

Your Fall Suit and Overcoat

We're at your service once more. The correct thing in Fall Overcoat or Suit you'll be sure to find right here. This store is just the place to get the earliest points in what to wear.

STEP IN FOR A MOMENT

See what the new season has brought forth. Overcoats and Suits perfectly cut and perfectly tailored.

Overcoats \$12, \$13.50, \$15, \$18 up to \$22
Suits \$12, \$15, \$18 up to \$25

Clothes quality these days count for as much as price in the way of inducements when asking for patronage.

If you care at all for clothes excellence, Sir, come here.

Livingston's, Brock St.

A little out of the way, but it will pay you to walk.

DESCRIPTION OF RAID

ON LONDON RECENTLY BY A GERMAN ZEPPELIN.

B. S. M. Peplatt's Niece Writes—She Saw the Zeppelin As the Searchlights Were Flashed Upon It.

Probably the best description of the Zeppelin raids on London that has yet been received was written to B. S. M. Peplatt, R. C. H. A., on September 17th by his niece in London. The letter tells the story in a graphic manner, and reads as follows:

"I have only just written to you, but I thought I really must write again, because since then we have had a terrible air raid in London. What I am going to tell you is what I actually saw myself.

"It was, about, as near as I can remember, 10.45 p.m. Wednesday, 17th, and I, who had been to see some friends, off, and was standing on the corner of Tottenham Court Road and Austin Road, when there was a terrific explosion. Before we could realize what it was, all the guns were going to warn the people. The police were running everywhere, shouting out: 'Lights out! One policeman was rather too excited, and shouted: 'Put your d—lights out.'"

"Directly the first bomb was dropped, up went the searchlights, and they seemed to pounce on the Zeppelin directly. There was the great ugly thing in the sky. I'll admit it was glorious. It looked just like the photos that you have seen of them. As soon as the searchlights were on it (and give our men their due, they stuck to it), it looked as though it was beautifully lit up inside. Then from all directions it was being fired at, but then it could not be touched. It just went along as slowly, and they must have taken it just as a matter of course. They stood it as long as they possibly could, and then making a cloud of their own they got away.

"The papers say it was in the London districts that the raid was, but sorry to say it was not so. It was right in the heart of London. Leatherton Lane is almost to the ground, and serious damage was done in the Red Lion street, Wood street, Theobald's Road, Liverpool street, Broad street, and only just escaped the General Post Office and St. Paul's. One fire which broke out on Wood street lit up the sky for miles around for more than three hours. After the Zeppelin left the city, it went right over Camden and Kentish town and Golden Green, and then made its way back quite safely. Thirteen people were killed outright in one motor bus which was struck. It was a wonderful sight, but I do not want to see it again.

"Thursday night the Zeppelins got as far as Cromley, and were driven back. The guns I can hear rattling. They rattle something awful. Parliament Hill Gun a couple of times nearly hit it. Never did we think that when the gun was but on the heat it would ever be needed."

PROF. CODD RETURNS

FROM ENGLAND ON THE STEAMSHIP SCANDINAVIAN.

Most of the Passengers Were Not Afraid—Some Of the Hesperian's Survivors Were Aboard.

Prof. A. E. Codd, of Queen's University, arrived in the city on Monday from England, accompanied by Prof. E. W. V. Clifton, who is taking over the work of Prof. Craig now on active service. Prof. Craig was recently granted a commission in the Royal Field Artillery, and Prof. Clifton, who is a graduate of Oxford but has been on Toronto University staff for the last three years, has taken over his work. Both professors came over on the SS. Scandinavian and report a quiet trip. The Scandinavian had a gun on board for defense against submarines and was fired once at a barrel as a test. No under-water craft was sighted.

Prof. Codd has been summing at his home at Cardiff, and told the Whig that although the war is keenly felt, everything has been reduced to a system, and transportation and such conveniences that were more or less demoralized at first are now working normally. The Zeppelin raids cause a vague fear among the people, but there is really little of excitement.

On the trip to Canada the Scandinavian had on board over 100 invalided soldiers, and a number of survivors of the Hesperian disaster. The latter were extremely nervous in the submarine zone, having had one thrilling experience, but the remainder of the passengers did not seem to worry. The steamship took the course around the north of Ireland.

LOSES FOUR OFFICERS.

As a result of the war, St. Andrew's Society, Kingston, has been robbed of four of its chief officers. Three are now at the front doing their "bit," and the fourth is at Barriefield Camp, ready to go overseas as soon as the call comes. Prof. W. L. Grant, the president, is attached to the 59th Battalion, at Barriefield Camp; Prof. J. L. Morrison, the second vice-president, is now overseas with a British regiment; Dr. A. E. Ross, the physician, is at the front, as also is the bard, Prof. Alexander Macphail.

Thirteen Women Are Prisoners In the Jail

The women appear to be "holding the fort" at the county jail. The police records show that since Sept. 1st there have been no less than thirteen women sentenced to terms varying from one to three months.

Not in many years have the local police made so many arrests among the female sex. Drunkenness and vagrancy are the chief charges, although there is one woman serving a term for being the keeper of a disorderly house.

In addition to the number sent to the jail, quite a number of women have been deported as undesirable. In the Police Court on Monday morning the Magistrate gave orders to have a young woman sent to her home in the Old Country.

With the aid of the military police, the city police force is keeping a close tab on all the evil-doers.

GEN. FRENCH'S BIRTHDAY.

London, Sept. 28.—Victory for the Allies came on the eve of the birthday of Field Marshal Sir John French, and hundreds of messages of congratulations were sent to his headquarters in London yesterday. Some telegraph offices were completely swamped by the flood of despatches. General French is sixty-three to-day, he having been born on Sept 28th, 1852.

Russians See New Hopes As Foes Weaken

Petrograd, Sept. 28.—The German aggressive on the eastern front has become noticeably weaker during the past few days. With the increasing extent of their penetration of Russian territory the impetuous strides with which the Germans for a time made fast headway against the Russians, carrying everything before them, have been gradually shortening up.

At the same time the Russian opposition, with the replenishment of the army's military supplies, is growing daily more stubborn and resort is being had to bayonet attacks with apparently all the confidence and vigor that carried the Russian arms last winter to the crests of the Carpathians.

The efforts made to trap the Russian armies retreating from Vilna failed, as did the similar efforts made last summer after the taking of Warsaw, notwithstanding that the opportunity for success in the Vilna region appeared much more promising.

The assaults upon Drinsk have been checked by the brilliant defense of General Ruzsky and the operations here have come to a temporary standstill, due to the exhaustion of both combatants after days of battling.

A Spanish boat, carrying \$20,000 in gold, destined for Germany, has been seized by the Italian police in Genoa harbor.

COUNCIL WILL HELP

IN SECURING EMPLOYMENT FOR RETURNED SOLDIERS

Resolution Passed At the Instance Of Ald. Nickle—Some Returned Soldiers Will Be Under Pay For Some Time.

"That this Council goes on record as being strongly in favor of making every reasonable provision for the employment of any and all men who return from the front and do not find their former or other positions open to them."

The above resolution, moved by Ald. Nickle, was unanimously passed by the City Council at its meeting on Monday night.

Ald. Nickle spoke strongly about the city giving employment to able bodied men who had not even volunteered for home duty. It was not right for a city corporation to do that, he claimed. Kingston soldiers, who had done their "bit" at the front, were returning, and one or two of them had made application to him to try and find them employment.

Ald. Gardiner, who is Assistant Director of Medical Services for the 3rd Divisional Area, stated that some of the returning soldiers would be under pay for some time, as they had been discharged. When the time of their discharge arrived, they would get some kind of pension and be thrown on their own resources. He thought the move made by Ald. Nickle a good one. The city should take care of its sons who had fought for the Empire and were returning home through wounds and illness. Ald. Gardiner also advised that the Council work in conjunction with the Aid Committee of the city.

Ald. Nickle added to his resolution that the Finance Committee be empowered to consult with the Aid Committee and do whatever it deemed should be done.

A NEW PAPER ISSUED.

To Oppose Presbyterian Entry Into Church Union.

The first number of the Presbyterian Advocate, a publication representative of the more than fifty thousand members of the church in Canada who voted against the proposed union of the Presbyterian Church with the Methodist and Congregational Churches, has been issued for distribution. The sixteen page booklet is devoted to a clear and comprehensive setting forth of the objections of those in favor of the continuation of the Presbyterian Church, to the proposed basis of the union on which all the churches in Canada will vote before very long.

"The union is opposed because it is impossible," says the Advocate. "A new organization may be possible but not the combination of these three churches into one organization, for the Presbyterian church is continuing."

The Kingston members of the continuation committee are G. M. Macdonnell, K.C., Rev. S. J. M. Compton and Rev. Dr. G. D. Ferguson.

WOMAN'S AID SOCIETY.

Of General Hospital Arranges For Tag Day On Oct. 9th.

The Woman's Aid Society of Kingston General Hospital met on Monday afternoon. The special business taken up regarding the fund arrangements for Tag Day. The date fixed is Saturday, Oct. 9th.

The ladies are united in their efforts to make this a record Tag Day. The funds of the society are very low, but owing to the many urgent calls in connection with the war, a special appeal has been made for the hospital for some time, and it is felt that the citizens will do all they can to make this undertaking a success. Mrs. H. W. Snelling and Mrs. W. R. Carey were appointed visitors for next month.

Information is Needed.

Before the City Council decides to put gas and water mains in Kensington avenue under the local improvement plan, it desires some information, and has asked the Board of Works to get to the bottom of the middle. It should pay for the ratepayers should pay for the gas and water mains and the Utilities Commission step in and reap the benefit. It will require the City Solicitor to make these things clear.

Help Our Dumb Ally.

What about our dumb ally, the horse? Tommy and Jack wear he is the best friend they have in France and Flanders. Give him a lift then when wounded and every step is a separate agony. Help the Blue Cross Ambulance. Leave subscription with E. E. Newman, manager of Royal Bank.

This Is a Season Of Tailored Suits

No Garment requires more skilful and painstaking workmanship. The styles we show are this Autumn's best models. The style changes for this Fall are quite marked, so that every woman will want to see just what these changes really mean. The coats are quite different and the skirts are sensible and comfortable and infinitely more graceful and becoming than the tight ones of last season.

We are showing many styles, ranging in price from

\$15.00 to \$35.00

SUITS AT \$15.00

SUITS AT \$16.25

SUITS AT \$18.00

SUITS AT \$19.50

SUITS AT \$22.50

And Many Other Prices up to \$35.00.

COME TO-MORROW

Even if not ready to buy you may select any suit you wish and have it now when the assortments are at their best.

The Stocking Centre

This is the Great Supply Store for Kingston's Hosiery Needs.

Women's Stockings

All Wanted Makes and Sizes at prices less than you expect.

Children's Stockings

The Best Makes in both Cotton and Cashmere and on all wanted sizes.

Men's Socks

In Cotton, in Merino, in Cashmere, in Silk—a complete range.

John Laidlaw's Son

CAMPBELL'S LINEN THREAD, for lace work, now in stock.

WALDRON'S

QUEEN'S SCIENCE RESULTS.

Those Who Passed the Supplemental Examinations.

The Science supplemental results were announced at Queen's University on Tuesday morning as follows:

First year English—C. C. McConville, Div. III.

Trigonometry I.—J. M. Campbell, Div. III.

Geometry I.—A. C. Hanley, Div. III; F. H. Fleming, Div. III.

Algebra I.—E. Jamieson, Div. III.

Astronomy I.—C. R. Harris, Div. III.

Mathematics II.—N. M. Cooke, D. R. Snider, W. E. Stephens, W. R. Hughson, W. C. Ringsleben, R. L. Keller, all Div. III.

Mathematics III.—J. C. Bates, G. O. Vogan, A. A. Paoli, F. Holmes, all Div. III.

Physics I (a)—A. C. Hanley, C. H. Cumming, W. R. Hughson, all Div. III.

Physics II.—R. L. Keller, Div. II; W. R. Hughson, Div. III; C. V. Lawrence, Div. III; H. F. Finnemore, Div. III; E. F. Yates, Div. III.

General Chemistry I.—G. H. Chalmers, Div. III.

General Chemistry II.—G. A. Chalmers, Div. III.

Analytical Chemistry I.—G. O. Vogan, R. L. Keller, G. H. Chalmers, all Div. III.

Mineralogy V.—H. C. Bates, A. A. Paoli, both Div. III.

Metalurgy I.—C. V. Wilkins, Div. I; S. C. Morgan, Div. III.

General Engineering I.—H. C. Bates, D. R. Snider, N. M. Cooke, C. H. Cumming, A. A. Paoli, B. T. Yates, all Div. III.

General Engineering II.—J. R. Stewart, Div. III.

General Engineering VI.—W. G. Harrett, F. J. Donevan, F. W. McCarthy, E. L. Pettigill, J. R. Stewart, all Div. III.

Structural Engineering I.—C. E. Fraser, Div. I; G. Smith, Div. II; F. J. Donevan, Div. II.

Structural Engineering III.—G. Lynch, Div. II; J. O. Martineau, Div. III.

Electrical Engineering III.—C. A. McGillivray, Div. III.

Mechanical Engineering I.—C. V. Wilkins, Div. III.

Mechanical Engineering II.—J. H. Dagenais, Div. III.

Mechanical Engineering IV.—C. V. Wilkins, Div. II.

Mechanical Engineering VII.—R. L. Keller, Div. III.

Descriptive Geometry.—W. D. Colby, R. L. Keller, A. N. McCallum, all Div. III.

To Help Ambulance.

Mayor Sutherland and Stanley Trotter have interested themselves in behalf of the efforts being put forth to secure a horse ambulance for Dr. A. E. Ross at the front, and have made arrangements with J. B. Walkem and J. R. C. Dobbs, of the Children's Aid Society, to bring Eugene Tremblay, champion light-weight wrestler of the world, to this city some time next month, to meet a celebrated wrestler from the States, to be secured by George Kennedy, of Montreal, the proceeds to be given to the ambulance fund.

The Greek Government has requisitioned twenty merchant vessels for the transportation of troops.
