their ploughing. Owing to the Col- day with his thrashing outfit. lins Bay bridge being open the Bath stage was unable to go on its route, but as it is completed many are glad

DESERT LAKE. Nov. 15.-The fine weather con-Road. A number of young people at-

sult in blue zibeline trimmed with sill

The new zibelines are very lovely and

a great improvement over the zibelines

of former years. They are used with

excellent effect to design tailored cos-

tumes, the box coat being one of the

newest of Winter models. As shown

here the jacket is worn with a plain

skirt, pleated at the sides and finished

at the high waist-line with a pointed

belt, stitched under the pleats at either

side of the skirt. The coat is trimmed

with braid, wide bands of the trimming

outlining the front and lower edges and

soutache ornamenting the wide pockets.

Silk braid also forms the high collar

the suit requires 4% yards 54-inch ma-

terial, with 3% yards wide and 1 yard

After folding the material in half

place the back into position first, laying

it on the lengthwise fold of the zibeline.

Opposite the back place the upper

sleeve section, on a lengthwise thread

and to the right of the upper sleeve

section place the lower sleeve section

The collar and pocket are laid next to

the back, on a lengthwise thread, and

following the pocket is the front of the

coat. The underfacing is placed along

The collar, although it is shown in the

fashionable high effect, may be turned

down and the front rolled back. To do

this cut off upper front edges of front

and underfacing on double "oo" per-

The new zibelines show the same silky

sheen found in so many of the new fab-

rics and will be liked by women desir-

ing a change from the smooth finished

No Waste to Crisco

One of the most important things about Crisco is that it can be used over and over again to fry different kinds of foods, without carrying the taste or odor of one over to the other.

You can fry onions, then fish, and then doughnuts in the same Crisco-by merely straining it through cheesecloth after each frying.

This prevents all waste, and makes it unnecessary to keep several kinds of cooking fat in your kitchen for different kinds of frying.

The convenience, as well as the economy, of this is obvious.
