

TEUTONS TRY TO CLEAR GALICIA OF THE ENEMY

Grand Duke Cannot Afford to Hold in South.

ENEMY'S LATEST MOVE

MAY CONCLUDE GREAT OFFENSIVE AGAINST RUSSIANS.

English Critics Think That Teutons May Undertake a New Campaign in the Near East.

(Special to the Whig.) London, Aug. 30.—Reports from the eastern front, indicating that the Austrians and Germans are engaged in an effort to clear the last corner of Galicia still held by their opponents, have created great interest here. The Russian lines on the Upper Bug and the Zlota Lipa have been pierced, but it is not yet clear how serious a resistance is being offered to vast enveloping movements from the south.

Having lost Brat-Litovsk Grand Duke Nicholas cannot afford to hold the river positions in the south in face of this important movement, for to do so would endanger his armies.

Opinion is ventured by some English critics that this latest move may conclude the last great offensive effort against the Russians, which has been in progress since May, and that once Austrian soil is cleared of invaders, a new campaign may be undertaken by the Teutonic forces, this time in the near east.

In support of this theory is cited the report that the central powers are massing troops near the Roumanian border.

AWFUL GERMAN LOSSES. Casualties At Ossowetz Surpass All Imagination.

Dvinsk, Russia, via London, Aug. 30.—Wounded members of the former garrison of the Fortress of Ossowetz, recently evacuated by the Russians, who are in hospitals here, declare that the German losses before that fortress, surpass imagination. German prisoners are represented as declaring that officers among the attacking forces declared the fortress had cost them five times more men than were in the garrison.

GERMANY'S SINCERITY

Must Be Established Before Discussion Can Continue.

Washington, Aug. 30.—Negotiations covering the general subject of submarine warfare, which it is understood Count Von Bernstorff, the German Ambassador, has been instructed by his Government to open with a disavowal of Germany's intentions to cause loss of life to Americans when the Lusitania was sunk, will be begun when the State Department announces its readiness. These exchanges, which are to be a continuation of the diplomatic correspondence, will not be encouraged by the United States until the case of the Arabic has been satisfactorily disposed of.

The United States Government believes that Germany's sincerity in her avowal that she undertakes warfare against passenger ships has ended must be established before the Lusitania discussion can continue. Retiteration by American officials that rights of neutrals will be insisted upon in all quarters is taken by German officials to mean that when it is established that Germany has modified her submarine policy England will be asked to relax the blockade against foodstuffs for Germany.

German officials believe the change of their policy will permit an acceptance by the United States of concessions which Germany will make when negotiations are reopened.

A MANITOBA TRAGEDY Skeleton Found of Woman Who Disappeared Years Ago.

Winnipeg, Aug. 30.—More than eight years ago, on the evening of May 24th Mrs. William Chambers disappeared from her home near Cloverdale, northern Manitoba, leaving her husband and five small children. Last week the bleached skeleton was found by wheat cutter seven miles from home, and Mr. Chambers identified it as the remains of his wife by the wedding ring which he had given her.

Child Died From Burns; Home Afire

As the result of a fire which broke out in No. 28 Johnson street about 2:30 o'clock Monday afternoon, the two-year-old child of Mrs. Osborne F. Taylor, whose husband is in the Transport Section of the 21st Battalion, in England, received burns which caused its death.

The little frame house, which forms a part of an old row of dwellings, was in flames when the firemen reached the place after a quick response. The child had been left on a sofa, and it seemed as if there was no chance of its being rescued. A couple of young men finally made their way into the dwelling and brought forth the little one whose arms and body were severely scorched. The child was rushed to the General Hospital, but it died before reaching there.

The fire started in the house occupied by Mrs. Taylor, and it is stated that it was caused by a coal oil stove.

The fire made its way into two houses situated next to the Taylor home, but the firemen were able to check the blaze. The loss could not be ascertained.

There was great excitement, and a crowd of several hundred people soon gathered.

"My Baby Is In There!" Shortly after the alarm, Mrs. Taylor was seen running up and down in front of her home ringing her hands and declaring that her baby was in the house.

"My baby is in there!" she cried. Two young men, Sherman McDonald and Christopher Marshall, colored, gallantly entered the burning building in the dense smoke to look for the child. McDonald succeeded in finding the little one on a couch and made his way out to the street with it. The child was immediately placed in an auto and rushed to the hospital. Mr. Marshall is the well-known shoemaker on Johnson street.

Mrs. Taylor, mother of the child, was rushed to the Hotel Dieu where she is suffering from shock.

ULTIMATE VICTORY. "No one who has studied the campaigns of our glorious armies can doubt their stamina and determination to fight this war to a victorious finish, even if years elapse and our armies are obliged to retire to the heart of Russia. The C. P. R. mixed train No. 615, due in Kingston at 2 p.m. Saturday, had a run-off about a mile north of Sharbot Lake, and four cars ran into the ditch.

When the cars fell over the embankment they took with them the telegraph wires, and communication was also cut off for a while. Will the Act of Commander Be Disavowed?

Berlin, Aug. 30.—Grand Admiral Von Tirpitz, creator of the German submarine policy that gave rise to difficulties with America, believed and Foreign Secretary Von Jagow that all the differences with America should be adjusted at once.

"Von Tirpitz does not look with favor on the formal disavowal of the attack on the Arabic. He desires that most friendly relations between the United States and Germany be established in negotiations already in progress, but is not yet convinced this end can only be attained by a repudiation of the act of one of his submarine commanders.

Germany hopes that the American Government will consider the informal representations already made to be sufficient, until an official report of the submarine commander is made.

The question of whether action of the submarine commander shall be disavowed must rest largely upon this report, which is expected at any moment.

GUARDS PROTECT GRAIN CROP

Armed Men Patrol International Boundary Line.

Grand Forks, N.D., Aug. 30.—Three hundred and fifty armed Canadian guards are patrolling the international boundary along northern Minnesota and North Dakota as the result of threats that attempts will be made to destroy the Canadian grain crop by fire.

Recently such threats came to Canadian officials from several sources and, although they declare themselves "unconcerned," they have placed unusually heavy guard on the border.

Threats against Canadian farmers are said to have been made principally by Austrian and Hungarian laborers.

Not only have Canadian soldiers been stationed along the boundary lines, but a Provincial elevator throughout Manitoba are said to be closely guarded.

A GENERAL COAL STRIKE MAY COME VERY SOON

The Miners in South Wales Are Stolid.

ACCUSATIONS MADE

THAT OWNERS SECURE HUGE PROFITS AND DO NOT SHARE

A Walkout On Wednesday Is a Possibility If An Agreement Is Not Reached To-day — The Cabinet Ministers and Miners' Representatives Are In Constant Session.

(Special to the Whig.) London, Aug. 30.—A general strike of 200,000 South Wales coal miners, unless to-day conferences here settles the dispute, was predicted by the miners' officials who conferred with members of the Cabinet to-day. Mass meetings were held throughout the Wales coal districts on Sunday. The spirit of the men was adamant. They cheered the speakers who accused the mine owners of taking huge war profits and refusing to share them with the workers and denounced the government's arbitration award. A majority of the meetings adopted resolutions favoring a walkout on Wednesday if no agreement is reached to-day.

Representatives of the miners met Minister of Munitions Lloyd George, this forenoon, and immediately afterwards conferred with President Walter Runciman of the Government Board of Trade. Four representatives of the miners were closeted with Lloyd George after the operators' committee left.
