Hot Curling Iron Goes—No More Broken Hair!

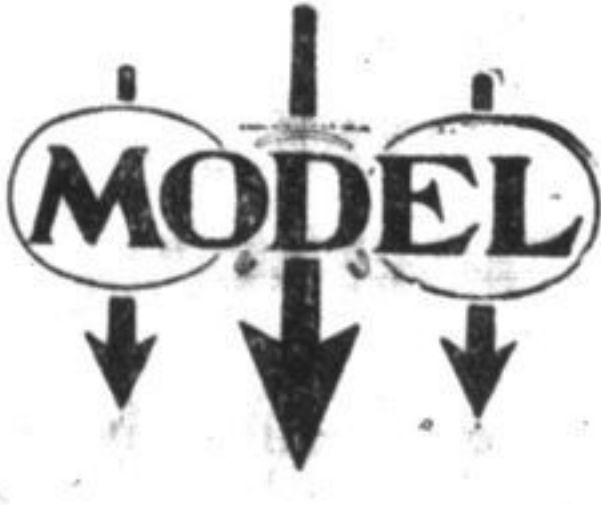

(Beauty's Mirror) Every woman knows that continual use of the hot curling iron means brittle, blistered, parched, dead-looking hair with burnt, uneven ends.

NAPANEE COUNCILLOR

BROKE HIS LEG BY FALL IN PAISLEY HOUSE.

Sergt. John Bentley Invalidated Home From the Front—A Number of Cases Before the Napanee Police Magistrate.

(From Our Own Correspondent.) Napanee, Nov. 18.—Councillor John Osborne met with an unfortunate accident last night at the Paisley House Hotel.

The sale of cooked and uncooked foodstuffs held by the ladies of the Gretna Red Cross Society on Saturday last, together with the tea in the afternoon, resulted in about \$50 being added to the Red Cross funds.

W. S. Herrington, K.C., gave an illustrated lantern lecture on "Belgium" to the Boy Scouts at their rooms Tuesday evening.

Sergeant John Bentley, Napanee, who was one of the first to answer the call for volunteers for the first Canadian contingent, was wounded, and is now invalided home, arriving in Quebec, and is expected in Napanee in a day or so.

R. Marchand, Kingston, summoned to appear before Magistrate Rankin for a breach of the Motor Vehicles Act, appeared to have been the victim of a mean theft.

Jacob Lloyd, an elderly man, was arrested by Chief Barrett Tuesday night for a serious offence against a girl under the age of fourteen.

Fredrick Harvey, Toronto, who was creating a disturbance at the Grand Trunk station, appeared to answer a charge of disorderly conduct, and was fined \$4 or twenty-one days.

What Competitive Bidding Can Do. Montreal Herald.

On a million 9.2-inch shells—let the quantity be assumed—were needed for the heavy artillery to destroy the German concrete trenches.

But supposing the British representative, D. A. Thomas, insisted upon more competitive bidding—as he plainly did—and one firm tendered to supply the 9.2-inch shells complete at \$55.

Attractive rates will be quoted by variable routes, affording the finest scenery.

Four daily trains to California, Los Angeles Limited leaves Chicago daily at 10.00 p. m., for Southern California.

Less than three days enroute. The best of everything in railway travel.

Bravo, Winston! Winston Churchill sets a noble example to the manhood of the Empire.

Join the 59th. The 59th Battalion wants 100 recruits. Will you help?

The 59th Battalion is a city corps, and therefore deserves our special consideration.

I know of no church creed that teaches retaliation, unless it be for evil.

BASKET BALL LEAGUE

OPENED IN QUEEN'S GYMNASIUM WEDNESDAY NIGHT.

34th Battery Defeated Y. M. C. A. By 38 to 12, and Ki-Low-It Won From Queen's By 41 to 7.

Two very interesting basket ball games opened the season's schedule of the Kingston Basketball League, the games being played on the Queen's gymnasium floor, on Wednesday evening.

Y. M. C. A.—McConnell and Joyner, forwards; Simmons, centre; Twigg and Davis, defense.—12.

Ki-Low-It—Fount and King, forwards; Singleton, centre; Day and McCulla, defense.—41.

Queen's—Peever and Smith, forwards; Mills, centre; Purvis and Patterson, defense; McKenzie replaced Smith in last half.

SUES FOR \$2,000,000.

Says Detroit Tunnel Work Infringed On His Patent Rights.

Detroit, Nov. 18.—Asserting that the construction of the tunnel connecting Detroit with Canada was made possible through infringements of his patents by the Detroit River Tunnel Company for the New York Central lines, Duncan C. McBean, a civil engineer, is suing in the United States Court here for royalties amounting to \$2,000,000.

His attorneys appeared before the United States judge yesterday and presented a motion to compel the Detroit River Tunnel Company to produce a copy of certain valuable data which is in its possession.

In a long affidavit Mr. McBean recites how he had attempted to build a tunnel under the Detroit River in 1872 and how changing currents and chemical gases made the project impossible at that time.

Mr. McBean, now 70 years old, asserts his experiences and investigations in the attempted construction of the earlier tunnel enabled the latter builders to proceed. He says they profited by his letters patent taken out since that time.

WAR BULLETINS.

Six Germanic submarines were captured by the Allies in the Aegean Sea.

The Bulgars have occupied Prilep, and are closing in on Monastir.

The Bulgars lost 4,000 men in their recent fighting against the French.

Several steamer loads of Germans were drowned in their attempts to cross the Dvina river in face of Russian fire.

Austrian aeroplanes dropped bombs on Rome close to the Vatican, but little damage was done.

A report from Sweden says a German flotilla passed there on its way towards Britain.

A YOUNG WIFE HELD.

As the Murderer of Her Husband Near Edmonton.

Edmonton, Nov. 18.—Wasy Wensnyk, a farmer thirty years old, who lived at Downing in the Edmonton district, is dead, and his wife, about ten years younger, is accused of his murder.

The evidence given at the coroner's inquest was that a quarrel of long standing had been caused by Wensnyk's visit to a neighboring widow. Last Saturday morning the husband returned home at three o'clock and another quarrel occurred, the wife charging him with infidelity. The wife testified at the inquest that her husband threatened her.

After being driven from the house she returned with a knife in the scuffle inflicted injuries on him causing his death.

The couple had been married seven years and had two children. This makes the seventh murder in the Edmonton judicial district in a month.

THE NEW PATRIOTISM.

It is better that some women and children should be murdered than that many men should risk their precious lives. It is better that American honor, all that America has meant in the years of our national existence, should be discarded than that this country should put to rest its touch its comfort, its prosperity, its glorious peace, which is the peace of cowardice. This is the new patriotism.—From New York Tribune editorial. "Remember the Lusitania."

A Cemetery Dispute.

Two Irishmen were engaged in a dispute in a cemetery one day: "Well," said one, "I don't like this cemetery at all, at all." "Well," said the other, "I think it is a very fine cemetery." "No," said number one, "I don't like it at all, at all, and I'll never be buried in it as long as I live."

Burglars at Portland, Me., stole a safe from the Woolworth Company's office, and substituted an imitation. To stop "playing hooky," Chicago public schools are to have moving pictures.

THE HALLS OF QUEEN'S

MEETING OF HOCKEY CLUB TO ELECT OFFICERS

Lecture On Plant Diseases By Prof. Gussow—Canadian Standard Efficiency Test Talk By Taylor Statton.

A meeting of Queen's Hockey Club was held Wednesday afternoon for the purpose of nominating officers for the ensuing year and to transact other business. The college has plenty of splendid material this season. In the Freshman Class there are some very promising players. Queen's will likely have three teams, namely, senior, intermediate and junior. The Senate has endorsed the view taken by the students and gave its approval of Queen's entering the O. H. A. McGill has refused to play outside of Montreal, while Varsity would play outside of Intercollegiate games, but the Senate has not yet consented; however, as matters stand it looks as though Varsity will not play outside of Toronto.

Queen's will play in New York and in Boston, and probably also Pittsburgh if arrangements can be made. The following are nominations made to fill the various offices: Honorary president, Prof. W. Nicol; president, Mr. Goddard; vice president, Mr. Spruce; captain of the 1st team, Mr. Rappele. An honorary coach has not been selected.

Diseases of Plants.

Prof. H. T. Gussow, Dominion botanist, gave an interesting illustrated lecture in Queen's medical laboratory on Wednesday evening to a large audience. Dr. J. W. Edwards, M.P., occupied the chair, and stated that there was great need of the farmers fighting plant diseases, which were year by year decreasing their crops. He left it to Prof. Gussow to explain how.

Prof. Gussow introduced himself as a plant pathologist (or plant doctor). He stated that a great many diseases which caused a great reduction in the crop of grain, potatoes, vegetables and orchards could be prevented at very little cost and trouble, and thereby save Canada many millions of dollars. He stated that Canada lost \$70,000,000 in the crops of oats, barley and wheat due to smut, which could have been prevented at a cost of 1 1/2 cents a bushel for treating seed grain. He showed many slides giving views of the various diseases caused by the numerous fungi or parasitic plants.

Canadian Standard Efficiency Test.

Taylor Statton, Toronto, who has been making a tour of Canada addressing university Y. M. C. meetings, gave an interesting discourse at Queen's meeting Wednesday afternoon. Mr. Statton briefly discussed how our boys are neglected by their parents. He stated that the parents were overlooking them, and also sending them to school and church, but neglecting to see the real spirit of the boy. He showed that the age of fourteen, or high school age, was the time when a boy knew everything, and this was the time he was "stray" and formed his habits of life. As Mark Twain put it: "When I was fourteen I knew everything, and the old man knew nothing, while at twenty I was surprised to see how much father had learned in the last six years."

Demand For Free Wheat.

Grain Growers' Guide. Information from Ottawa is to the effect that Hon. Robert Rogers is urging upon his colleagues that the United States' offer of free wheat should be accepted immediately for the benefit of the Western farmers. Mr. Rogers came west last week for a tour throughout the country. No doubt his chief purpose is to discover how strong is the sentiment for free wheat. If Mr. Rogers can have wheat and wheat products put on the free list by Order-in-Council, and thus open the United States market immediately, he will have a mighty strong claim on the gratitude of the western farmers. It is reported that the strongest opponent of free wheat in the Ottawa Cabinet is Hon. W. T. White, Minister of Finance, who is regarded as the chief representative of the privileged of the east. It is also stated that the railway interests are secretly opposing free wheat to the very utmost of their ability. The publication of the huge profits of the big iron companies has rather upset the arguments of Mr. White and those of his colleagues who have been preaching the need of protection for these interests. In fact it is now stated that the milling interests, or at least some of them, are sorry they exposed the enormous profits on the past year's operations.

What's In a Name?

Rev. Dr. S. D. Chown, General Superintendent of the Methodist Church in Canada, relates that he recently officiated at the opening services of a church in the Canadian west—the only Methodist church with a Presbyterian name, for it is called Knox Church. It seems that the Presbyterians built it, and did not keep it going. The Anglicans took it over, but did not find it possible to keep the church alive. Then the church came into the Methodist possession, and the residents insisted on retaining the name of Knox. "Sign of church union," says Dr. Chown.

Join the 59th.
