GIVEN MONTH IN JAIL

THOMAS MOORE FOUND GUILTY BY POLICE MAGISTRATE.

Evidence Went to Show That He Had Been Drunk and Disorderly—Soldiers Had Trouble Over an Early Morning "Sing-song."

Thomas Moore, the ex-sergeant of police for the 5th Battalion, on remand from Wednesday, was found guilty on Thursday morning by Magistrate Farrell on a charge of being "drunk and disorderly," and was sentenced to one month in jail. The accused wanted the Magistrate to impose a fine, but the Court would not consent.

Moore had been drinking, and this was the cause of all his trouble. It was alleged that while very drunk, and after he had been ordered out of his rooming house, he pulled out his bayonet and threatened to do bodily harm to a man who was endeavoring to quiet him. He was held until the police arrived, and then he was placed in a cell at the police station.

"From the evidence I feel quite sure that you are guilty of being drunk and disorderly," remarked the Magistrate. "To say the least, you have not been acting in the way you should, wearing such a uniform."

Two young soldiers were entertained in early Thursday morning on Ontario street by Constables McCarey and Cotter, for acting in a disorderly manner. Singing is all right in its place, but one o'clock in the morning is no time for outdoor selections, when the good people of the town are taking their nap. The constables told the soldiers to cut out the singing, but evidently they were over enthusiastic about the song, and they kept it up. The two were taken to the lock up, but the Magistrate allowed them to go, with a warning.

With tears in his eyes, one of the soldiers stated that this was his first experience in the police cells. "I am sorry to have to go from one cell to another this morning," he said to the Magistrate, "and it seemed to me like six months."

The face of Patrick Keenan is quite familiar in the Police Court. Every time he takes a drink or two, it is impossible for him to navigate. He had such a heavy cargo on board Wednesday he sat down on a doorstep on King street. The people in the house objected to having the doorstep thus decorated, and called the name of Keenan. The man was given a room and bed at police headquarters (cell and a hard bench). The Magistrate imposed a fine of \$3 and costs or one month.

Old-Time Bill Presented.

It was reported to the Whig Thursday morning, that in payment for some produce a farmer had delivered at a home in the city, he had tendered a \$5 bill on the Mechanics Bank of Montreal, now out of business, and that payment at the bank has been cancelled on them. The farmer is now endeavoring to make a settlement with the party who gave him the bill.

Beautiful New Stock to Choose.

Prevost, Brock street, has this year an extra fine assortment of tweeds, chevots and serges for his order clothing department. His ready-made clothing and gent's furnishing departments are well assorted with new goods.

Wolfe Island Crops.

The grain crop on Wolfe Island will be all in in two weeks time, so a farmer from the island reported to the Whig on Thursday morning. He says that the heavy rains gave the farmers a great deal of extra work in getting it dry. The real damage was not as great as had been reported.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain undiluted cocoon oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

STOP SQUINTING

The facial expressions of persons who do not see well are not becoming. That is why Fitt-U Glasses may materially improve your looks. You do not have to sacrifice any comforts if your glasses are made and fitted by us. Our experience and records make success with glasses a certainty.

ENGINEERS SEEK TRANSFER

To Other Corps in Order To Get Overseas.

On account of so many officers and non-commissioned officers of the Engineers in Canadian applying to go overseas, some of the non-commissioned officers in Queen's Engineers have given up hopes of ever being accepted, and would like to transfer to another branch of the service.

Quartermaster Sergeant Harry Patton is the first man to make the jump. He applied to the Infantry Training Course at Barriefield and was accepted, and reported for duty on Tuesday morning. As soon as he secures his certificate he will immediately try for a commission in the overseas forces.

Some promotions in the unit have taken place recently. Frederick Bird has been granted a commission, C. R. Hagey has been promoted to the rank of sergeant-major, while Sergt. F. M. Wood is the new quartermaster sergeant.

At the present time, Capt. W. Wilgar, officer commanding the unit, is taking on men for the Engineers corps for overseas which is being mobilized at Ottawa.

Since the engineers went into camp at Barriefield in May they have built a number of bridges, laid water pipes and erected a number of wooden buildings.

BRITISH WHIG TOBACCO FUND.

What the dollar box contains:

- 1 Briar Pipe
- 1 Rubber-lined Tobacco Pouch.
- 1 Tinder Lighter.
- 50 Cigarettes.
- 4 Ounces of Tobacco.

The 25c Parcel contains:

- 50 Cigarettes
- 4 Ounces Smoking Mixture.
- Some Matches.
- And a Postcard addressed to you.

Remember, there are no 'Baccy' Shops on the Battiefield.

THE GENERAL HOSPITAL.

Now Has Fifty-six Nurses in the Training School.

The Governors of Kingston General Hospital met on Wednesday afternoon, this being the first meeting after the summer holidays. The Committee of Management reported that arrangements were being made with the different churches for holding Hospital Sunday as usual, and expressed the hope that the offerings would be very large, as with the high prices that prevail for everything used in the hospital, particularly drugs and provisions, the expenses were gradually creeping up, and very few appeals had been made this year to the public on behalf of the hospital.

The Medical Superintendent reported that August had been a particularly busy one throughout the whole institution. The new Empire Wing is a great favorite with the patients, and many on leaving expressed themselves as being more than delighted with the treatment they had receive by the nurses and others.

The chairman made the statement that fifty-six nurses are now employed in the institution, the largest number ever in the Training School at one time.

A committee was appointed, composed of four past chairmen, G. Y. Chown, J. A. Minnes, F. G. Lockett and A. F. Chown, to bring in nominations for the executive committee for the coming year, which will begin November 1st.

The visiting governors appointed for the month are F. G. Lockett and W. H. Macnee.

LETTERS CENSORED.

A new regulation has gone into effect whereby letters entering Canada from the United States must be censored by the Canadian authorities. Some letters which arrived today for the Whig had been opened, and a white label marked "censored" was pasted on the back of the envelope.

THE LATE DR. D. MCINTOSH.

Professor of Veterinary Science in Illinois University.

Prof. E. Davenport, Dean of the University of Illinois, sends to the Whig the following item concerning one of its late professors, who was naturally came from Kingston. In his letter Prof. Davenport says:

"I am sending the enclosed statement because Dr. McIntosh came to us from Canada, and while, doubtless, is unknown to the present generation, yet this is all we can do in acknowledgment of the service rendered by your people in sending us so good and faithful a character as Dr. McIntosh. He came to us from Kingston in 1885, and worked in service in the British cavalry."

A Good Man Gone.

Dr. Donald McIntosh, Professor of Veterinary Science at the University of Illinois, died on Sunday evening, September 5th, at his summer home in Portland, Maine. He lacked but a few months of serving the university for thirty years continuously, and thousands of students are willing witnesses to the helpfulness and reliability of his instruction. He lived for his work, and worked to the last, for only five days before his death he had retired from active service on a university pension.

Dr. McIntosh came to the University in 1885 as special lecturer, and in June, 1886, was elected to his permanent position. At that time the total faculty of the University numbered but twenty-seven, of whom only Dr. Burrill, Professor Ricker, Professor Rolfe, Professor Baker and Professor Forbes are left. He came at a time when the University possessed but three buildings for instructional purposes, and the student attendance was but 332.

ADDITIONS TO STAFF

OF APPLIED SCIENCE DEPARTMENT OF QUEEN'S.

Which Will Open on the 29th—Temporary Appointments Made To Chairs—Whose Professors Are At the Front.

Although a large number of the students have enlisted for the war, the Applied Science Department of Queen's will be opened and carried on as usual.

The session, which begins on September 29th will see a number of the changes in the staff. The continued absence, at the front, of Professors Macphail, McColm, Ellis and Guttman involves temporary appointments to chairs which have been satisfactorily made. Professors Stone and Harvey will again fill the gaps in the Department of Civil Engineering, while Mr. Sterne will carry on Dr. Guttman's work in the Department of Chemistry.

The vacancy in the Department of Mechanical Engineering is filled for the session by the appointment of George L. Gullett as acting professor. Mr. Gullett was formerly assistant professor of Mechanical Engineering at McGill University, but resigned to pursue his profession. Dr. Bonner resigned his position as assistant professor of Chemistry to take charge of the Department of Chemistry in the University of Utah. His place is temporarily filled by the promotion of J. A. McRae, M.A., F.I.C.

Dr. J. E. Hyde, assistant professor of Geology, resigned to take a position on the staff of the Western Reserve University. Dr. K. F. Mather has been appointed to the vacancy. "Dr. Lothrop will be assisted in the classes of Medical Chemistry by J. O. Halverson, B.A., M.S., lately instructor in Chemistry in Jefferson Medical College, Philadelphia. A. F. G. Cadenhead, B.A., has been appointed lecturer in the Department of Chemistry.

LITTLE TORONTO GIRL.

Sent Dollar With Pathetic Appeal For Horse Ambulance.

J. R. C. Dobbs, who is collecting funds for the purchase of a horse ambulance for Lieut.-Col. A. E. Ross, a little Toronto girl on Thursday, the money being accompanied by a most pathetic appeal. The letter reads as follows:

"Dear Mr. Dobbs:—My little dog is name is Punch. He loves horses. He isn't very rich and I aren't, or we would send some more.—Mary and Punch."

The Pony Contest.

At the King Edward Theatre is causing more enthusiasm than was anticipated. There are over one hundred and fifty contestants, and in order to give every boy and girl a square deal, those who have been collecting votes inside theatre door at the front will be counted. It will surprise some of the contestants how many votes there are to their credit. Results will be given every Friday night.

Patching Brock Street.

Brock street above Bagot is being cheaply patched, notwithstanding the fact that this roadway is right down town, and connects with pavements. University avenue residents might visit the spot and see if they would like to have their highway to be similarly treated.

Weather Notes.

Light scattered showers have occurred in the western provinces and local thunder storms in Ontario and Quebec. The weather is cool in the west. Elsewhere it is quite warm.

"THE HAT STORE."

Millinery Opening Tomorrow

We cordially invite all ladies to our formal fall millinery opening to-morrow and following days.

In our enlarged millinery department beautiful Hats just revealed in the fashion centres, and our own workrooms are ready.
