KITCHENER'S ANSWER ABOUT DARDANELLES

Is a Big Offensive Against the Enemy—Apparent That Gallipoli Expedition is Not to Be Abandoned—Serbian Victory Over Bulgarians.

(Special to the Whig.) Rome, Nov. 22.—The big Dardanelles offensive is regarded here as Lord Kitchener's negative answer to suggestions in England that the Gallipoli campaign be abandoned. Following Sir Ian Hamilton's recall from command of the expedition, General Monro, who succeeded him, is understood to have recommended that troops engaged in the Dardanelles land campaign be withdrawn, considering them engaged in a hopeless task. The London War Council decided, however, not to take so important a step without further advice, and Lord Kitchener visited the peninsula in person a few days ago to look it over.

Great Success of Canada's Big War Loan

(Special to the Whig.) Ottawa, Nov. 22.—Although the Canadian war loan was only thrown open to subscribers this morning, its complete success is already assured. The chartered banks of Canada will alone take up fifty per cent of the loan. They have notified the Minister of Finance that they will subscribe twenty-five million dollars. Life insurance companies will contribute about ten million dollars. When it comes to the allotment, however, the private investor of small sums will be given the first consideration.

GERMANS TREAT BRITISH PRISONERS LIKE DOGS

London, Nov. 22.—The British Press Bureau has published the reports of James W. Gerard, the American Ambassador to Germany, and members of the Embassy staff in Berlin, relative to the condition of British prisoners of war in the camp at Wittgenberg, Prussia. Lithgow Osborne reported that his whole impression of the camp authorities was utterly unlike that which he had received in every other camp he visited. Instead of regarding their charges as honorable prisoners of war, he stated, they apparently regarded them as criminals, whom a regime of fear alone sufficed to keep in obedience. "All evidence of kindly, human feeling between the authorities and the prisoners was lacking," said Mr. Osborne, "and in no other camp have I found signs of fear on the part of the prisoners that what they might say to me would result in suffering for them afterwards."

U. S. Germans May Strike At Canada

(Special to the Whig.) Washington, D.C., Nov. 22.—Cleveland, Buffalo, Toledo, Detroit and other great lakes cities have been specified in the report to the British Embassy as points from which an attack on Canada was to be launched by German rascals, British Embassy said today, so far, however, nothing has been discovered to warrant a protest by this Government, it was said.

SUBSCRIBES TO LOAN. (Special to the Whig.) Ottawa, Nov. 22.—H. R. H. Duke of Connaught the Governor-General, this morning forwarded a big subscription to the Canadian Government war loan.

"The people of the west are not talking politics these days, nor are they thinking of politics; they are giving the undivided attention to the war," said Dr. Michael Clarke, M. P. for Red Deer, who is in Ottawa.

YOUR LITTLE HUNDRED You think, perhaps, that you are not called upon to help Hon. Mr. White finance Canada's part in the war. If so, you are wrong. Mr. White wants your little hundred dollars. Canada has eight million citizens—men, women and children. A least half a million of these citizens have bank accounts. If that half million people each subscribed for \$100 of Mr. White's loan, they would take up \$50,000,000 of Government bonds. These bonds are as safe as the Post Office Savings Bank or the savings departments of the chartered banks. And they will pay a higher rate of interest. Have you patriotism enough to loan your country \$100 for five years at a fair rate of interest? The advertisement appears on page 9.

Trampled the Fingers of Their Victims

London, Nov. 22.—Charges that the German officers kicked drowning men from their submarine after torpedoing the French troop-ship Calvados near Gibraltar recently are contained in a report received Saturday from Officer H. Bacon, of the British SS. Lady Plymouth, which saved 53 of those on the lost vessel. There were 800 on the transport at the time of the attack and many swam to the U-boat. The gold-laced officers of the undersea craft are declared to have trampled on their clinging fingers until they let go and drowned. Bacon sent his report from Algiers.

Swedes Break Their Word to Great Britain

Christiania, Nov. 22.—The Norwegian-American Line has been compelled to abandon transportation of freight from America to Sweden, on account of the fact that Sweden does not guarantee to Great Britain that goods brought in will not be exported to Germany. The liner Kristianafjord has just arrived at Bergen with a cargo of 6,000 cases of American pork, and 1,300 bags of coffee. These goods must be returned to England on account of an order issued by the British authorities when the vessel was detailed recently at Kirkwall. At that time two American passengers were taken ashore for observation. The British authorities are particularly anxious to ascertain the ultimate destination of the pork on the Kristianafjord, as it has been proved that Swedish importers have violated promises not to sell pork to Germany.

(Special to the Whig.) London, Nov. 22.—A Turkish transport carrying 500 Ottoman soldiers has been sunk by a mine in the Sea of Marmora, according to a Central News despatch to-day from Zurich. Nearly all on board were rescued.

(Special to the Whig.) Paris, Nov. 22.—King Constantine and Premier Skgloudis, according to the latest accounts received here from Athens, are still for an attitude of "benevolent neutrality" towards the Allies, ex-Premier Venizelos continues to demand that Greek aid be sent to Serbia, and ex-Premier Gounaris is said to be doing his utmost to throw the Greek forces into the field as the allies of the Germans.

THE CANADIAN LOAN RAPIDLY TAKEN UP

It Looks As if the Canadians Will Rally Strong To Its Support--The Investment is Sure And of Splendid Interest Value.

Toronto, Nov. 22.—From the interest already evinced in the \$50,000,000 loan to be offered to the people of Canada by the Dominion Government its success seems already assured. So far as is known the largest commercial subscription to the first domestic loan in the history of Canada amounts to one million dollars, which is one-fifth of the total issue. It is understood that the tender was sent to the Minister of Finance by the Imperial Oil Company, of Toronto, before the terms of the loan and the rate to be paid were made known. Mr. Teagle, President of the Imperial Oil Company, seen by a reporter, said: "It is a fact we have asked for a million dollars' worth of bonds which the Finance Minister is about to offer to the public. The company's officers in this subscription expressed their opinion of the credit of this country. They feel that it is not only their duty, but good business as well, to help out with this loan. There could be no better security than the Dominion of Canada's promise to pay, and the directors of the Imperial Oil Company feel that this should be taken up at once, even if the rate should be a little less than it is likely to be."

"The rate, in fact," said Mr. Teagle, "is not the paramount consideration. It is the demonstration that in this critical time Canada is able to do her full share. Circumstances have combined to place this country in an exceptionally favorable position to finance its own requirements for a time. It is fortunate that she is able to do this as well as to do other things which we would have been apt to regard as extraordinary a short time ago."

"The loan will be a good thing for the small investor, to whom the purchase of bonds will be a new experience. It will not take up any needed capital and the advantage of paying even this small proportion of our annual interest charges at home will last much longer than the life of the loan. "As our business extends pretty

well over the country it will be to us, as well as to every other industry, a beneficent influence." There are plenty of indications that there will be a generous response throughout Canada and that the fifty million dollars will not only be subscribed but that the total amount will be over-subscribed. Most of the Canadian banks, loan companies and big financial institutions have already intimated their intention of subscribing and the subscriptions from the general public, it is believed, will be heavy.

A number of the Canadian municipalities are planning to invest their sinking funds in the Dominion Government debentures and have made inquiries at Ottawa as to the mode of procedure. The Ottawa board of control has decided to invest a half million dollars of its sinking fund in the loan. Industrial companies which have idle funds will also invest in the loan. The Canadian Ford Motor Car Company has already intimated that it will invest a million dollars in this patriotic notation.

What London Will Take Up. London, Ont., Nov. 22.—It is understood that local financial institutions will subscribe to \$750,000 of the new Canadian war loan. It is not expected that the city will take any portion of the loan. It is reported that the Huron and Lake Erie Loan and Mortgage Corporation will take \$300,000; the Ontario Loan and Debenture Company, \$200,000; and the Northern Life Assurance Company and the London Life, \$100,000 each.

N.Y. Banks Will Subscribe. New York, Nov. 22.—With six months loans being made at three per cent, it is expected that some New York banks will subscribe to the Canadian Government loan. It is too early yet to estimate the amount of bonds that will be sold here, but the amount will probably be not less than \$10,000,000. Their interest rate is considered attractive to investors on this side of the line.
