KITCHENER IS RECEIVED BY THE KING OF GREECE

Egypt Seems To Expect Hostilities--Post Offices Refusing To Issue Money Orders For Greece--What Will Be Demanded of Constantine.

London, Nov. 22.—Events are moving swiftly towards a climax in the Allies' relations to Greece. Following upon the temporary detention of Greek steamers in British ports, as a hint to Greece to declare herself, came this morning a report that Greece had ordered all her steamers in Italian and French ports to leave. On the heels of this, came a story that the Allies had issued what was practically an ultimatum, which is backed up by the presence of British ships within striking distance of Grecian cities. Last night, in a despatch sent from Athens at 7.20 p.m., London learns that Kitchener and the British Minister to Greece called on King Constantine and put the issue squarely before him. The pro-German King of Greece, whose wife is a sister of the Kaiser, must say whether or not he will give positive guarantees from Athens in return on the Allied troops which her own Premier, Venizelos invited to land at Salonika. The Allies want Greece to join them, but their more immediate demand is for a guarantee of continued neutrality. An attack from Greece at this time, after she has peacefully joined the Allies to land, and even welcomed their troops

would be treachery so base as to warrant a terrible coastal bombardment from the British fleet. In the meantime, however, an interesting situation arises if Greece sees fit to hold Kitchener as a hostage. Indications that Egypt expects war are seen in a despatch from Alexandria, dated 6 p.m., Saturday. It says that Egyptian post offices are refusing to issue money orders for Greece, insurers are refusing to write policies on Greek steamers, while banks there are refusing to accept bills of lading for such vessels. Greece has been making tremendous profits out of her shipping since the war began, and hostilities against the Allies would mean the loss not only of this trade, but of the ships themselves.

What Greece Must Do.

New York, Nov. 22.—A news agency despatch from London, says that a Renter despatch from Malta says that it is understood that the Allies have demanded on Greece that she either intervene immediately on the side of the quadruple entente, or demobilize her army.

PARIS MODISTES BAR

THE GERMAN AGENT OF PRESIDENT WILSON'S FIANCEE.

Association Headed By Paul Poiret Directs Dresses Should Not Be Delivered To Naturalized American.

Paris, Nov. 22.—The Paris dressmakers' syndicate has blacklisted two American customers of German origin, one of them a man named Kurzman, reputed to have been commissioned to buy goods for Mrs. Norman Galt, who is to be the bride of President Wilson.

It is stated Kurzman has threatened to raise a diplomatic question because of the modistes' refusal to accept orders from him. Rue de la Paix and other leading houses refuse to state whether or not they have had orders for gowns for the President's fiancée. Some of them say, however, that they have had orders from Kurzman which they are unable to fill in consequence of the decision of the syndicate. They are endeavoring to dispose of the matter without too much publicity, but declare that they cannot overturn the decision of their representative body.

The Dressmakers' Association met today at a session presided over by Paul Poiret, the organization's president, and took official action regarding the dresses ordered for Mrs. Galt. It was directed that no member of the association should deliver the dresses to a certain house in America, whose proprietor was a German, naturalized in the United States.

It appears that only this and one other proprietor of German origin had been blacklisted by the action of the association. Some time ago it was found that a large number of dress importers in New York and elsewhere were of the Teutonic race. The association decided, it was explained, as a matter of principle, only to refuse to sell to two houses, whose names were drawn by lot, and that one of these names was that of the person ordering gowns for Mrs. Galt.

Montreal Mail Sued. Montreal, Nov. 22.—Mayor Martin has entered suit against the Montreal Daily Mail for \$10,000 damages for alleged slander. This action is in connection with the mayor's prosecution of Jules Fournier, editor of L'Action, for alleged criminal libel. The association decided, it was explained, as a matter of principle, only to refuse to sell to two houses, whose names were drawn by lot, and that one of these names was that of the person ordering gowns for Mrs. Galt.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, doesn't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again. Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

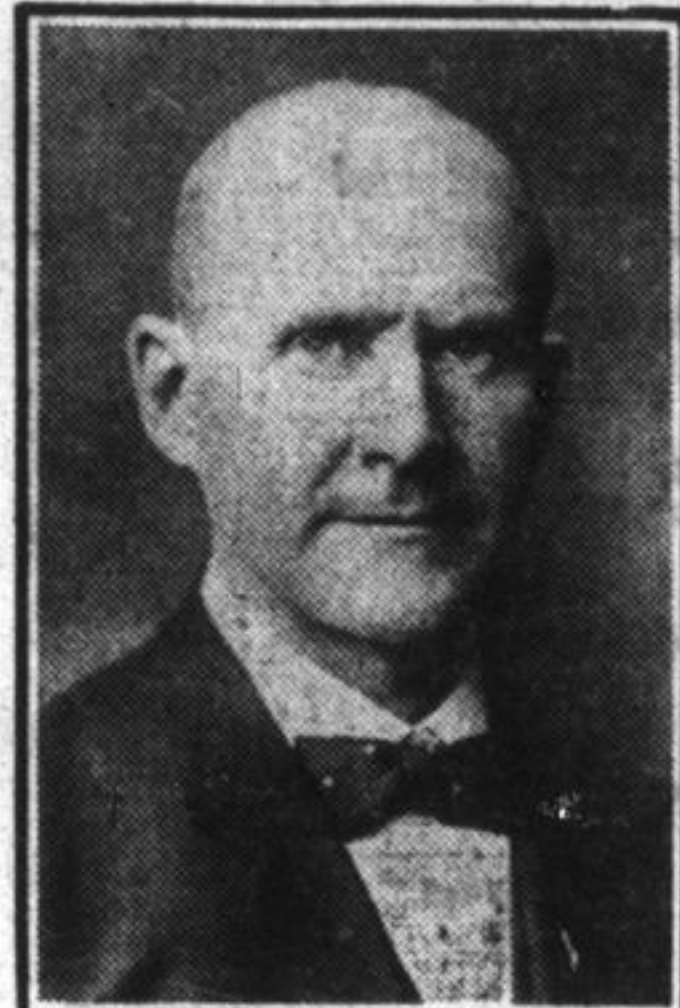

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters! Get the genuine, made by "California Fig Syrup Company." Refuse all other kind with contempt.

Blames Mummy For Deadly Spell.

St. Louis, Nov. 22.—Sinister agate eyes, twinkling malevolently from under the head wrappings of an Egyptian mummy, and believed to be bringing the curse of the dead for the violation of her tomb, have led to the sending to Carnegie Museum of the blackened skull of Queen Hatshepht, or Hatshepsut, of the line of Thothmes. The donor, Mrs. Jere Bauman, of No. 465 Neshannock avenue, New Castle, whose husband brought the head from Egypt seven years ago, declared to-day that she had sent the gruesome relic of the Nile to the museum to break a spell which she says she believes had some bearing on the death of her son, J. Howard Bauman, four years ago, and more recently that of her husband, Jere Bauman, October 21st.

EGG SPECULATORS CAUGHT.

By the Failure Of the Allies To Buy.

New York, Nov. 22.—Egg kings in the United States, who planned to reap huge profits by selling shiploads of eggs to the Allies, are wig-wagging the public for help. The Allies failed to make the heavy purchase of eggs expected and the speculators are caught with a surplus of eggs and prospects of a mild winter. In twenty-four big cold storage warehouses are more than 1,000,000 eggs, or more than ten pieces for every man, woman and child in the country. The price wholesale of cold storage eggs to-day was two cents lower than on the same day last year. A few weeks of mild weather may force millions of dozens of cold storage eggs on the market and send retail prices down with a crash. It is possible, wholesale men said, that cold storage eggs may be selling at retail at less than 2 cents a dozen. The price here now ranges from 29 to 36 cents.

Strictly fresh eggs were selling at about 60 cents retail in New York to-day, with the blue blooded "white fancies" quoted at 72 cents a dozen. But several commission men said they believe the price for fresh eggs will go little, if any higher, and that the first sharp break in the storage egg market will bring fresh egg prices tumbling.

CAN HELP OUT.

United States Turns To Beer For More Revenue.

Washington, Nov. 22.—Whenever the Government gets pinched for money it turns to beer for more revenue. The present tax on beer is \$1.50 a barrel, an increase of fifty cent having been authorized in the Emergency Revenue Act passed at the last session of Congress. There is talk now that when Congress comes to pass the new tax on beer will be December 31st, the rate on beer will be raised to \$2 a barrel. That was the rate levied at the time of the Spanish War. Beer produced \$36,000,000 revenue in the last fiscal year. It is estimated that an increase to \$2 a barrel would augment the yield to nearly \$50,000,000.

STEAMERS ON HUDSON BAY.

Government Will Operate Connection With New Railway.

Ottawa, Nov. 22.—A Government-owned line of steamers out of Hudson Bay will be established, it is understood, on the completion of the line and terminals of Canada's new Northern port and will be in operation in time to carry part of the 1917 wheat crop to its destination overseas it is hoped.

Work on the construction of the line is being expedited with a view to completing the laying of steel by the Fall of next year. If this is done as stated, the route will be in a position to compete for the movement of the Canadian grain crop of 1917.

Will Need Standing Army.

London, Oct. 22.—Brigadier-General Smith, of Ottawa, who has been conducting the Military Department's investigation into the 33rd battalion graft cases, today expressed the opinion that Canada will require a standing army for at least four years yet, even though the war may be over considerably before that time.

Embargo On Steel.
