

SERBS AND ALLIES ARE WINNING IN BALKANS

IMMENSE INFLUENCE OF LORD KITCHENER

Will Be Exerted in the Balkans--Germany And Austria Anxious--Serb And Allies Victories Will Influence Greece And Puppet Cabinet.

New York, Nov. 15.—(Special to the Whig.) A cable to the Herald from London says: "It is Kitchener against the Kaiser and his bribe-givers at Athens, where King Constantine and his puppet cabinet are trying to serve Mammon, but all despatches state that the mere presence of Lord Kitchener in the near eastern theatre of war foreshadows a victory for the Quadruple Entente that Germany thoroughly understands."

"That an immense influence will be exerted by the trip of Lord Kitchener to the Balkans, even if he does not meet King Constantine, is proved by the sudden despatch of a high German military mission and the expected arrival of Count Berchtold, Austrian's Foreign Minister, to urge the King to cast his lot with the Central Powers."

"The King, however, fears the Franco-British fleet which is reported to be ready with steam up near Malta to make a demonstration."

"But the greatest influence of all is the Serbo-Allies' victories and the continuous reinforcements of Anglo-French troops in Serbia."

FRENCH LINES UNBROKEN BY FIERCE GERMAN ATTACKS

Paris, Nov. 15.—(Special to the Whig.) Attacked in tremendous force, sometimes as often as twenty times in one day, with every imaginable engine of death, the French nevertheless held their lines unbroken against the Germans in the Artois and Champagne regions throughout the past week. In uniformly repulsing the "autonic" attacks, the French forces inflicted losses averaging two thousand to each unit of the Kaiser's troops engaged. The assaults showed development on the Germans' part of an astonishing degree of effectiveness and the highest possible degree of material organization, said the statement, including the handling of their artillery and the use of asphyxiating gas and liquid fire.

Botha to Send Big Expedition to East Africa

Pretoria, Union of South Africa, via London, Nov. 15.—Gen. Jan. Christian Smuts, minister of defence, has been given supreme command of the military expedition against German East Africa. The Union of South Africa Government has decided to send against the German colony as many as 25,000 men if a force of that size should be deemed necessary. A great recruiting campaign is being planned in the union to raise volunteers for the overseas armies as well as for operations in Africa.

The Government recruiting committee at Capetown has called for another 10,000 men for service in German East Africa. It is said that the call was made at the request of the British Government whose available troops are now so fully occupied that it could not be expected to provide men for campaigns the world over.

ALLIES VICTORIOUS AGAINST BULGARIANS

(Special to the Whig.) Athens, Nov. 15.—The British, French and Serbs are gaining, foot by foot to-day, against the Bulgarians in the southern Serbia. The Bulgarians are in superior numbers but a considerable part of their forces are in scattered bands which, engaged in independent raiding, have been cut off from the main body and are putting up separate battles of their own.

Thus, besides the principal fighting line, from the Strumitza region northwest along the Vardar River through Veles to Tetovo, hot engagements are raging at several points inside this front to the southwest. Against Veles the centre, the French troops are directing a terrific drive and the town's fall is believed a question of hours. The artillery fire, with which the French have cleared the way for their infantry and cavalry rushes, has inflicted appalling losses on the Bulgarians.

At the northwestern extremity of the town of Tetovo, after changing hands repeatedly, is in the Serbs' possession at latest accounts. Much of the fighting in this section has been hand-to-hand and of the most desperate character. With their capture of Tetovo, the Serbs took 520 Bulgarian prisoners and great quantities of munitions and supplies.
