**R. J. REID'S FINE STORE**

ONE OF THE BIGGEST FURNITURE ESTABLISHMENTS

In the Province — The Old Store Enlarged — Mr. Reid Has a Stock That Will Please Everyone.

Robert J. Reid's enlarged furniture store on Princess street is one of the finest in Ontario, and Mr. Reid's old patrons and new ones are daily congratulating this veteran Kingston dealer upon his progressive step.

Although in existence, only fifteen years, R. J. Reid's establishment is one of the largest in the city. There is a frontage of 120 feet and a depth of 66 feet. The building is three-stories high and fire-proof. There is a ten-foot tiled entrance to the store and through this the ground showrooms are reached. The stock is one of the best in Canada and is made up of period designs, including Jacobean, Colonial, Adams and Queen Mary and among the finishes are walnut, fumed oak, early English, Circassian, Belgian grey, French grey and white enamel.

The ground floor, including the new wing, is devoted to the exhibition of bed room and dining room furniture. Here the purchaser can procure as good furniture as in any house in the country.

On the second floor there are showings of parlor and living room furniture and odd pieces. In an annex to this flat will be found the stock of office furniture, chairs, mattresses, and springs. Taking the stock on the whole, the very latest in furniture can be secured. The demands of all can be satisfied and at prices to please all.

Mr. Reid is one of the oldest emigrants of the country and took out his diploma in 1833 from the Rochester School of Embalming. He has made a study of this branch of the business and now has all the latest appliances for taking care of the dead.

At the rear of the main floor is the show room of caskets. Here are twenty wall cabinets containing all caskets in broadcloths and finished woods. There is also a stock of copper lined and metallic caskets. Adjoining the undertaking room is a new morgue built of Keen cement facings. In the centre is an operating table with a glass top, and adjustable to any position. The walls and ceiling of the morgue are two inches thick and the ventilation is from the ceiling. The rooms can be washed out with a hose, and the morgue is built to allow of proper fumigation. There are cabinets in the far end to hold all equipment, and on one side is a glass wall cupboard which contains drugs and instruments.

At the front of the building, on the second floor, are two large rooms furnished for funeral services. One is a large living room of home-like appearance. The floors are of inlaid mahogany and walnut and are covered with oriental rugs. The rooms allow of absolute privacy and many funerals are held from them.

An elevator that runs to the top storey is convenient to the rooms where the funerals are held.

Adjoining the morgue on the ground floor is a large vehicle room, which contains carriages, carriages and buggies. Alongside of this is the stable, with five horses, which is the latest word in sanitation. The harness room is at the end and overhead is a workshop where the upholstering and repairing is done. From the office of the store all departments and entrances are to be seen.

Mr. Reid has in his room a tube that runs to the sidewalk and through this messages can be conveyed from the street. He has also an attachment whereby the door can be opened by pressing an electric button. The tube and button can be operated from a library on the second floor.

Mr. Reid had intended holding a big re-opening but he has been unable to do so. He extends a hearty welcome to the public to visit his store to see the stock which he will willingly show at any time.

He first opened a small store next to the opera house and later removed to the present site. He has built up a big trade and has a building that adds much to the appearance of the street.

**THE BOARD OF WORKS.**

Receives Tenders For Concrete And Asphalt Mixer.

At a meeting of the Board of Works on Friday afternoon, tenders were received for a concrete and asphalt mixer for road construction. The Chairman and the City Engineer were asked to figure out which tender should be recommended to Council.

It was decided to request the owners of poles on University avenue, which is to be removed, to transfer them from the outside to the inside of the walks.

There was a discussion as to whether the space between concrete walks and curbs should be filled in with concrete. The Engineer has all along held that the space should not be concreted as it causes heaving. No decision was arrived at.

In attendance at the meeting were: Aids, Graham (chairman), Nickle, Couper, Gillespie and Richardson.

**EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS**

If feverish, bilious, constipated, give fruit laxative at once.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mother can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

**ROOSEVELT IS ANGRY**

AT THE POOR DEFENCE PLANS OF THE U. S.

Assails President Wilson, Former President Taft and Others.—Declares Advocates Of Half-preparedness Are As Dangerous As Advocates Of Unpreparedness.

Chicago, Nov. 20.—Colonel Theodore Roosevelt has been interviewed at Oyster Bay by a staff correspondent of the Chicago Daily News and has taken occasion to criticize President Wilson, former President Taft and others. The former President of the United States, in the course of his remarks to the correspondent of the Daily News, declared that in his belief the advocates of half-preparedness are more dangerous to the body politic than William Jennings Bryan and Henry Ford.

"He was intense," says the Daily News man, "and the Roosevelt teeth bit with a noise as he chomped his words and walked about his study in his Oyster Bay home."

Col. Roosevelt is quoted as saying: "This country is in quite as much danger from the advocates of half-preparedness as from the advocates of unpreparedness. There has never been a more pliable spectacle than the peace-at-any-price man for the last five years, under the leadership of men like Bryan, David Starr Jordan and Henry Ford.

"These gentlemen aim to 'Chinify' America, make it the China of the Occident, and plunge us into the depths of degradation, from which the best and wisest Chinese reformers are now plainly trying to raise China herself. But the very absurdity, the unspeakable silliness of their attitude, make them less dangerous than the advocates of half-preparedness, such as Mr. Wilson and Mr. Taft."

Col. Roosevelt then had something to say of the continental army idea. "The proposed continental army, for instance," he said, "is thoroughly undemocratic and is a simple imitation of a failure. Apparently Wilson and Garrison know nothing of the German or Swiss or Australian systems of military preparedness and nothing of the military experience of England since this war opened. They have studied only what England did before the war broke out and are proposing to imitate the territorial army, which proved a flat failure as soon as the crisis came. The proposed continental army is utterly undemocratic; it denies to the patriotic man of small means the chance to train which it gives to his well-to-do brother.

"Moreover, employers cannot give holidays to their employees for two months if they are to compete with their rivals in business. The plan would put a premium upon bad citizenship. A democracy should do its own fighting and should prepare in advance.

"We need universal service, which means that every young man should be trained as I have outlined in magazine articles. This is the only way to prepare for war."
