# Backache

The artist sketched this picture from life in a Toronto blacksmith shop, in order to get the correct pose of the smith at the anvil and shoeing a horse. Is it any wonder that the blacksmith's greatest troubles are backache and derangements of the kidneys? The constant strain on the muscles of the back and kidneys interferes with the filtering action of these organs. The uric acid poisons left in the blood cause pains and aches, backache and rheumatism, and such serious diseases as Bright's disease and hardening of the arteries result.

But it is not the blacksmith alone who is tortured by backache, for there are many occupations in which the continuous

strain on the back leads to much suffering, and also to serious disease.

Blacksmiths have always been strong in their praise of Dr. Chase's Kidney-Liver Pills, and by telling others of the good results accomplished by this treatment have added much to its popularity among farmers and horsemen generally.

Being direct and prompt in their action, Dr. Chase's Kidney-Liver Pills appeal to the man of action. The liver is awakened, the bowels aroused and the kidneys strengthened by the influence of this medicine. The filtering and excretory organs lose no time in cleansing the system of the poisonous matter which gives rise to pain and disease. Constipation is overcome, kidney derangements corrected, digestion improved, and you feel fine. Put them to the test when you are feeling out of sorts. Let them prove their value. One pill a dose, 25 cents a box, all dealers, or Edmanon, Bates & Co., Ltd., Toronto.
