18 POUNDS OF BLOOD

is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resists sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to averwinter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes.

Past Neglect of Forests. The future forest industries which are almost the only industries possible on three-fifths of the area of Eastern Canada, must be supported by the timber grown on the loggedover and burned-over non-agricultural lands. Looking at these lands we should see, not wastes, holding no promise for the future, but productive lands, needing only protection from fire to enable them to support logging camps, pulp mills, rural and industrial communities of a type which has done much for Canada. If the young forest growth on the nonagricultural lands of Eastern Canada had been protected from fire during ties; and saw mills in Western Ontario, each the centre of a thriving community, would now be supplying the markets with lumber, which, because of lack of forest protection in the past, is being supplied from

> Stopped Game to See Duel. In a letter to W. F. Nickle, M.P. Lieut.-Col. A. E. Ross, commanding No. 1 Field Ambulance, describes thrilling incident which occurred while Canadian soldiers, including some of his own corps, were playing baseball. Two aeroplanes, one French and the other German, suddenly appeared overhead and began a lively battle, which ended in a draw. The baseball game was stopped while the air fight was in progress.

***** DERBY'S RECRUITING PLAN

Has Met With General Approval In

Great Britain. London, Oct. 21. Lord Derby's al approval, both in conscriptionist which calls on unmarried men first. The Daily Mail says it will sup-

port the scheme most strongly now in the case of single men first. The Times, while welcoming the inauguration of Lord Derby's movement, says the Government should provide themselves at once with the power to introduce compulsory service if the necessity arises.

The Daily Chronicle calls the scheme "real recruiting at last."

President Pardons Spear. Philadelphia, Oct. 21 .- President Wilson announced that he had grant-'ed a pardon to Cameron Spear, sentenced to five years in the Atlanta penitentiary for unlawfully using the mails in connection with the Collins Wireless Telephone Company. It was alleged at the trial that \$1,000, 000 of fraudulent stock was sold He was convicted in the United States district court at New York.

From Steam to Electricity. St. Louis, Oct. 21,-Prediction that all steam railroads in the Unit-

States would be electrified in the next few years was made by M. W. Storer, of Pittsburg, in an address a luncheon given to the members of the American Institute of Electrical Engineers, which began its national convention here. "No railway that has been electrified has ever gone back to steam," he said.

Kaiser Has Quarrel. Petrograd, Oct. 21.-German losses in the attempts to capture Dvinsk are officially estimated at 80,000 l killed and wounded.

The war office says it has learned. through German prisoners, that the defeats inflicted by the Russians on the Dvinsk front have provoked serious quarrel between Field Mar shal Von Hindenburg and the Kaiser
