THE FAIR AT ODESSA

ATTRACTED A LARGE CROWD FRIDAY AFTERNOON It Marked the 80th Annual Exhibition Under the Auspices of the Ernestown Agricultural Society —A Show With a Record.

(By Staff Reporter.) Odessa, Oct. 2.—Another fall fair has passed into history, but it will carry with it many pleasant recollections for the big crowd that came to this village yesterday. Fair day is always a day of all days here. The exhibition is one that has a record, and this record was upheld with a little more added to it. It has been named the "World's Fair," and rightly so, for at it there is exhibited the best in the land. The word, "great success," can be placed in the diary for 1915, for the show was certainly one of the best ever held here. In the first place the men back of it had good weather, and this means a great deal. Then the display was worth while, and the crowd, a good sized one, and everything combined to make the affair a grand success. It is just eighty years ago since the first show was held under the auspices of the Ernestown Agricultural Society, and this is some record. Fairs may come and fairs may go, but like the little brook, the Odessa fair goes on forever. Odessa without a fair, would be like a ship without a rudder. The directors have every reason to be proud of their fine record. Yesterday, Mr. Farmer, Mrs. Farmer and all the little Farmers, in the village, and the surrounding country, took a holiday and went to the fair. And they enjoyed themselves too. It was a most fitting climax to a good summer's work. S. G. Hogle is president of the Agricultural Society, and A. M. Fraser secretary. They worked hard to make the event a success, as did also all the directors, and to them much credit is due.

THE CROWN PRINCE IS FACED BY A BIG DISASTER. (Continued from Page 1.) The Red Cross and the sanitary departments this shambles has been completely cleaned up with amazing speed and efficiency. This is in striking contrast to the battle of the Marne a year ago, when thousands of bodies of men and horses lay rotting in the hot sunshine for days. Health Minister Goddard himself superintended the cleaning up of the battlefield, speeding from point to point in an auto, engaging the stretcher-bearers and pressing into service even a great number of German prisoners. As a result of this activity he has saved France several thousand lives. I am informed on excellent authority that the percentage of mortality among the wounded is one in 10, a much lower figure than ever before. The immediate use of antiseptic serum, which was administered to the troops as they lay on the plowed-up soil, has alone saved hundreds.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE" Spend 25 cents! Dandruff disappears and hair stops coming out. Try this! Hair gets beautiful, wavy and thick in few moments. If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots tamish, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made. We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no flandruff, no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

the main building, and it attracted much attention from the men and women who are called upon daily to milk twenty or more cows by hand. A couple of men stood by the machine, and explained the wonders of the machine, and at the same time solicited trade. Close by a couple of men with a patented potato peeler and can opener did a rushing business. Several women soliciting money for the Red Cross Society, and the Odessa library, made the midway their headquarters, and accosted the people for money to help along their work. A small tag was given to everyone who dropped something in their cash box. Very few got out of the grounds without being tagged. The whig reporter was tagged before he had time to get out of his auto. One lady jumped on an auto and would not leave until he had run the car handed her twenty-five cents. As a canvasser she certainly made good. There were many interesting incidents in connection with the "holding up" of people for money. Well, all for a good cause, and the people took it good naturedly.

A large number of Kingston people attended the fair. They came in buggies, automobiles, and on motor-cycles and bicycles, any old way to get there all roads led to Odessa. The business men were also well represented. John McKay Ltd., and George Mills & Company had a fine display in the main building, while other business men represented on the grounds included T. J. O'Connor, Abernethy's, James Reid, T. F. Harrison and E. P. Jenkins. The Odessa Band, was present, and during the afternoon took up quarters near the main building, and rendered a very fine programme of music. A large number of people from Napanee attended the fair. S. G. Hogle is president of the Agricultural Society, and A. M. Fraser secretary. They worked hard to make the event a success, as did also all the directors, and to them much credit is due.
