WALDRON'S

MAN LOST HIS MEMORY

HE COULD NOT GIVE HIS NAME TO THE POLICE.

Has Home on University Avenue, But Wandered Away to House on River Street—Spent Sunday in Police Station.

To wander around the city, and to so far lose his memory as to not know his own name, was the sad plight of a married man, a resident of University Avenue, who was gathered in by the police on Saturday night and who spent all day Sunday in the police cells before his name was known and his home located.

The man has been employed as a laborer, and has lived in the city for several years. Saturday afternoon, after leaving his home he wandered around the city and about 6 o'clock called at a home on River Street and asked for something to eat, although he had plenty at home, and a wife waiting for him.

He acted, very strangely, at this house, and after eating his meal, the people thought that it would be best to notify the police, and they did so. Constable Horne responded, and the unfortunate man was held at the police station.

He could not give his name Saturday night, and did not know where he had been or what he had been doing. Sunday forenoon his memory came back to him gradually, and he mumbled his name to the police. About the same time a citizen called at the station, and he at once recognized the man. Later on he was taken to his home. He was reported to be much better on Monday morning.

A number of officers and men of the 8th are in Ottawa for the fair. Capt. W. A. Blinn, adjutant of the unit; Capt. Askwith, and several others were noticed on the grounds yesterday. Major Burritt, engineer officer of Barriefield Camp, is also paying a visit to the city."

Canadian Locomotive Company.

The Financial Post learns that the Canadian Locomotive Company for its year ended June 30th, 1915, earned a small surplus over its interest and fixed charges, but that the payment of preferred dividends of \$195,000 necessitated cutting into the company's surplus by some \$50,000 to make up the deficiency in the year's operations. Shareholders will be glad to know, however, that the profits for the current year based on war contract business have already considerably more than wiped out the small deficiency of the past year.

Letters To Editor

Montreal Street Needs Attention.

Kingston, Sept. 20 (To the Editor).—Do those responsible know the state of the roadway from the corner of James and Montreal streets to the Grand Trunk Junction? Why, when the dust is disturbed by the wind or there is a succession of automobiles, a German Zeppelin would set us in the road. There is no disputing that we love our country, but find it hard to digest it when one has to eat it for breakfast, dinner and supper, and it would be no harm if the man in blue would try and become better acquainted with the district. If he is paid by the number of visits (even on the street car) he will soon find himself an inmate of that residence by the dump. And as for our spouters in the City Council, they only visit to make promises and admire the babies.

It is a falsehood if you were told that we object to the smell of that tar that you put on the road. We are not gypsies, for ye gods we also have to pay the same as the other side of the city. But it is not necessary to send us assessment notices. Come in and mark the amount on the furniture for there is always plenty of our beloved country blowing in. When the wet days come, well the second state becomes worse than the first. A little attention to the above would do no harm.—Pro/Bono Publico.

Notice!

To Gas Consumers

Owing to immediate repairs having to be made to the main Gas-Holder, it will be necessary to cut off the supply of GAS in several sections of the City for a few days.

Consumers in these districts will be immediately notified, so that provision can be made during the interval.

We ask the kind indulgence of the public for a few days until the necessary repairs are completed.

C. C. FOLGER, Mgr. Civic Utilities.
