FIELD COMFORTS ASKED FOR MEN AT THE FRONT

Soap is the Most Welcome Gift Article.

LIME OR ACID DROPS RELIEVE THIRST WHEN WATER BOTTLE EMPTY.

Curry Powder a Welcome Relish—The Demand For Cigarettes Is Unlimited—Public Should Give Liberty.

Letters received from the front by J. J. Colmer, the London Commissioner of the Canadian War Contingent Association, which distributes field comforts sent from Canada.

The article perhaps most in demand and hailed with the heartiest thanks by the recipients is a common domestic commodity which in times of peace no one but a humorist would think of as a welcome present.

When a soldier returns from the trenches plastered from head to foot with tenacious Belgian mud which hardens into a glaze, when it dries, his one object in life is to get clean.

Another field comfort which is particularly serviceable is a small tin of lime and acid drops which relieves thirst when the soldiers water bottle is empty.

Curry powder is found to be a very welcome addition to the regimental cuisine, and as a desert and extra relish, cake meets with universal appreciation.

During the summer presents of footballs and other accessories for games proved decidedly welcome gifts.

The demand for cigarettes is unlimited. One shipment of cigarettes was distributed, as the quartermaster reports, "to everybody from the Colonel down."

Field Comforts fill a very real need and the public should continue generous support.

Proposed New Station For C. N. Railway

Napanee, Oct. 16.—The Canadian Northern Railway has submitted plans for a new station, and of a new location for the building.

The proposed building is very similar to the brick station erected by the company at Deseronto, but is to have an extra elevation of three feet.

The proposed situation is about 750 feet on the C.N.R., main line west of the G.T.R. track. The freight offices and shed will remain where at present located.

The plans of the building, and the site are on file and may be seen at the clerk's office.

A WHIG MAN ON TOUR FOUND EVERYONE AT WILTON ATTENDING A FUNERAL.

Old Whig and Circular Prized By Ross Peters, Wilton—Wilton Cheese Factory a Paying Concern.

When a Whig representative was passing through Wilton on Thursday he found practically every resident of that village attending the funeral of the late Miss Lizzie Hamilton, of Yarker, who died in the Kingston General Hospital on Tuesday.

The deceased, who was aged about twenty-three, was a daughter of Mr. and Mrs. Charles Hamilton. She was one of the most popular young ladies in the district, and worked for Bert Babcock at Wilton for some time. Miss Hamilton had always taken a great interest in Methodist church, and Sunday School work at Wilton.

Long before two o'clock the hour for the service, the church was filled with the friends of the deceased. Rev. F. W. White conducted the service after which the remains were placed in the vault. Clinton Smith, Harold Freeman, Roy Freeman, Carman Ashley, Yarker, and Archibald Simmons and Stinson Carr, Wilton, acted as pallbearers.

Old Whig and Circular. Among articles which Ross Peters, who resides on the Wilton Rural Mail delivery, prizes very much are an old copy of the Weekly British Whig and a circular announcing an auction sale.

Thomas C. Rogers, who owned a farm in the vicinity of Wilton for many years, but who has been out west for some months, has returned to Wilton to remain for the winter months. While out west Mr. Rogers purchased a half section (320 acres) near the town of Osborn, Sask. He intends to take his wife and family out the first of March.

THE TENNYSON DICTIONARY Tells of Characters and Place Names in His Writings.

A printed notice issued by Arthur E. Baker, chief librarian of the public library at Taunton, England, says that he has compiled and prepared for publication "A Tennyson Dictionary," in which the characters and place names contained in the poetical and dramatic works of the poet are alphabetically arranged and described, with synopsis of the poems and the plays, and he adds, "provided a sufficient number of copies are subscribed the work will be proceeded with at once."

It will be issued to subscribers at seven shillings and sixpence net, and after publication will be increased in price to ten shillings net.

"Sent to Coventry." Christian Science Monitor. The origin of the phrase "sent to Coventry" is far more obscure. It is used in one of the great English classics, Clarendon's "History of the Rebellion."

It will be issued to subscribers at seven shillings and sixpence net, and after publication will be increased in price to ten shillings net.

Thomas C. Rogers, who owned a farm in the vicinity of Wilton for many years, but who has been out west for some months, has returned to Wilton to remain for the winter months.

When speaking to the Whig Mr. Rogers stated that he was well satisfied with conditions as he had found them. He has 200 acres ready to sow with wheat next March and eighty acres of oats next March.

In the district where he is going to locate, there are a number of men who formerly lived in the Wilton district. Among them is Frederick Davidson, who went west about fifteen years ago and who has worked hard, and as a result he has a mighty good farm. Mr. Davidson, before going to Osborn, worked for K. N. Storms, who was then cheesemaker at Wilton.

Although he went out with very little experience on the farm he has made a success. He is at the present time a member of the county council of that district.

Mr. Rogers states that the people in the west are kept in touch with the Kingston and district news through the British Whig which is taken by a number of the residents.
