There is more catarrh in this section of the country than at other places put together, and until the last few years was supposed to be incurable. For a number of years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, sold by Dr. J. C. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

Dr. Chase's Ointment
That Dr. Chase's Ointment actually cures even the worst cases of itching, bleeding and protruding piles we know for a certainty, because of experience with thousands of cases. To prove this to you we have sent you a sample box free, if you enclosed a two-cent stamp to pay postage, and mention this paper. Edmonson, Bates & Co., Limited, Toronto.

A PLAIN WAIST OF VERY GOOD LINE.
braided looks well. The inset vest may be of contrasting material, since it is trimmed with a row of tiny buttons. Reseaming upon the long sleeves, the buttons help the military air which the braid trimming imparts to the waist. Next to these, in the same position, comes the peplum. To the right of the peplum, but slightly elevated so that the end of the outer edge will rest on the fold of the goods, comes the sleeve. This, however, rests on a lengthwise thread of material. Opposite the back is the front, and sandwiched between the front and sleeve are the small sections for the under-arm, the vest and the belt.
Old-fashioned sarat silk is reserved for fashionable fall wear and will be used extensively in the development of white or blue trimmed with flat silk separate waists.
Without the hampering effect of superfluous fullness to be disposed of in tucks or gathers, the home dressmaker will find it easy to develop this waist of fine silk poplin. Light tan, cream, white or blue trimmed with flat silk separate waists.
