perforations, if short gumpie is desired cut off lower edges of front and back on double "O" perforations; stitch a casing 1/4 inch wide underneath lower edge. Insert a drawstring through casing. Sew standing collar or round collar to neck edge as notched, center-backs even small "O" perforation at shoulder seam. Close sleeve seam as notched. Gather upper edge between double "O" perforations and entire lower edge. Close seams of cuffs and sleeve bands as notched and faced. Sew cuffs to sleeve bands as notched, seams even. Sew sleeve in armhole as notched. Close under-arm seam of dress as notched. Turn hem at lower edge on small "O" perforations. If shoulder edge of back is desired in straight outline cut off on double "O" perforation, turn under the edge on single perforations and lap on front to small "O" perforations for closing; if desired with rounded shoulder edge lap back on front, matching single small "O" perforations and close with buttons and buttonholes.

Any desired trimming may be added to the dress, but it is very effective without any ornamentation other than is provided in the illustration.

There is quite a formidable array of sensible and inexpensive models among the advance models in children's frocks. The design shown here is a gumpie effect, the gumpie being in two lengths, with two styles of collars. The dress slips on over the head and closes on the shoulders. It is made of blue gingham, the gumpie being of white lawn. The frock for a child of four years requires 1 1/2 yards 36-inch gingham. If a short gumpie is made with long sleeves 1 1/4 yards 36-inch lawn is needed; for short gumpie and

ROLLED OFF A ROOF

JAMES LAUGHERN BECAME DIZZY IN HOT SUN.

And Lost His Balance—His Head And Forehead Were Gashed By the Fall.

On Thursday afternoon shortly before two o'clock, James Laughern, who resides at 99 Rideau street, had the misfortune to fall off the roof of the gun-shed at Tete de Pont Barracks, receiving a deep gash on the crown of his head and another bad gash above the left eye. He was picked up by some of the soldiers standing nearby. James Reid's ambulance was hurriedly summoned and removed the injured man to the Hotel Dieu, where several stitches were required to close both wounds.

Mr. Laughern was at the time of the accident repairing the roof of the gun-shed, and it seems from the hot sun that was beaming down he became dizzy and lost his balance, rolling off the roof and falling almost twenty feet to the hard ground. A projecting board caused the gashes.

A French soldier has informed the British authorities of a German-American plot to destroy the Canadian harvest. He heard it from a German prisoner.

Sir Redmond Roblin and his three former colleagues, accused of conspiring to defraud the Province, were remanded again at Winnipeg until Monday. Dr. Montague was too ill to appear.

There was placed to the credit of the Finance Department on Wednesday the sum of \$125,000, an instalment of the Province of Ontario's gift of money to be used for the purchase of machine guns.

A Tribute To Father. American Magazine.

Because my mother knew that from the day he first met her until he died, or for all the days in fifty years, she was the woman I loved, I should like the woman I married to know the same thing of me, all our lives long.

Because he loved all flowers in cool woods and in sunny fields and by dusty roadsides, and brought them home, gathered fifty stems in bouquets "for mother," if she could not go herself to see them in the places where they held up their shy faces, because he loved all children and let them climb over his shoulders and pull his hair.

Because his eyes twinkled and his face was jolly, because he smiled at us children even in the days when he was hiding black despair in his heart.

Because although his work kept him away from home for so many weeks at a time he wrote jolly letters every time to Mother and us, making jokes out of icy winds and beds covered with snow that had drifted in through farmhouse windows, and of all hardships.

Because he was deep-chested and strong and because his strength came from work in the fields in such days as he could find no work in his own profession, because he thought no work of his hands beneath him if it brought us food and a shelter.

Because he talked to farmers and carpenters and to learned men and to diggers of ditches and to little girls and boys and to presidents alike and all loved him.

Because he wore his overcoats for ten years and his shoes for two years and called his coat "as good as new, with a little fixing of the lining."

Because he thought no sacrifice of any importance if by it we were made to love more truly whatever is good and beautiful and true in life.

Because he used to put his arm around Mother and tease her until her eyes twinkled and she said, "Go away, boy!"

Because everybody missed him when he went away Somewhere Else—and will always remember him.—That is why I should like to be such a man as he was.

R. N. W. M. P. Will Need Men. Ottawa, Sept. 9.—Some difficulty is being experienced in keeping the North-West Mounted Police up to strength. The enlistment period of the men, however, was for one year, and inside of a month about five hundred of them will be ready to leave, and many want to enlist.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

JAIL WARSAW RESIDENTS.

Leading Citizens Seized Without Warning or Questioning.

Petrograd, Sept. 9 (via London).—A prominent Polish lawyer, who made his escape from Warsaw after its capture by the Germans, made the following statement:

"Two days after the Germans entered the city more than 400 of the most prominent citizens who remained were arrested without warning or interrogation and sent to Germany. About 700 families were deprived of their heads and of knowledge of their whereabouts.

"Arrests continue daily. The only known reason was that the names of the victims appeared on a list compiled by informers and sent to Germany many months ago.

THE SPORT REVIEW

The game of amateur hockey in Ontario is giving freely of its players for the front.

Two more of Ottawa's tennis stars have enlisted for active service. Paul Armstrong of the Rideau Club, the city champion for this year, and J. V. McKenzie of the Ottawa Club.

Toronto Star: Haldena led across the line but Kiota III, of Kingston, "had 'em all beat" when her engine cut up dikes and she was forced to quit.

The Detroit Baseball Club is strengthening up for the final dash. The Tigers have purchased pitcher Grover Loudermilk from the St. Louis Americans.

"Johnny" Poe, former Princeton football star and soldier of fortune, is now fighting with the Allies in the trenches, and has been transferred from the artillery to the Black Watch.

The English soccer league opened last Saturday with the attendance just as large as before the war. The league is divided into three sections, and all the players are performing without salary.

Rosedale are the champions of the Queen City Lacrosse League, and will now play the Nationals, N.L.U. title winners; for the professional honors in the East.

Edouard Fabre, Montreal, is going to run in still another Marathon race shortly. This race is to be held in Chicago, but its date which was originally set as being in September may be changed to October.

Dr. Joseph Bricker, once of Toronto Variety, now Corporation Athlete, established a Dominion record for the pole vault in the Labor Day sports, when he cleared the bar at eleven feet three inches.

Montreal Star: The Governors of the Inter-Provincial Rugby Union should consider carefully before they abandon Senior Rugby this season. The argument that war-time is not the time to play games like this, and that it may prevent players from enlisting, does not hold; the implied argument that on account of the war having crippled their teams some clubs will be unable to make a brilliant showing holds even less.

The City Baseball League has almost concluded the season. Probably the last game will be contested on Saturday afternoon when the Victorias will meet a strong aggregation from the 33rd Battery, Barrieffield Camp. Lieut. Huycke will pitch for the Batters. The game will afford a splendid close to the baseball season in Kingston.

Next year may see the elimination of the City Baseball League and a league composed of Kingston, Gananoque, Clayton and Alexandria Bay.

A Responsive Audience.

Chatting about the varied work of chaplains at the front, and the strange places in which sermons have been preached to the troops, the Rev. R. J. Campbell, who is going to spend his holiday among the British soldiers in Flanders, told of an amusing experience he had when going over to America for his last tour. While on board Mr. Campbell was asked to give a sermon, and as he was preaching a sudden rolling of the ship threw the whole congregation to the deck. "That was the most rocky pulp it ever occupied," he remarked, "but the congregation was ever more quickly moved."

Sure Enough.

Mrs. Bacon—This paper says that according to an Italian physician love causes an intoxication of the nervous centers, producing a disease that, if not cured, may lead to neurasthenia and even insanity. Do you think that is so, John? Mr. Bacon (busy with the kid)—Oh, how should I know!

Treaty Made Between Turkey And Bulgaria

(Special to the Whig.)

Sofia, Sept. 9.—The Bulgarian Premier has stated in an interview that the Turco-Bulgarian agreement for the cession of the Dedeaatch Railway has been concluded. The concession consists of the railway line with the Karagatch station, and a strip of territory two kilometres deep along the left bank of the Maritza. The right bank of the River Tundja has not been ceded. The Premier states that the occupation of the ceded territory will take place in ten days. The ceremony will be conducted in the presence of the Bulgarian Ministers and the Turkish Pashas.

INDIAN WAR DANCE.

Different From Hugs and Trots of Modern Civilization.

Writing in Recreation, Leonard Dewitt Sherman describes the Navajo Indian dances of the South-west.

If you have wearied of the various trots, walks, hugs, sinks, and tangles as exemplified in modern dancing, I would advise you to stop over at some of the South-Western pueblos on your way to or from the Pacific Exposition this fall and see a real dance. Among the best-known are the Green Corn dance of Santos Domingo, the Nopi Snake dance, and the Feast of Acoma.

While the dancers are preparing the spectators are kept amused by the antics of two clowns. The performers are divided into two parties. One-half young women and half young men dressed in their finest befitting above it (in the case of the men) are decorated with evergreens and might be said to be the principals. About twenty men in ordinary clothing form the chorus. These take up the burden of the song, all chanting to the tramp of the drum, jumping up and down with a peculiar kind of clog step, keeping perfect time. The words themselves consist merely of the syllables "Ho! oo-oh! Ho! Ho! Ah-ho!" but the chant is melodious enough, and of a peculiar undulating quality that is indescribable, and which, joined with the quick tom-tom of the drum beaten in about 6-8 time, fairly clogs the ears with its regular deafening property. The dancers continue without a halt for half an hour, when another set takes their places.

"Parley-vous" Is Best For 'Phone. The French language has been found much better adapted to long-distance telephoning than the English, and expert operators in Paris have succeeded in transmitting messages to London at the rate of 150 words a minute.

Just Apply This Paste and the Hairs Vanish

(Helps to Beauty)

A safe, reliable home-treatment for the quick removal of superfluous hairs from your face or neck is as follows: Mix a stiff paste with some water and powdered delatone, apply to objectionable hairs and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This simple treatment is unfailing and no pain or inconvenience attends its use, but to avoid disappointment be certain you get genuine delatone.

RIDEAU STREET CONVENT.

TESTIMONIAL FROM RIDEAU STREET CONVENT

Ottawa, Ont., Aug. 21-15.

Messrs. C. W. Lindsay, Ltd., Piano Dealers, 159 Sparks St., Ottawa, Ont.

Gentlemen: Having found it necessary to replace some of the pianos which are in use in our convent, we have decided to purchase another one of your most excellent Heintzman & Co. pianos, and we would like you to furnish us with one which we have just selected from your stock at your warehouses.

In purchasing this piano, we wish to express to you our delight and satisfaction in the several Heintzman & Co. pianos which we already have in use, purchased from you some time ago. The responsiveness of action, the evenness of tone throughout the entire scale, as well as the quality and volume are all that could be desired, and as a piano for a home or an institution where the best is required, they are all that can be desired, and we have no hesitation in stamping the Heintzman & Co. as Canada's Best Piano.

Yours very truly,
SISTER OLIER, Superior.

Better Foods for Less Money

If you use both lard and butter in your cooking—lard for ordinary occasions, and butter for the things you want especially rich and appetizing—you will find Crisco a welcome economy.

CRISCO

For Frying For Shortening For Cake Making

Cake or pastry made with the best creamery butter is not a whit more delicious than when made with Crisco. Yet Crisco costs but half as much as butter.

And foods made with lard seldom attain anything like the flavor of those made with Crisco—not to mention the superior digestibility of the latter. Yet Crisco costs less even than the best grades of lard.

It pays to use Crisco—pays in dollars and cents as well as in food that tastes better and digests easier.
