GOLD FAILS TO HELP

THE BRITISH CREDIT IN THE UNITED STATES.

Pound Sterling Continues to Slump Despite \$80,000,000 Shipment—Money Train At New York.

New York, Sept. 8.—Proceeded all the way from Portland, Me., to this city by a pilot engine and cars, the gold train, carrying more than \$80,000,000 in currency and securities sent by England to strengthen her credit in the United States, arrived in the yard of the American Express Company shortly before eight o'clock last night.

Guards armed with rifles manned each of the seven steel cars in which the treasure was shipped. The express company's yard became for the night an armed camp, as the gold was not transferred to the sub-treasury until this morning.

The greatest secrecy was maintained in shipping this, the largest transfer of gold that any nation has made to the United States since the beginning of the war.

The shipment consisted of 11,650,000 English sovereigns, equivalent to about \$32,250,000 and \$7,850,000 in United States coin. The value of the bonds is \$14,000,000.

Fails to Check Slump. Despite this shipment the foreign exchange market weakened yesterday, and sterling went down four cents from Saturday's close to \$4.65.

Large offerings of bills were said to be the cause for the drop.

The market had apparently discounted the full the latest importation of gold from England, for, instead of advancing, the rate of sterling declined. Even the news that the shipment was almost twice as large as expected failed to check the slump.

Another cause for strength which was responded to only by weakness was the belief that a remedy was near at hand, as only a few days, at most, will elapse before the arrival here of the Anglo-French commission.

Bankers Do Not Want Gold.

Although no one in authority was willing to father the statement, it was known that local bankers would look with disapproval upon steady shipments here from England of gold in large quantities. This view is concurred in by many out-of-town bankers whose support is needed upon here in lending Great Britain and France the money with which to pay for their enormous purchases of supplies in these markets.

Instead of turning to gold everything shipped abroad, bankers here would much prefer to lend their foreign customers the money to pay for their purchases, securing the loan by prime American collateral. What Great Britain wants to do in this respect may be exactly the reverse of this, so far as local financiers profess to know.

BAKER FEEL UNCONSCIOUS

After Drawing Batch Of Bread From Oven.

Thomas Mapp, a baker employed by Mrs. W. A. Lackie, Brock street, was overcome after drawing out a batch of bread from the oven on Wednesday morning and fell on the floor, receiving injuries to his head. S. S. Corbett's ambulance was sent for and Mr. Mapp was taken to the Hotel Dieu.

The baker had just finished his work and after falling he became unconscious. It was some time later after Mr. Mapp had his injuries dressed that he revived. It is not thought anything serious will result.

SPENDING HONEYMOON HERE

Grayling Heiress, Weds. Hotelman Well-Known in Kingston.

Mr. and Mrs. James Sidney Graham, many visitors in the city, the guests of the former's sister, Mrs. Catherine Little, 168 King street, Mrs. Graham, formerly Miss Margaret Christine Hanson, daughter of Mr. and Mrs. Rasmus Hanson, Grayling Mich., was married to Mr. Grayling on Sept. 1st. The bride's father is a millionaire lumberman, and the wedding took place at his beautiful home. The groom, who is an hotelman in Saginaw, is well-known to many Kingstonsians, having visited Kingston for several summers.

Mrs. Hanson spent most of her life in Grayling, among its poorer people, and those who needed friends. Her youth was devoid of many of those gaieties which brighten the lives of young people in small communities. Her greatest activities lay in charitable works, and many families secretly felt the ministering influence of her acquaintance. The bride's father, Rasmus Hanson, was the principal builder of Grayling and gave Crawford County most of its prosperity. He went to that section before there was a settlement, acquired timber lands, which run into the hundreds of thousands of acres and stayed on them all these years. Of his vast holdings he took 14,000 acres and presented them to the state of Michigan, for a training and concentrating camp for the Michigan National Guard and deer reserve. The site bears his name.

Mr. and Mrs. Graham will be "at home" to their friends at 921-2 Genesee avenue, Saginaw, after Oct. 1st.

14TH BANDSMEN TURNED DOWN

For Non-Com. Positions In 59th 80th Bands.

Some of the members of the 14th brass bands are very much dissatisfied over the manner in which the non-commissioned officers were selected for the 59th and 80th bands.

Although nine members of the 14th made application to go, none were accepted. The men think that as they had considerable service, some of them should have been given stripes, but such was not the case. The matter was left in the hands of a committee composed of officers who formerly came from Peterboro. When the selection of the non-commissioned officers for the 59th was made, it was found that all the Peterboro bandmen got the pieces.

Although the 80th band is not yet formed, the 14th men state that the non-commissioned officers have been chosen. Sooner than you get a chance to go overseas, three of the local men enlisted in the 77th Battalion at Ottawa. The remainder of the men will likely sign up in the course of a few days.

21ST LIKELY LEAVING.

A cablegram was received on Wednesday morning from an officer of the 21st Canadian Battalion in England, telling his relatives to hereafter address his letters in care of the Army Post Office, London, England. This apparently means that the 21st is leaving for the front.
