It was rather chilly early Tuesday morning, but by noon Old Sol came forth with one of his pre:tiest smiles, and Secretary Bushell and all the fair directors had good reason for wearing smiles of the Sunny Jim type. The fair gives every promise of being the greatest success in the history of the King-

ston Industrial Agricultural Society. Quite a number of people came in from the country on Tuesday to attend the exhibition. At the grounds, everything was hustle and main building, a large space voted to local merchants, who are putting up a fine display. There are also quite a number of outside exhibitors. The display of vegetables, which is without doubt the finest collection ever shown at any exhibition in eastern Ontario, was one of the first to arrive at the grounds,

and much admired Vegetables of all kinds, every one the sight was enough to make vegetarian look with longing eyes. The vegetable growers in the Kingston district are to be congratulated on their display.

The display of women's work is the best ever given. Dairy products are featured. Frontenac is a dairying county, and the farmers engaged in this business are in the front ranks in their line of business.

## RICH RUSSIAN CROPS.

Plenty Of Wheat To Export. Waiting For a Way Out. In Russia the harvest is far better

than that of 1914, a great deal above the average of the five years 1909-13 At Adrianople Taking all the crops together the figures indicate that when the cutting is finished the yield will be about 2, 000,000,000 bushels. The winter sown grain is harvested already and a large proportion of the spring-sown crops,. The figure arrived at it 446,000,000 bushels better than last year's total and 291,000,000 in excess of the five-year average. Of wheat, which is the crop which

chiefly interests Great Britain as an have the GAS installed in your importing country, altogether there will be harvested 571,000,000 bushels, against 428,000,000 in 1914 and a five-year average of 478,000,000 Light, oushels. Have patience, Henry. This is war against war. Folks who survive it are going to be gun-shy for some time. You have done a great Chicago, Bay City, Saginaw, Montrea people want to die. But war, Henry, cor. Johnson and Ontario streets brings a much greater lesson than that—the lesson of self-sacrifice. Nobody is much good who has not cares more for than he does for life, even though it is life alleviated by the Ford motor. You help to make life pleasant, but war, Henry, helps That is the old lesson of Calvary repeated at Mons and Ypres and Liege and Namur, whether there are more people in the world or less, whether they are fat or lean, whether there are Fords or oxen, makes no vital difference, but whether men shall be willing to die for what they believe in makes all the difference between a pigsty and Paradise.
