return from England to coach the Blue oarsmen this fall was dispelled by Captain Seth Low, jun., of the Yale crew. In a letter to a friend in this city Low said: "Mr. Nickalls sent me word that he would be on hand again this fall to coach the Yale crew."

Hamilton Spectator: Sometime ago the Spectator referred to the manner in which the various racing associations throughout Canada were giving Americans the preference when employing help for the race meetings. Fort Erie and Windsor tracks have an especially large number of Americans employed, and there is a feeling that Canadians could do the work just as well. The Mayor took the matter up with the Minister of Labor, Hon. T. W. Crothers, and he wrote the Mayor today to say that he had received several other complaints and that he was making an investigation. In Kentucky, none but residents of the State are allowed to work on the race tracks, and Canadians feel that a similar law should prevail in Canada.

The Grandstand Manager.
Ed. A. Gessway in Leslie's.
Yes, I'm the fellow who knows it all About that glorious sport—baseball, I sit in the stands most every day, And you can gamble I have my say, I've followed the sport since but a lad, And I know each play, both good and bad; The rules to me are like A B C, All "inside stuff" I can plainly see, Each player I know by his first name, The date when he started in the game, I know all records from A to Z, I'm a baseball owl, as you'll agree, I buy my ticket, I pay the price, But I ask no thanks for my advice; My object's to help the boys along, So I shout my tips out loud and strong, My regular work is driving a truck, Which is not my fault, but just my luck; If I had chosen to play baseball, You'd never have heard of Cobb at all, No matter how close the games may be, I'm cool as an icicle, year-round, For I may get wise to some good play, And my keen advice may save the

And next to that a grand stand, say, Where one could watch ten innings, While breezes blow from off the wheat.
The cowbells ringing in the lanes While taxicabs and cars go by; A station near with frequent trains; Neat restaurants and open sky.
A brook to croon, a band to snort; The city sights, a country view, A rural urban home, in short, I think a piece like that would do.

And view the traffic in the street, And movies on a screen to flit, While breezes blow from off the wheat.
The cowbells ringing in the lanes While taxicabs and cars go by; A station near with frequent trains; Neat restaurants and open sky.
A brook to croon, a band to snort; The city sights, a country view, A rural urban home, in short, I think a piece like that would do.
