THE SOLDIERS ARE LEAVING BARRIEFIELD CAMP GROUND

Barriefield camp is a deserted place now. The headquarters staff has moved from the Administration building to the Armouries. The three batteries of artillery have gone into quarters in the Dry-Dock Barracks, the squadron of Canadian Mounted Rifles to the Artillery park dormitories, and the 80th to Belleville.

The 80th Battalion was busy all Sunday packing up for its transfer. The 59th Battalion has issued a syllabus of training for this week, but most of Monday and Tuesday will be taken up with packing up its equipment and leveling the tents of the other units which have already gone into winter quarters.

The Y.M.C.A. staff will disband on Tuesday, F. W. Lillie, who has done such excellent work here for the last year, and to whom great credit is due is leaving to spend a holiday with his family in Buffalo, N.Y., before assuming other duties for the association. J. A. McCallum is going to Toronto to look after work there for the soldiers. C. T. Sharpe has been given charge of the work for the 80th Battalion at Belleville, Picton and Napanee.

The Postal Staff at the camp is being broken up. Lieut. Walker is returning to Toronto, and W. Lea, formerly on the C. N. R. running into the city, has been detailed for Peterboro.

the city churches on Sunday. The troops in Barriefield as usual attended the field service.

The personal touch that means so much to the soldier in the ranks is felt in a short note issued and signed by Lieut.-Col. H. J. Dawson is the daily orders of Saturday. The note reads as follows:

"Comrades: I wish to express to all ranks of the 59th Battalion C. E. F., and especially to my N. C. O's and men, my appreciation of the spirit and soldierly bearing that has been shown by them since our mobilization in June.

"I have been specially pleased to note the cheerfulness and fortitude shown by all, even when hardships caused by weather, and upon the long marches. I feel that such is due to the fact, that each and every man realizes the fine objective of our mutual training, and also to the wish to create and uphold the good name of the 59th Battalion, C. E. F., under all difficulties.

"My hope is, that each will keep in view the objective of our training and that no matter what hardships or difficulty has to be overcome in the future, that all will be accepted in the same fine and soldierly-like manner as in the past."

Lieut. E. L. MacConnell, 80th Battalion, has transferred to the 59th Battalion. He is a brother of Capt. R. B. MacConnell, adjutant of the 59th.

Lieuts. D. R. McDonald and T. J. Flurry have transferred from the 80th Battalion to the 92nd Battalion.

On Saturday the officers of the 80th Battalion, scattered over the city, were rounded up and in an hour's time answered at the muster roll call.

Saturday evening as it was their last night appearance here before going into winter quarters in Belleville. For short time they created some inconvenience. Capt. Wilson, the adjutant, came over on his horse and soon had them organized into a parade and they finished the evening by marching up and down the street singing popular songs.

MAY REBUILD FRONTENAC. There Is Talk Of This Matter Just Now.

That the Frontenac Hotel on the St. Lawrence is to be rebuilt is the firm conviction of some of the long time residents of Clayton, N. Y., who have been watching with interest the visits of people to the property on which the burned hotel stood. Agents of the Canada Steamship Lines, Limited, need something of the nature of the famous hostelry in the island region as there has been a decline in the last few years in river traffic, and it is said that agents of that company have approached the heirs of the estate with offers for the property.

Mr. Truett, one-time manager of the Frontenac, but of late years manager of a hotel in Georgia, also has made offers, it is claimed.

That the Frontenac will be rebuilt there is a certainty although at present the estate to which it belongs is the subject of much adjustment. The dock is kept up in good shape, and the annex which was not burned is a valuable asset to the new venture. The annex alone has a capacity greater than the Hubard House in Clayton. Last year Clayton could not accommodate all the tourists who wished to stop, and at present there is a movement on foot to build a new hotel there. Options have been secured, and the ground surveyed for the new structure. Should both of the hotels be built a new era of prosperity for the river is promised.

AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves. Scott's Emulsion is a scientific oil food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No harmful drugs.
