THE SIXTEENTH DAY OF ARTILLERY DUEL

French Gunners Wrecked German Batteries And French Salients in Argonne---Aeroplanes Raid the German Front And Bombard Junctions.

(Special to the Whig.)

Paris, Sept. 14,-Flotillas of French aeroplanes raided the German front early to-day, bombarding railway junctions, while the incessant cannonade on the entire battle line continued for the sixteenth day.

This afternoon's official statement said the railway station at Bonsdorf Junction, near Morhang at Chatel, in the Argonne, and at Longmarche, north of Ypres, were attacked by French birdmen. The French gunners were particularly successful in last night's bom-

bardment in the Argonne, damaging German batteries in Mermare forest and wrecking German salients. Artillery fighting was very violent during the night in the entire

Arthise region south of Somne and along the Aisne canal to the Marne.

Foe's Field Works Heavily Damaged.

Paris, Sept. 14.-In addition to keeping up a general cannonade at many points on the long battle front, French artillery yesterday succeeded in damaging the organizations of the Germans on the front north of the Oise and their works at Beauvraignes. The German trenches, cantonments, and batteries situated on the lines between the Aisne and the Marne were violently bombarded, especially in the environs of Sapigneul and Neuville, near Berry-au-Bac,

THE ALLIES TO ATTACK TWO PARTS OF GALLIPOL

(Special to the Whig.)

London, Sept. 14.—Resumption of fighting at the Dardanelles, both on land and sea, was reported in despatches from Athens to-day. There are indications that the Allies are preparing for concerted attacks in the National Bank of Turkey. both the Sedd Ul Bahr and Sulva Bay regions of Gallipoli.

Turkish batteries, which have been shelling the Anglo-French trencehes at the southern tip of the peninsula by throwing projectiles across the strait, have been demolished.

Two British cruisers entered the strait and wrecked the shore guns

on the Asiatic side for a distance of three miles.

The cruisers then steamed in close to the European side of the Dardanelles and shelled the Turkish left on the Gallipoli peninsula.

Admiral Sir Percy Scott is Appointed---German Submarine Sunk At Dardanelles---Turks Burn Seaport Town, Convinced Straits Must Fall.

(Special to the Whig.)

London, Sept. 14.-London will be ready when the Zeppelins come Full details have not been made public, but it was learned to-day that the entire system of defending the Capital from sky attacks will be radically changed as the result of an important conference held last

"It will be a lucky Zeppelin that succeeds in passing the city, outskirts," was the significant statement made by one aeronautical expert after the conference adjourned.

The appointment of Admiral Sir Percy Scott, England's greatest authority on naval gunnery, to take charge of the defences of London against Zeppelin raids, is only one of the features of the new "anti-Zeppelin programme."

Other measures will be kept secret for the same reason the Admiralty withholds information of its methods of meeting the German submarine campaign.

Petrograd, Sept. 14 .- The evacuation of Vilna will follow the cutting of the Vilna-Petrograd Railway, it was semi-officially admitted today. The battle south-east of Riga is daily growing more furious. Gen Von Beseler has been reinforced by Von Hinderberg, and is making every effort to shatter the Russian front on the Dwina, from Dvinsk to within thirty miles of Riga.

The Germans are renewing their attempt to cross the Dwina near Linden under the curtain of a terrific artillery fire. The assault upon Dvinsk from the west has been fruitless.

In the Tarnopol district the Czar's troops continue to drive the Germans back, taking prisoners and machine guns,

In the extreme south-east the Austrians have suffered heavily in attempts to stem the Russian advance by counter attacks.
