

# ON BARRIEFIELD HEIGHTS WITH THE OVERSEAS TROOPS

With the authorization of the 93rd Battalion at Peterboro under Lieut.-Col. J. Mills, now with the Expeditionary Force overseas, there is a possibility of sending the troops to how the Militia Department intends to dispose of the troops at Barriefield-camp.

It is a well-known fact that the reason the Minister of Militia announced that troops would be quartered all through the country, was due to the "political pull" from the different municipalities. Every place wanted some troops for the winter. Later the announcement was made that each municipality would have for the winter what soldiers were recruited in the various municipalities. This scheme has to a large extent quieted the continual cry from the smaller municipalities for soldiers for the winter.

It has been the intention to have the battalions broken up into smaller units, and the larger municipalities. It was decided that one half battalion would be divided between Lindsay and Port Hope and the other half at Peterboro. This will undoubtedly be the method of disposal of the 80th Battalion. The 80th Battalion under Lieut.-Col. W. G. Ketcheson, Belleville, is what might be termed a Belleville battalion. The original order was to be broken up with two companies in the Canning factory at Belleville and the other two companies divided between Napanee and Picton. It is known that after considering the advantages and disadvantages of having soldiers the Picton people are not one bit anxious to have the men in khaki there. It will mean that the liquor licenses in the town will be very inconvenient to the civilian population made which are not wanted.

It is expected that the 80th Battalion for the above reason and for the reason that the tenders for the alteration of the barracks at both Napanee and Picton have not been awarded yet, will go to Belleville within two weeks as a unit. It will take longer than two weeks to put the buildings into shape.

The 59th Battalion, in the opinion of practical observers, is doing a very good job. This does not mean that the battalion has not been making rapid progress. Lieut.-Col. H. J. Dawson has had in all 2,000 men under his command. He transferred over 600 men to the 38th Battalion, 250 men in a draft for immediate overseas service. Monday evening, showing incidents connected with the war and also pictures of the king and principal officers of the warring countries.

Lieut. Barber, 59th Battalion, is in Bobaygan. On Tuesday evening the chaplains will give an entertainment in the Y. M. C. A. tent. On Wednesday evening a programme of Scottish music will be put on for the soldiers. Lieut. Col. Johnston will be in the choir from Calvary Church will give an entertainment.

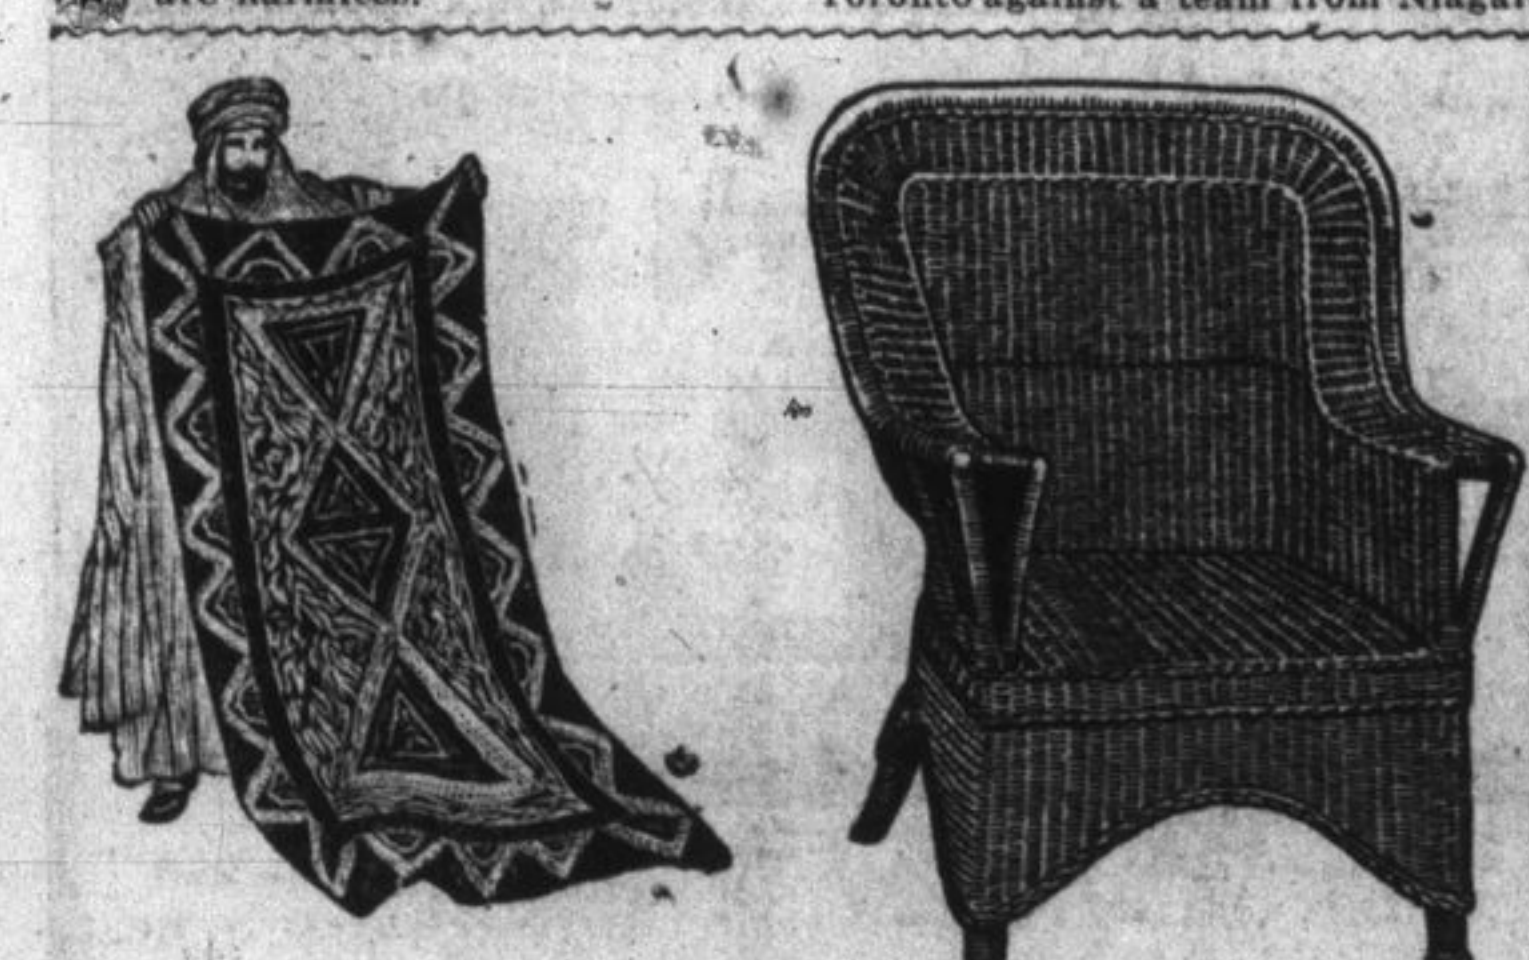

Due to the authorization of the 93rd Battalion in Peterboro, 276 men who have been training there under Lieut. Col. Johnston will be transferred to the 93rd, Lieut. Col. Johnston and Capt. A. F. Walter, Capt. J. R. Munroe and Lieut. L. J. Stuart will also be transferred.

Some time ago the Whig made an appeal to the citizens to donate any spare magazines or books to the 80th Battalion in which a library is being formed for the soldiers. The officers wish to acknowledge a donation from Mrs. J. Henderson, Clergy street, and in extending their sincere thanks wish to ask other citizens for reading matter for the "boys."

The N. C. O.'s attending the School of Cookery meet every day in the Army Service Corps Administration Building and there cut the meat for the 80th Battalion. On Tuesday they received instructions on the field in cooking in mess tins.

Lieut. Smith, Toronto, on Monday afternoon reported for duty with No. 2 detachment, C. P. A. S. C. There are now 2,200 men at Barriefield camp.

The 34th Battery rugby team is practising faithfully for the game in Toronto against a team from Niagara camp.

## Rugs and Carpets

Handsome color effects, beautiful designs, quality unsurpassed. Curtains—Brussels Nett, Madras, and in handsome designs and rich colorings.

Easy Chairs—Special lot just in—will remove that tired feeling at first trial—\$5.00, \$7.50, \$11.00 up.

Parlor Suites—Covered to meet your ideas of harmony—\$25, \$35, up to \$150 for three pieces.

Phone 90. Yours

## COUNCIL VOTED DOWN

### THE RECOMMENDATION OF THE FIRE COMMITTEE

To Put a By-Law to the People For the Purchase of a Motor Fire Engine.

The City Council refused to put a by-law to the people for the purchase of a motor fire engine as recommended by the Fire and Light Committee. When the question came to a vote last night, the proposition was defeated by 14 to 4, the division being:

Yeas—Ald. Fair, Hughes, Litch, Newman, Mayor Sutherland and Ald. Couper, Gardiner, Graham, Gillespie, Hanley, Kent, McCann, Nickle, O'Connor, Peters, Richardson, White and Wormwith.

The Chairman of the Fire Committee, Ald. O'Connor, opposed the recommendation of the majority of his committee, and there was an interesting debate between the Chairman and Ald. Fair.

Ald. O'Connor pointed out that the sum of municipalities at present is to cut down their expenses in order to conserve their resources.

"Give the overburdened taxpayers a chance," said the speaker, who explained what the addition of debentures to a city's debt meant, and showed that a \$12,000 motor truck when paid for would take \$19,300.

Ald. O'Connor said he could not see how Chief Armstrong could figure out that the city would save \$1,400 a year for purchasing a motor engine. The thing was impossible, to his mind. As he figured it, the city would be out money by changing from a horse-driven to a motor-driven engine.

Ald. Fair said that in all communities there are two sections—the progressive and the knocking. Kingston had both. He pointed out that Chief Armstrong, a progressive man, had reported that motor-driven apparatus was taking the place of the horse-driven apparatus. Regina, for instance, reported that it would never buy any more fire horses. Moose Jaw reported that motor-driven apparatus had a part in the fire in snow in London, Stratford, Edmonton and reported in favor of the motor-driven engine.

Ald. Hughes remarked that after a careful study of the question he was convinced that a motor-driven fire engine would save money to the city. It would cost money at first, but a saving would be effected in the long run. He did not care what the Council did about the matter. The committee had discharged its duty by advising the Council concerning the economy and efficiency of a motor engine.

Ald. Nickle pointed out that a fire motor engine was not required by the Underwriters Association. Furthermore, last year and the year before the steamer was out and only one fire. Why then should it be necessary to purchase a \$12,000 machine to go out once a year?

Ald. Hughes explained that the motor engine would respond to every call.

Ald. Nickle pointed out that the chief's report showed a saving of \$30 for veterinary service. It cost that amount to care for nine horses. Four were to be discarded, and the other five were to be allowed to take chances without veterinary attention.

A pet scheme at the public's expense is that Ald. Nickle formed the proposal to buy a motor fire engine.

Trenches Alive With Rats. Men of the 21st Battalion in writing home state that the trenches are alive with rats, "as big as rabbits and with heads like those of the German soldiers," as one fellow expressed himself.

SAVE YOUR HAIR! 25 CENT BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre, and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Praise For Grand Trunk. The New England manufacturers who travelled this week from Chicago to Montreal in a special train expressed themselves as being delighted with the level roadbed of the Grand Trunk Railway system, over which they passed. "It was the best night's sleep we had since we left Lawrence, Mass., twenty-two days ago," said one of the members of the party on arrival at Montreal. "But for the faint rumble of the train we might have been sleeping in a hotel." The equipment of the train was also splendid, while excellent meals were served on the Grand Trunk dining cars.

Big Plant in England. Henry Ford, Detroit, has a dream, it is said—and Mr. Ford's dreams have a way of coming true—that his company will erect a huge plant in England, where Ford cars may be made from the ore up, that the money needed in England may remain in England.

Special Train For Hunters. Special hunters' train will leave Toronto 10 p.m. on Wednesday, Thursday and Friday, October 27th, 28th, and 29th, for the exclusive accommodation of hunters for all points between Toronto and Sudbury. Train will consist of colonist cars and coaches.

## Abernethy's

### Real Up-to-date Footwear for Women

The Gipsy Boot, made of fine kid, is one of the very newest in ladies' footwear for this fall. We have them in Black and Bronze—plain Black Kid, at \$4.00 and \$5.50; the Bronze, \$6.00.

The patent side laced Boot at \$5.00 is another of the newest fall styles.

Beaded Strap Slippers for Evening Wear are very popular now—we show 3 different styles at \$3.50.

We consider it a pleasure to show goods—no need to purchase.

## Popular Soft Hat Styles

Smart blocks that take with men who want individuality and distinction.

We pride ourselves on the completeness of our stock.

Young men's shapes in the new shades. \$2.00, \$2.50.

Kingston's Largest Hat Dealers

## KNOW EUGENE SANDOW

WHO IS REPORTED SHOT AS A SPY.

George A. Palmer, Kingston, Was Manager and Instructor in One of Sandow's Schools in England.

George A. Palmer, physical instructor at the Collegiate Institute, was at one time manager and instructor at one of the schools in England, conducted by Eugene Sandow, the famous athlete and instructor, who, according to the report from Liverpool, was shot about a fortnight ago, at the tower of London, as a spy.

Mr. Palmer was naturally very much surprised to hear of the fate of Mr. Sandow. To a representative of the Whig, he stated that Mr. Sandow conducted schools for physical instruction all over England, Ireland and Scotland. His headquarters were within two hundred yards of St. James Palace and Marlborough House. Mr. Palmer joined Mr. Sandow's school as a junior instructor, working his way up to the position of chief instructor and afterwards manager.

"I have a couple of pictures of Sandow," said Mr. Palmer, "but if this report about him is true, I will certainly burn them."

One photograph of Sandow is in his street clothes, and the other in his gymnasium attire and it was plain to be seen, that he was a great athlete.

"He was the greatest man physically I ever met," said Mr. Palmer, to the Whig. "He was also well liked by all his acquaintances."

Asked concerning the great athlete and his work, Mr. Palmer stated that Sandow was certainly in an important centre should he desire to act as a spy.

He also stated that Mr. Sandow's secretary was a German, a man named Kling, and that his valet, named Heinrich, was also a German. Friends of these two men were continually coming and going from Germany. The schools all over the country were attended by some of the most prominent people in the land. Sandow married an Englishwoman named Brooks, and had one little girl.

Mr. Palmer pointed out that Mr. Sandow would never employ a man as an instructor unless he was a military man. Mr. Palmer is himself a military man, holding the commission of Lieutenant, and would be at the front to-day, were it not for the fact that he is unable to pass the medical examination.

Memorial Service. Arrangements have been made for a memorial service to be held in St. George's Cathedral next Sunday evening for the late Corporal George Taylor, son of Mrs. Charles Taylor, King street, who died as a result of wounds received while fighting in France. When a boy, Corporal Taylor sang in the choir of the Cathedral.

## Sakell's Pure Ice Cream

Our Ice Cream is the best and finest in Kingston by Government Test. We deliver to all parts of the city in bulk or bricks.

### SAKELL'S

## Business Reopening

I HAVE RE-OPENED A Furniture Refinishing Shop, where all kinds of work will be done. Monogony and Antique Furniture a specialty. An invitation is extended to all old friends and also to the public, to call and inspect my work.

### Pat. Driscoll

23 JOHN STREET. THOMAS COPELY Telephone 987.

Drop a card to 19 Pine street when wanting anything done in the carpentry line. Estimates given on all kinds of repairs and new work; also hardwood floors of all kinds. All orders will receive prompt attention. Shop 10 Queen Street.

## BISURATED MAGNESIA

For dyspepsia, indigestion, souring of food, gas, and hyperacidity of the stomach (acid stomach). A teaspoonful in a fourth of a glass of hot water usually gives relief. Sold by all druggists in either powder or tablet form at 75 cents per bottle.

## A MILITARY TRAINING

STRONGLY RECOMMENDED FOR GUARDS AT THE "PEN."

Ex-Guard William Bourke Says They Would Be Better Fitted For Work—He Has Benefited By It.

That he would strongly recommend a course in military training for every man employed as a guard or a night watchman at the Portmouth penitentiary, is the statement of Pte. William Bourke, a member of the 14th Home Guard.

Pte. Bourke retired from his position as a guard at the "Pen" on Dec. 1st, 1914, owing to ill-health. He has been serving with the Home Guard, and as a result of the training he has received is now quite robust and fit for service of any kind. He believes that all men who make application for a position on the staff of guards or watchmen should be called upon to have military training. He believes that this training would fit them for the responsible duties they are called upon to do at the prison.

It will be remembered that it was Mr. Bourke who found a rope hanging to the prison wall in 1912, which had been placed there by a convict named Chartrand for the purpose of making his escape. He sent in the general alarm to Night Watchman Holland, who gave the orders for an account to be given of all the convicts, and thus prevented the escape of Chartrand, who had a "dummy" placed in his cells, and the bars of his cell cut, and covered over with paper, in preparation for his escape.

## VETERAN ENLISTS AGAIN.

A. Murphy Came From Ottawa For the 32nd Battery.

A. Murphy, who was wounded at the front while serving with the Princess Patricia's Regiment, is among the nineteen men who came from Ottawa, with Capt. J. H. Stothers, to help bring the 32nd Battery at Barriefield Camp up to strength.

Mr. Murphy was at one time a non-commissioned officer in the artillery, but in his anxiety to get to the front joined the infantry. He was wounded in France, and for four months was in an hospital. Four days after he was declared well he joined the 32nd Battery at Ottawa, and is looked upon as a very valuable addition.

## OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sniffling, hacking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

There are persons who, not satisfied with running their own chances, make a point of taking the chance of the other fellow every time.
