WALDRON'S

PLACED UNDER ARREST THE ALDERMEN KICK

TRIED TO INTERFERE WITH THE WORK OF GUARDS.

Ex-Sergeant of Military Police Fell Into Hands of City Police on Charge Being Drunk and Disorderly—Fined by Magistrate.

It does not pay to interfere with military guards: Thomas Moore, a middle-aged man, who just got out of jail last Friday, after serving a sentence for being drunk and disorderly, found this out to his sorrow when he came before Magistrate Farrell on Wednesday morning, and was fined \$5 and costs, with the option of twenty days in jail.

Moore was formerly a member of the military police force, but his love for strong drink brought him down. He was a sergeant at that, but the stripes had to go, and instead of serving on the police force, he was engaged in making tile and doing odd chores at the jail. When he completed his term at the jail he kept good for a few days, but on Tuesday he again broke loose.

Passing the Ordnance Stores, on Bagot street, about noon on Tuesday, Moore made himself very objectionable to one of the officers, Capt. William Peters, in charge of the home guard. He wanted to tell Capt. Peters how the guard should be looked after, and he had many tips to offer. He was told to go away, but he refused. He was then placed in one of the guard-rooms. A call was then sent to the police station, and Constable Cotter came for him and escorted him to the police station, where he was given a cell. The charge against him was that of "drunk and disorderly."

OVER THE HIGH POWER RATES BEING CHARGED.

Ald. Nickle Would Dump the Hydro-Electric Commission Into the Lake And Hold It Down.

The new power rates recently put into force by the Utilities Commission were discussed by the City Council last night. Ald. Couper introduced the question by saying that small motor owners were up in arms against the charges that were made on them. It was very essential that relief should be afforded. Ald. Couper also raised objection to the monthly collection of the electric and gas rates. It was a nuisance, he said, to have to go down to the City Hall every month to pay.

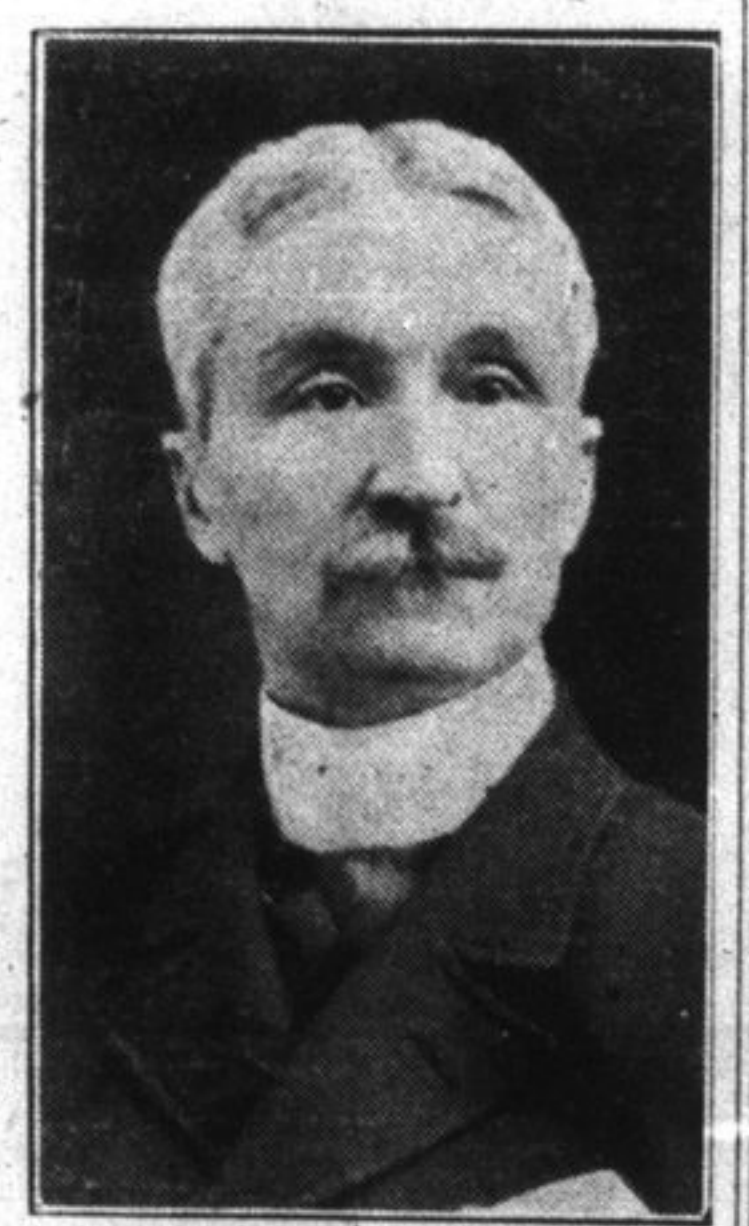

Ald. White said he had received several bills since the new monthly system of collection came into force, and he confessed he was thoroughly at sea in regard to the dues.

Ald. Nickle threw the whole blame on the Hydro-Electric Commission for leading the Utilities Commission astray. The people are dissatisfied, he said, and something will have to be done.

"The sooner the Hydro is dumped into the lake and held there, the better," he declared. If the present power rates are continued, there would be no demand for power, for people will not pay the big prices asked.

TO BE SUPERANNUATED.

Another Kingston Medical Man Likely To Succeed.

DR. DANIEL PHELAN.

It is understood that Dr. Daniel Phelan, the penitentiary doctor, will be superannuated, at his own request, on November 1st, after nineteen years' service. He will be succeeded by another Kingston doctor, to be selected by the Conservative executive committee. It is understood that the salary will be largely reduced, and the doctor permitted to continue in practice.

Dr. Phelan has demonstrated his ability in his professional work in the prison, and has the reputation of being one of the ablest alienists in Canada. His services have been constantly used by the Government in the examination of insane and criminal cases and his judgment and decision has been justified by later circumstances. He had been a careful, helpful medical man in the prison.

OBITUARY

DR. D. A. COON RESIGNS

As Medical Superintendent At General Hospital.

DR. D. A. COON, medical superintendent at the Kingston General Hospital, has handed in his resignation to the Board of Governors of the Hospital. It will be considered at the next meeting of the Board. Dr. Coon will remain in Kingston and practice. He was appointed medical superintendent early in May.

Fine Raspberries.

During the past few weeks many reports have been received by the Whig, about people having second growth raspberries, but they will all have to take a back seat as it were, to the crop that Mrs. G. Coffey, Stuart street, has secured off her garden. Mrs. Coffey has picked several large batches of berries and they are of the very best type, far superior to any which have yet been shown the Whig.

DOMINION RAILWAY BOARD

Had Hearing Over Ontario Street Track Extension.

At a meeting of the Dominion Board of Railway Commissioners, held in Belleville on Tuesday, there was a hearing in regard to the proposed extension of the Grand Trunk Railway to the Kingston Shipbuilding Company's property on Ontario street. J. L. Whiting, K. C., appeared on behalf of the Canadian Locomotive Works, Frances King for the Kingston Shipbuilding Company and D. A. Givens for the City of Kingston.

The Locomotive Company wanted the use of the siding without being taxed for any part of the cost, claiming that its property had been injured because of the fact that its employees would have to walk around the retaining wall which must be erected.

The company asked that it not be called upon to pay any part of the cost, but that it pay the switching charges, and be granted the use of the siding. The Board agreed to give the company this permission.

As to the city the Board held that its rules and regulations protected the city's interests.

An order will be worded so as to meet with the approval of the Board and the Locomotive Company.

Coming To This Here.

In Toronto and elsewhere daily papers have taken a stand against the indiscriminate use of their columns without any return and the result is announcements that a change must take place. One of these we quote:

Notices of any character relating to future events, the purpose of which is the raising of money, are inserted in the advertising columns at fifteen cents a line, or reading columns, 30c.

Announcements for societies, clubs or other organizations of future events, where the purpose is not the raising of money, may be inserted in this column at two cents a word, with a minimum of fifty cents for each insertion.

In Kingston something of a similar nature must follow or the newspapers cannot continue to be the chiefest philanthropists. They are quite prepared to do their part, but "thank you" will not buy ink, paper and pay wages. The charges here, will, of course, not be nearly as stiff as in Toronto.
