BRITAIN WARNS

Bulgaria Against Aiding the Germans.

THE ALLIES WILL ACT

IF A RUPTURE OCCURS IN THE BALKANS.

Sir Edward Grey Reveals Policy — Hostile Move Means Help For Bulgaria's Foes "Without Reserve And Without Qualification."

London, Sept. 29.—"If Bulgarian mobilization should result in Bulgaria assuming an aggressive attitude on the side of our enemies, we are prepared to give our friends in the Balkans all the support in our power, in a manner that would be most welcome to them, in concert with our Allies without reserve and without qualification," was the announcement made by Sir Edward Grey, the British foreign secretary, in the House of Commons this afternoon.

Secretary Grey emphasized the long-standing friendship between Great Britain and Bulgaria, and added:

"Our official information from the Bulgarian Government is that they have taken up a position of armed neutrality to defend their rights and independence, and that they have no aggressive intentions whatever against their Balkan neighbors. Not only is there no hostility in this country to Bulgaria, but there is traditional warm feeling of sympathy with the Bulgarian people.

"So long, therefore, as Bulgaria does not side with the enemies of Great Britain or her Allies there can be no question of British influence or force being used in any sense hostile to Bulgarian interests."

Wants Balkan Agreement.

After making the categorical announcement that if Bulgaria should assume an aggressive attitude on the side of Great Britain's enemies the Government would take action, Sir Edward continued:

"We are, of course, in consultation with our Allies on the situation, and I believe the view I express is theirs also; our policy being to secure an agreement in respect to the Balkan states which will ensure each of them not only independence, but a brilliant future, based as a general principle on territorial and political union and kindred nationality.

"To secure this agreement," the foreign secretary continued, "we recognized that the legitimate aspirations of the Balkan states must find satisfaction. The policy of Germany, on the other hand, has been to create for her own purposes disunion and war among the Balkan states. She made use of Austria-Hungary to precipitate the European war, with the result that that empire is completely subordinated to Germany and dependent upon her.

"Turkey, whose interests would have been preserved if she had remained neutral, has been forced by Germany into this war, and is now being made dependent upon Germany in order to realize Germany's aspirations and influence, from Berlin to Bagdad.

Effect of Berlin Policy.

"In the same way it would naturally be Germany's policy so to use any of the Balkan states, with the inevitable result that that state eventually would be subordinated to her, and that, though territorial gains might be promised, she would lose her independence.

"This is directly contrary to the policy of the Allies, which is to further the national aspirations of the Balkan states without sacrificing the independence of any of them."

British Subs. In Baltic Sea Under Russia

London, Sept. 29.—The silence of the Admiralty in regard to the work of British submarines in the Baltic was explained in the House of Commons yesterday by Thomas MacNamara, Financial Secretary of the Admiralty. Mr. MacNamara said, in response to a question, that these submarines were under the orders of the Russian Commander-in-Chief. "The House will realize that much gallant and subtle work has been done by these vessels," Mr. MacNamara said, "but the responsibility of deciding what shall be made public of their proceedings in the Baltic must rest with the Russian Admiralty.

QUEEN'S HAS OPENED.

For the 75th Session—A Big Freshman Class.

Queen's University opened for the seventy-fifth session on Wednesday morning, and the Registrar's office and the halls were busy places. Principal Gordon, who is in Ottawa, is expected to arrive home on Thursday.

When asked as to the number of students who would possibly attend this year, G. Y. Chown, Registrar, told the Whig that he was unable as yet to form any opinion. There are a large number of students in the city but for the first two days they are busy locating themselves in boarding places and making other arrangements, and some take full advantage of the three days grace to register. The freshman year is expected to be large, even larger than usual, but the senior years will be somewhat depleted owing to the number of students who have enlisted.

The R.C.H.A. Not In Action Up to 13th

Mrs. Joseph Williams received a letter from her brother, Pte. Edward McDermott, Canadian Transport, dated in France on Sept. 13th, and which in part says:

"I had the pleasure of witnessing a very exciting aeroplane duel this morning. Our machine succeeded in damaging the German, who was too far behind our lines for him to reach home. As he was coming to the ground he opened fire with his machine gun, killing one of Kitchener's men. He was immediately avenged, as both the pilot and the observer of the plane were riddled with bullets. They died game though. The German aeroplane was a beautiful machine, with the iron cross, enlarged, painted on its wings.

"The R. C. H. A. is near our lines now, although not in action.

"They are forming a Canadian corps over here now instead of a Canadian division. This means all the Canadian troops will be fighting together for the remainder of the war."

MAKING ENQUIRIES

As To Whether Two Boston Men Escaped the Storm.

United States Consul Johnson is making enquiries at Oswego, N.Y., as to whether R. A. Hogner and E. P. Perry, Boston, who left Kingston on Saturday night in a motor boat for that American lake port, have reached there. The two men had been on a hunting trip to Lanark County, and were arrested at Smith's Falls as suspected German spies. They were released and came to Kingston. As they started out a few hours before the storm broke, Mr. Johnson is anxious about them, as they were to have telegraphed him certain information on reaching Oswego, but no word has come from them.

He was also on the Social and Moral Reform Committee and the Committee on the State of the Church.

Fighting Huns With Shells From Kingston

The Canadian artillery is now fighting the Huns and no doubt using shells which were turned out at the Canadian Locomotive Works in Kingston.

The despatches on Wednesday afternoon stated that Canadian-made shells were being used now, so this means that some of the shells manufactured in Kingston are now being put to use.
