

# ON BARRIEFIELD HEIGHTS WITH THE OVERSEAS TROOPS

One of the most important things taught the soldiers at camp is the use of the bayonet. Up to the time this war broke out the bayonet was not considered as efficient as it is now. The war has brought out the necessity of the soldiers being experts in handling a bayonet.

On the field to the south of the Gananoque road are trenches and rows of sand bags used in bayonet training. The soldiers are shown how to charge out of one trench into another and how to protect themselves with the bayonet. A company of the 59th Battalion is given this instruction every day and before very long the men of the 80th will be receiving the same advanced training.

Eight recruits for the 80th Battalion arrived from Port Hope on Friday and nine also from the 11st Brockville regiment for the same overseas unit.

Lieut. M. M. Johnston, 34th Battery left on Friday for a visit with his parents in Montreal.

Capt. Strothers sent five men to the 80th Battalion from Ottawa on Friday.

Major G. H. Gillespie, O. and I of Cadet Corps, has been granted a commission to take affidavits. This will relieve Col. G. Hunter-Ogilvie, A.A.G., of a great amount of work in attesting recruits which must be done before a qualified Justice of the Peace. By virtue of his office as alderman, Major Gillespie could administer affidavits in the city but he is now qualified to take them in Pittsburg, township.

Meetings have been arranged for in the Y.M.C.A. tent for every evening next week. The Y.M.C.A. is doing a splendid work at the camp and the proof of the popularity of the institution under the direction of F. W. Lillie, is the great numbers of soldiers who are always using the tents to write their letters, read the papers or indulge in music.

The Field Hospital is always a busy place. With a camp of about 3,000 men there are always cases that need medical attention and here under the direction of Capt. R. B.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure acts internally, reaching the seat of the disease, and destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists. Take Hall's Family Pills for constipation.

Richardson they are taken care of. About twelve cases are handled every day at the field hospital. There are at present sixty-one in the city hospitals and thirty-eight in the Field Hospital, giving a percentage of 3 1-3, on the sick list.

O. R. S. Featherston, 59th Battalion, left on Saturday for a visit in Toronto.

Capt. Milton, staff chaplain, will conduct the divine service in the Y.M.C.A. tent on Sunday evening.

A number of men from camp were granted week-end passes to visit with their friends and relatives over the holiday.

The company for the 80th Battalion in Peterboro now numbers 227, and as there are 805 men at Barriefield, the battalion is almost up to the required strength of 1,138.

For the first time since the 80th Battalion has been mobilized a route-march through the city streets was taken on Friday afternoon. The men looked splendid, and the sight of 1,000 such volunteers should certainly act as an inspiration to men to volunteer for overseas service.

Sergt. Walker, Canadian Postal Corps, is in Toronto. It is understood that he is to be granted a commission for his work at the camp in organizing the Camp Field Post-Office.

"C" Squadron, Base Regiment, C.M.R., under the command of Major W. Allan Stroud, has received orders from Col. G. Hunter-Ogilvie to mobilize at Barriefield camp on Monday morning in the lines formerly occupied by the 8th C.M.R. Major Stroud has now sixty men, almost all of them being Kingstonsians.

The 8th C.M.R. left three men in hospital when it left for Ottawa on Friday. One of these men is in the Hotel Dieu as a result of being assaulted by an officer.

Capt. MacConnell, adjutant, 59th Battalion, left on Saturday to spend the week-end in Ottawa.

Almost all of the artillerymen in camp are back from visiting with their friends before leaving for overseas. The drafts leave in the near future.

Lieut. H. A. L. Conn, who has taken over a draft of fifty men for the Royal Canadian Dragoons at the front, from the 34th Battery, has his men quartered in tents near the 34th Battery.

Fifteen men from the 32nd Battery arrived in camp on Friday afternoon.

Lieut. "Jack" Williams is acting A.D. of S. and T. in the absence of Major Hamilton in Ottawa.

On Saturday afternoon the 59th Battalion is holding a programme of sports to determine what men will

represent the battalion at the camp sports on Monday.

Capt. J. C. McLaren, 59th Battalion, is spending the week-end in Whitby.

Lieut. G. M. Huycke, 33rd Battery, is spending the holiday in Peterboro.

A special Thanksgiving service will be held at Barriefield camp on Monday morning. In the afternoon, the camp sports will be held. The public are invited to both events.

Lieut.-Col. H. A. Mullins, Inspector of Meats at Camp Sewell, is now at Valcartier Camp, and will visit Niagara, Kingston and London Camps before returning to Sewell.

## WILL GO OVERSEAS.

J. H. Burnham, M.P., Peterboro, To Give Salary to Red Cross

When the war broke out, J. H. Burnham, M.P., West Peterboro, offered his services to the Militia Department. As he was over age, and had no previous military training, the department was unable to avail itself of the offer. However his application was referred to Col. T. D. R. Hemming, of Barriefield Camp, and the latter has now offered him the position of quartermaster or paymaster in one of the units, and the member from Peterboro has accepted, stating that his salary is to go to the Red Cross Society.

PTE. THOMAS MCLENNAN. A New Brunswick soldier who was wounded at Ypres in June. He was struck in the hip by shrapnel and crippled, and he was also poisoned by gas.

## 70 Students Have Offered For Battery

Over seventy students of Queen's University have volunteered for overseas service with a Queen's University battery for which authority has been asked. Prof. L. W. Gill, captain in No. 5 F. O. C. E., is organizing the battery, but the officer commanding has not yet been decided. Lieut. Rogers, who was with the 7th Artillery Brigade, has volunteered his service, and will likely get one of the commissions. There are few, if any, other students who hold artillery qualifications.

The battery will be 142 men strong and will likely go overseas as a unit, as that is the understanding under which the students are volunteering their services.

## JOHN M. WATTS, FLORIST.

Has Opened a Store at 179 Wellington Street.

John M. Watts, who for the past five years has occupied a place on the local market as one of the finest producers of green-house plants and cut flowers, has opened up a store at 179 Wellington street lately occupied by Hanna and Ramsey. Mr. Watts has well been a gardener all his life and thoroughly understands the cultivation of flowers and vegetables. A full line of flowers is to be kept in stock by him.

Design and funeral floral work was made a specialty by Mr. Watts who now intends to go into this line on a larger scale.

His opening took place Saturday. Old patrons and new ones will find a full and handsome collection to pick from.

Thanksgiving Matinee and Night

Feldman and Christie Musical Comedy Company which begins a week's engagement at the Grand Opera House next Monday afternoon, Thanksgiving Day, has selected for its opening musical play a success that has made the public in all the large cities sit up and notice. There is no plot to "The Love Shop," it is made for laughing purposes only and from certain to curtain the play moves along with a snap and blaze of youth, beauty music and song that is truly amazing. Feldman and Christie boast of the prettiest and most youthful girl chorus on the road this season.

Vaudeville At the Grand.

Those attending the vaudeville entertainment at the Grand Opera House this evening will have the last opportunity of witnessing Blanchette Sweet in "Stolen Goods" and hearing May Green in her singing and comedy act. There will be no vaudeville entertainments next week, as the Feldman & Christie Musical Comedy Company will occupy the house. The vaudeville entertainments will be resumed at the Grand on Monday, October 18th.

Rugby Game Called Off.

Queen's University Rugby team was scheduled to play in Brockville on Monday, but word was received that Brockville was unable to get its team into shape for the contest, and it will have to take place at a later date.

Freezia, scilla, crocus and other dainty blossoms. Plant the bulb now for Xmas bloom. See our large varieties. Dr. Chown.

The County Council is building a concrete and steel bridge over Green Creek, west of Collins Bay.

## TELLS OF A BATTLE

BETWEEN GERMAN AND ALLIED AIRSHIPS.

The German Machine was Brought Down—Corporal Gimblett Writes An Interesting Letter From The Front.

A letter from Corporal R. J. Gimblett of the 5th Field Battery detachment at the front tells of the destruction of a German aeroplane seen by the Canadians. The letter reads as follows:

"The weather continues to be of the very best for our business although the farmers are complaining of the lack of rain. I saw some of the R.C.H.A. boys yesterday. That was the first that I had seen of them, although they have been in this country for about a month now. They all appeared to be in good health and spirits, and eager to get into action.

"We had rather usual sight the other day. We were the cheering spectators of the bringing down of a German aeroplane by one of our aviators. It started at 7.15 a.m. The first we knew of it was when we heard and saw the burst of our anti-aircraft shells. Several pairs of binoculars were soon put into commission and the tidings were quickly passed around that it was a German. As it was one of the new type we were not sure until we made out the crosses on the fuselage that it was the enemy and seemed to pay no attention to the shells. Very suddenly from out of the clouds somewhere one of our bi-planes swooped down on it with its machine-gun rattling away to beat the band. You can imagine the thrill of such a sight, for the enemy were not slow in getting their machine-gun going. When we saw the German begin to fall with a rush, for his machine appeared to be out of his control although he speedily righted it, you should have heard the cheers and the nearer to earth he came the louder we cheered. Our machine followed hard at his heels until he was sure that there was no rise intended. The German's engine appeared to be in trouble for he was about to make a landing he was successful in getting it started after a little trouble and immediately he started up again. A battalion of infantry near by opened rapid fire into it and it was finally tumbled to the earth 100 yards below.

"The pilot and observer were both riddled although they had made up for it by killing one and wounding several of the infantry by means of their machine-gun which they had in play after they had the engine going. The machine was only slightly damaged and was the first of their new, semi-visible type to be captured. Several valuable maps and data were taken off the bodies.

"Some of us had rather a bad sea when we were about to make a landing he was successful in getting it started after a little trouble and immediately he started up again. A battalion of infantry near by opened rapid fire into it and it was finally tumbled to the earth 100 yards below.

"We lost one of our best drivers last week. He was struck by a piece of a coal box and killed. It was a miraculous thing that no more were hurt as the shell burst about thirty yards away and there was quite a gang of men working nearby. We buried him Sunday in a small plot reserved for Canadians in the rear of the Breaching Station. The whole column turned out with its usual firing party etc. All that we lacked was a band. The volleys were fired and "The Last Post" sounded over the grave of a good and true soldier.

"All of the men are chaffing at the monotonous turn things have taken but we are busily engaged in preparing for winter. It will not be long before the wet weather is upon us and it promises to be a second Salisbury. Something is wrong with the mail service at the newly formed Canadian mail in ten days. The mail must have sunk the boat carrying it over."

## Loss To The Papers.

It is estimated that the daily newspapers of the United States and Canada have suffered a loss of \$35,500,000 during the first year of the war. This loss includes the extra cost of special correspondents, news service and advertising revenue, and increase in circulation expense. And yet some persons think the publishers are waxing fat on war profits.

## A DETERMINED WOMAN

Finally Found a Food That Helped Her.

"When I first read of the remarkable effects of Grape-Nuts food, I determined to secure some," says a western woman. "At that time there was none kept in this town, but my husband ordered some from a commercial traveler.

"I had been greatly afflicted with sudden attacks of cramps, nausea and vomiting. Tried all sorts of remedies and physicians, but obtained only temporary relief. As soon as I began to use Grape-Nuts the cramps disappeared and I have never had any more."

"My old attacks of sick stomach were a little slower to yield, but by continuing the food, that trouble has disappeared entirely. I am to-day perfectly well, can eat anything and everything I wish, without paying the penalty that I used to. We would not keep house without Grape-Nuts."

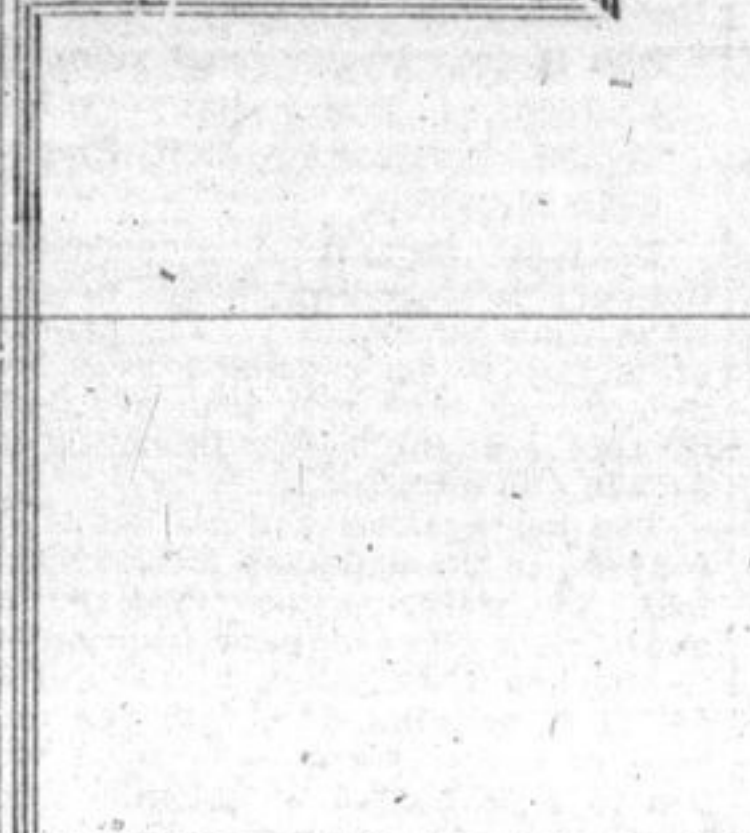

"My Husband was so delighted with the benefits I received that he has been recommending Grape-Nuts to his customers and has built up a very large trade on the food. He sells it to many of the leading physicians of the country, who recommend Grape-Nuts very generally. There is some satisfaction in using a really scientifically prepared food."

"There's a Reason."

Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## THE PRINCIPAL'S FOREWORD

Addressed To the Students of Queen's University.

Principal Gordon contributes this "Foreword" in Queen's Journal: "The war cloud that hung over us last session is still heavy. A large number of students and graduates from Queen's have gone, or are preparing to go, to the front. Many of us are prevented by various causes from active army service; but none the less we share the responsibility with those who represent us on the field, for the battle which they are fighting is ours as well as theirs. We are glad to see that the quiet privileges of our University life, privileges at present denied to them because they are taking our place as well as their own in this conflict.

"Are worthy of their heroic sacrifice, worthy of the outlay of noble life that will cause the names of St. Julien and Festubert to stand among the most memorable in the battles waged for liberty and righteousness? Only by sharing the same spirit of service and self-sacrifice can we be fit to take rank with those who are fighting for us."

"That spirit should find expression somehow by those who are daily in the class room as well as by those who are in the trenches. Can we not by that spirit make our session's work tell for the honour and progress of the University, so that alike by the conduct of her sons abroad and by the equal devotion to duty at home this shall be a notable year for Queen's."

## TEACHERS INSTITUTE.

Closing Session Friday Afternoon—Election of Officers.

At the Friday afternoon session of the Kingston Teachers' Institute Dr. H. T. J. Coleman, Dean of the Faculty of Education, gave an address on "National Ideals in Education."

This was followed by the annual business meeting. The election of officers resulted as follows:

President—Mr. W. F. Inman.  
Vice-President—Miss J. G. Bureau.  
Secretary—Miss H. E. Barney.  
Assistant Secretary—Miss Hipson.  
Auditors—Miss M. Kelly and Miss J. Henry.

Executive Committee—W. F. Inman, D. McDougall, Mrs. Maybee and Misses Gordon, Macdonald and Sprague.

Delegates to O. E. A.—Misses Conley, Elliott, Nesbit, Laturney, Alternates, Mrs. Mabey and Miss Ohlke.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Many who have been told these "miraculous" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to any active drug store and get a bottle of Bon-Opto tablets; fill a two-ounce bottle with warm water and drop in one Bon-Opto tablet. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyes-eyes, conjunctivitis and other eye diseases, report wonderful benefits from the use of this prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who have had care for their eyes in too late. Save your eyes before it is too late. Do not become one of these victims of crutches and eyeglasses. They are only like crutches and eyeglasses. They must be changed to fit the increasing weakness condition, so better see the weakener. Many who have been told if you can, like many others, get clear healthy, strong magnetic eyes through the prescription here given. The Valmas Drug Co., of Toronto, will fill the above prescription by mail, if your druggist cannot.

## French Hair Dressers are Clever

Scientists in France have given abundant head of vigorous hair, full of much study to the care of the hair, and nowhere in the world do men, women and even children have such luxurious hair.

It was Dr. Sangerbund of Paris, who discovered that falling hair, faded hair and dandruff were caused by germs, and it was a Frenchman that first gave to the world a hair tonic that would destroy the germs.

Since the introduction of Parisian Sage into Canada the people have learned that dandruff can be quickly abolished, that falling hair or thin hair is unnecessary, and that everybody can have an

PARISIAN SAGE

For aches, pains, rheumatism, etc., try Parisian Mustard Cream. Its effect is wonderful. Use in place of mustard plaster, painless or hot application. 25c a tube.
