

Told In Twilight --- In the Realm of Woman

Societies

(Continued from Page 7.) The Patriotic Dance in Grant Hall given by the Medical Faculty on Friday night in aid of the Red Cross was thoroughly enjoyed by a large number. The guests were received at the entrance by Mrs. J. C. Connell wearing a handsome black satin gown veiled in blue.

Cooke, Miss Eva Clendinning, and Miss Mildred Donaldson. Lieut.-Col. N. C. Perreau and the staff of the Royal Military College entertained at lunch yesterday in honor of the Australian cadets, who have been guests in the city yesterday and to-day. The other guests included representative men from town.

Mrs. D. Edward Mundell, Brock street, will receive on Monday, and not again until after the New Year. Mrs. N. C. Polson, Miss Polson and Miss Una Polson, University avenue, will leave on Monday for California to spend the winter.

Mrs. Mabel Miller, Clifton Springs, arrived on Wednesday as the guest of Mrs. R. J. Carson, "Romilly House." Mrs. J. K. Aird came down from Toronto yesterday, and is the guest of Dr. and Mrs. D. Edward Mundell, Brock street.

Prof. and Mrs. S. F. Kirkpatrick expect to move into their new home in Kennington Place about the middle of December. Miss Phyllis Knight, Alice street, has returned from Etobicoke, where she was a guest at the Maynard-Wilson wedding last Wednesday.

Lieut.-Col. and Mrs. H. J. Dawson were in Brockville yesterday. Miss Grace McLaughlin, Miss Pearl Morton, Miss D. Micken, Miss Alkeron, Miss Helen Baxter, Miss Annie Beers, Miss Pearl Blyth, Miss M. E. Burke, Miss G. Baiden, Miss Brisland, Miss Helen Campbell, Miss Cruickshank, Miss Myrtle Clinton, Miss Nell Clinton, Miss B. Clapp, Miss Jessie Campbell, Miss Ada

FLOUNCED FROCKS FOR THE DANCE

Dainty Models Are Fashioned Of Net Lace And Chiffon.

Dance frocks today increase in fluffiness. The most highly approved models launched for immediate wear are practically all net. Even the under slip and dainty petticoats are fashioned of fancy net or chiffon, with slight touches of satin ribbon reading and belts of delicate lace.

The party frock itself favors frills, paniers or furberows of any description—and, in some instances, graceful train of lace. Brocaded stuff, hanging wattleau style from the shoulders. One of the prettiest frocks noted in a recent collection was simple, youthful and all white.

Another beauty in the same group was also intended for the youthful frock in black, and was an exquisite creation in black, used to fasten the soft girle on the left side.

The black frock was a series of graduated flounces piped with black taffeta. A very effective train hanging loose from the shoulders was of chintilly lace with two gold traced designs at the lower edge. A Mr. and Mrs. J. L. Gurd, Johnson street, returned to Montreal on Thursday after spending some time with Mr. and Mrs. J. C. Smith, Johnson street.

Mrs. Phyllis Knight, Alice street, has returned from Etobicoke, where she was a guest at the Maynard-Wilson wedding last Wednesday. Lieut.-Col. and Mrs. H. J. Dawson were in Brockville yesterday. Miss Mabel Miller, Clifton Springs, arrived on Wednesday as the guest of Mrs. R. J. Carson, "Romilly House."

DYING GOODS AT HOME

In almost every household in the fall there are articles for household and personal use that would do good service if they were dyed. Sometimes the expense of sending them to a dyer prevents their being utilized, but with care a fairly successful result can be obtained at home.

The Kansas City Star gives experienced hints about home dyeing. The directions on the packet are usually explicit, and experienced dyers need no others; but the amateur is apt to strike snags despite directions. She may not think it necessary to clean the article to be dyed, but oil or grease of any kind kills dye, so that any garment known to be greasy at all should be soaked in a warm solution of ammonia and water for half an hour, then thoroughly rinsed in hot water before going into the dye pot.

Cotton goods should be washed in hot soapsuds and given a thorough rinsing. To leave soap in will interfere with the dye. When dyeing cotton or mixed goods they should be allowed to become cold in the dye-bath. Dyes set very slowly in these fabrics, so the cooling process is necessary to success. Woolens, on the contrary, absorb the dye quicker, and may be rinsed while hot. Closely woven woolen goods should be boiled a little longer than those loosely woven.

Woolen goods of any weave should never be allowed to boil fast. A gentle simmering will bring the best results. If boiled violently the tiny hairs mat and cause shrinkage, besides making the material close and board-like. The fibre of linen, being harder and tougher than that of wool, silk or mixed goods, requires longer and faster boiling.

Dictates Of Fashion.

The latest notion is a fur-trimmed pocket. Some of the new coats have points in the back. The fur-trimmed coat is modish for children. Smart motoring clothing is trimmed with leather. Petticoats must fit smoothly around the hips. Scarfs of tulle in taupe or mordore are very charming. Gold and silver braids appear on black net evening gowns. Some of the new sports suits are of tomato-colored homespun. There is a good deal of embroidery used on serge dresses.

"Mapple" stitching is very good form on gray doeskin gloves. A startling novelty is a jersey waist for wear with tailored suits. Huge fur buttons are a decorative feature on suits and furs alike. There is a tendency toward close fitting shoulders in the new suits. Tulle and gold lace make a lovely combination for an evening frock. A lovely sapphire shade of blue is much used by one famous Parisian designer.

Excellent Dust Cloth.

Split and sew together the upper halves of fine cotton hose. Place these dust cloths in an airtight pail with a few drops of kerosene and tacked on them and leave to stand twenty-four hours. This makes an inexpensive dustless duster. No new material that can be purchased equals pieces of old cotton sheets and pillow-slips for scrubbing and cleaning, and discarded flannel underwear is splendid for cloths for washing paint and windows, for cleaning silver and polishing brasses.

Feather Cake.

One cupful of sugar, one cupful of butter, one-half cupful of milk, two eggs, one and one-half cupful of flour, one teaspoonful of cream of tartar and one-half teaspoonful of soda. The word "brat" now a term of contempt, was once an ordinary expression for a small child. Alum, a tablespoonful, powdered, will purify cistern water.

ACTIVITIES OF WOMEN

Missouri has six women architects.

Danish women will vote for the first time next July. The mean age for marriage among women is 26.80. Kansas women can vote at every election in that state. Countess Szegi, better known as Mrs. Tom Thumb, is now 74 years old.

A healthy woman averages 75 steps a minute when walking at an average speed. Glasgow, Scotland, has appointed a woman, Miss Emily Miller, to its police force. Princess Arthur of Connaught is considered one of the smartest attired women of all the royalties.

Anderson, Ind., has over 1,000 women working in factories who earn on an average of \$2 a day. One-third of the workers in the hat, suit and overall industries of the United States are women. In Japan the lover gives his sweetheart a piece of heart-shaped ring, a sash instead of an engagement ring.

Queen Marguerite of Savoy, mother of the King of Italy, has written a patriotic hymn which is dedicated to the wounded Italian soldiers. London now has a "League for Marring Broken Heroes." All patriotic women in England now unmarried are urged to join the league.

French women are now having the pictures of their husbands and relations at the front photographed on their arms and chests. A statue of Edith Cavell, the English nurse who was executed as a spy by the Germans in Belgium, will be erected near Trafalgar Square, London.

Miss Minnie Beasley, of Westville, Okla., who has been doing housework to secure funds to pay her way through school, has fallen heir to \$30,000. Just to show that she was no "piker," Miss Minnie Kuester, of Omaha, who bet on the Phillies, rolled a peanut around a city block with a toothpick.

The new social secretary at the White House in Washington is Miss Edith W. Benham, who succeeds Miss Isabelle Hagner, who is about to become a bride. Although she is blind, Miss Hatie Maddox has been employed in the mailbag repair shop of the Post Office Department at Washington for the last 26 years.

More than 1,000 women have petitioned the president of Peru, requesting him to veto the bill that authorizes tolerance in Peru. Three Moro girls have entered the training school for nurses in Manila and when they have completed their course will return to nurse their own people.

The Czarina of Russia holds the rank of colonel in five regiments, which is more than any other woman in the world. Her two eldest daughters are colonels-in-chief. The Grand Duchess George of Russia has established two hospitals in Harrogate, England. She is the possessor of enormous wealth, and is noted for her magnificent diamonds and furs.

Mrs. William Tracy, of California, is said to be the only woman in the United States engaged as an ostrich farmer. She has over 100 birds on her ranch, which net her about \$40 a piece each year. Miss Ruth D. Evans, deputy county clerk of Hamilton county, Tenn., has written a manual for magistrates and the South Carolina Legislature has adopted it for use of the magistrates in that state.

Mrs. Aki Yosano, who conducts the woman's department of an influential magazine in Tokio, Japan, is largely responsible for the active part women have taken in the Japanese elections. A measure placing men and women on a basis of absolute equality so far as provincial matters are concerned, will be offered at the coming session of the provincial legislature of Alberta, Canada.

Selma Lagerlof, the only woman to ever receive the Nobel prize for literature, is the daughter of an obscure clergyman in a small Swedish hamlet. She was born in an old farmhouse and was trained to be a teacher. Mrs. Frederick Gillman of Vallejo, Cal., widow of a gunner on the submarine F-4, which sank in Honolulu harbor, has been appointed flagmaker at the Marine Island navy yard by Mrs. Dixie B. Tucker, a graduate physician and supervisor of rural hygiene in Oklahoma, travels among the country people lecturing on fly-killing and food and bodily cleanliness. She is the only woman in the United States so employed.

Princess Elizabeth von Sartzfeldt Trautenberg, wife of the counselor of the German embassy in Washington, has just returned from a visit to her native country and claims that the women at home are ready to go in the trenches and fight until they fall.

Colored Handkerchiefs.

Colored handkerchiefs for the breast pocket are fashionable now, but the color must be very dainty and the handkerchief rather small, so as not to be too obvious a part of the costume. Cut a 7-inch square from a pale pink, blue or lavender batiste, selecting a fine quality, and drawing threads before cutting, to get the square true. Then draw out three threads along each side about half an inch from the edge, and another group of three threads half an inch inward from the first group. With mercerized cotton thread and a rather fine embroidery needle run in and out along the lines of drawn threads, taking up only two or three threads to a stitch. This will give the handkerchief a pretty border trimming. The outer edge is then rolled and whipped setting the whipping stitches on an even slant over the roll. When you have gone all round the handkerchief turn it

GRAY HAIR

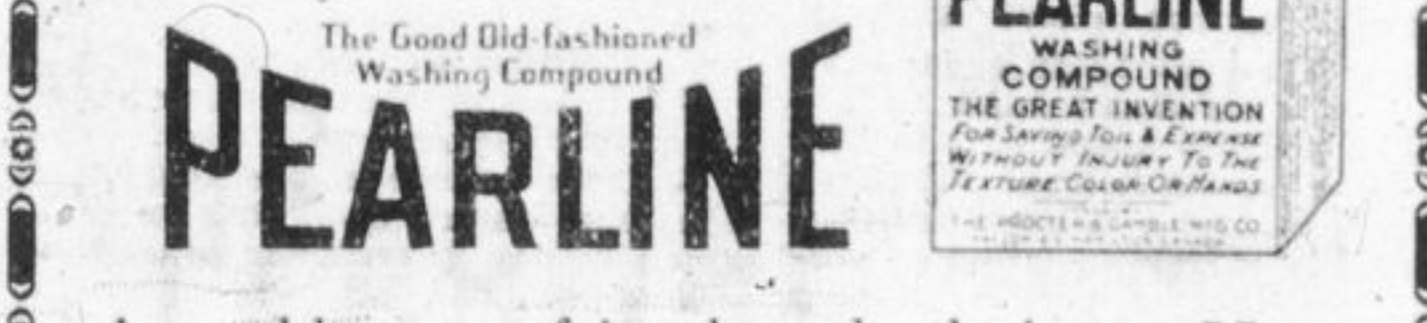

Dr. Trement's Natural Hair Restorative used as directed is guaranteed to restore gray hair to natural color or money refunded. Possibility not a dye and non-injurious. For sale by T. H. Sargent, Druggist, corner Princess and Market streets, Kingston. Price \$1.00 postpaid. Write Trement Supply Co., P. O. K. W., Toronto.

An easy name to remember. A hard tea to forget.

Red Rose Tea "is good tea"

Canada's Favorite Washing Compound Free to You

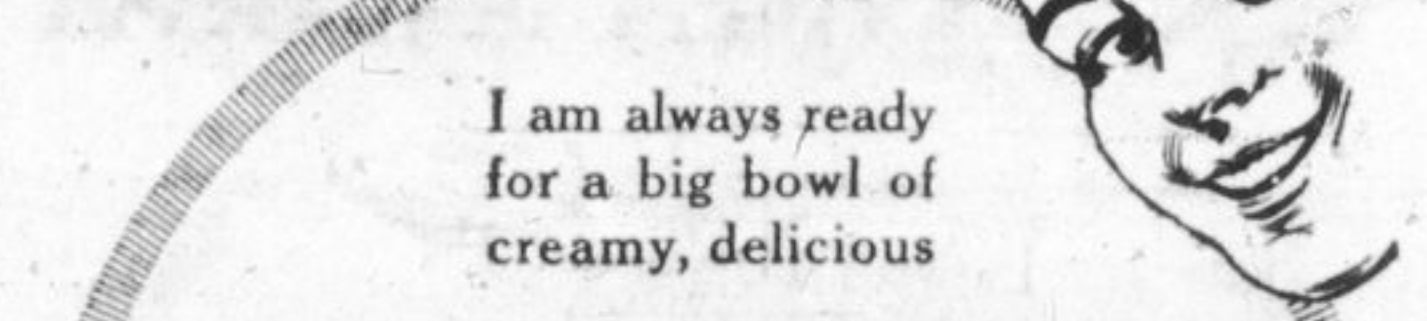

Here is your opportunity to see why The Good Old-fashioned Washing Compound

is used by your friends and relations. Here is your opportunity to see whether you too should use it for washing dishes and all general cleaning. Our man is bringing a full-size package of Pearline to your door. Take it with our compliments and try Pearline.

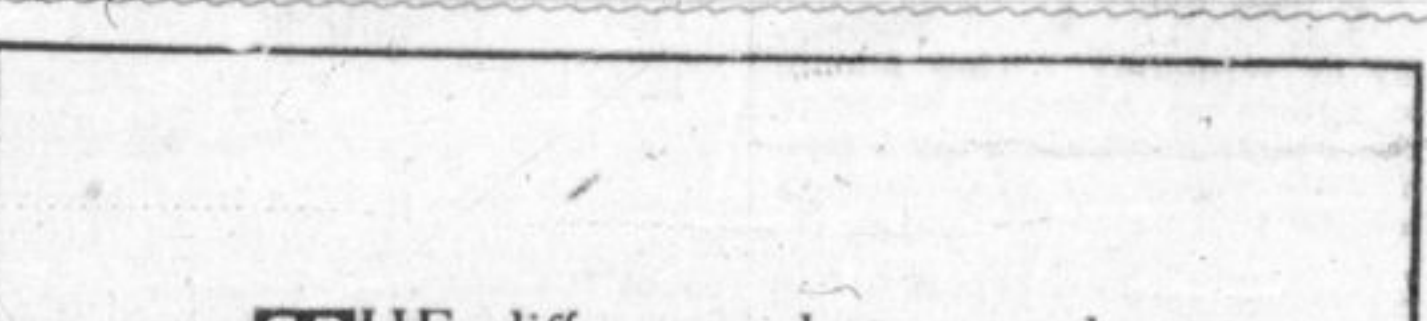

The Procter & Gamble Distributing Co. of Canada, Ltd. Hamilton, Canada

"Good Morning Is my Robin Hood breakfast ready"

ROBIN HOOD PORRIDGE OATS

I am always ready for a big bowl of creamy, delicious. They make real porridge, with the real Scotch flavor. Mother likes them because they take less time to cook. Save the coupons in the tubes for beautiful Silverware.

THE difference between the lather from Ivory Soap and from ordinary soaps is marked. The Ivory lather is full of bubbles—therefore light, lively, copious, pleasing. Ordinary lather is often but a thin, sluggish, meager soap solution.

5 CENTS IVORY SOAP 99 44% PURE IT FLOATS

Procter & Gamble Factories in Hamilton, Canada

group of three threads half an inch inward from the first group. With mercerized cotton thread and a rather fine embroidery needle run in and out along the lines of drawn threads, taking up only two or three threads to a stitch. This will give the handkerchief a pretty border trimming. The outer edge is then rolled and whipped setting the whipping stitches on an even slant over the roll. When you have gone all round the handkerchief turn it over and whip it the other way, the second stitches obliquely crossing the first ones. This gives a firm, yet dainty border to your little pocket handkerchief. Rice Muffins. Mix six well-beaten eggs with a pint of soft-boiled rice, a cup of milk, two ounces of soft butter and four drops of vanilla. Drop on a greased pan like a drop cake and bake.

A Smooth, White Skin That Defies Weather

During the coming months of biting winds and intense cold, you who would keep your skin smooth, white and soft, should turn your attention to mercurochrome. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. The skin is soft, plump, free from coarse, shallow or over-crowded pores, and the wrinkles, here and there, are smoothed out. One ounce of ordinary mercurochrome, to be had at any drug-gist's, will completely transform the most unattractively weathered face in less than a fortnight. Use the wax, liberally, like cold cream, washing 7/8 of morning. If weather, age or poor health has marred your face with wrinkles, here go new. You can quickly remove every line by using a harmless, refreshing face lotion prepared by dissolving 1 oz. powdered salolite in 5 pt. witch hazel. The result: smoother skin, the more youthful appearance, even after one application, will astonish you.

Do you want to earn \$10 a week or more in your own home?

Reliable persons will be furnished with profitable, all-year-round employment on Auto-Knitting Machines. \$10 per week readily earned. We teach you at home, distance is no hindrance. Write for particulars, lists, rates of pay, send 2c stamp. AUTO-KNITTER HOSIERY CO. Dept. 115-227 College St., Toronto

Society Women Learn Hair Curling Secret

If your hair is straight, flat, dull looking, I need not say if you long to possess perpetually soft, fluffy, glossy tresses, say Gladys Coleman in Society World. I'll tell you what to do. To-night, after you have had your usual brushing, take a clean tooth brush, dip it in a saucer of pure liquid salicylic acid and run this through the hair from crown to tip. When morning dawns and you have yawning yourself out of your drowsy coil, you will have a real surprise, quite an agreeable one. Your hair will have a prettier and more natural-looking curl, and laster than it has ever had before—and there will be nothing sticky, greasy or anything unpleasant about it. If you will get the liquid salicylic acid from your druggist it will require no preparation at all, and four or five ounces will last for months. This is just the finest thing imaginable for the purpose.

FEATHERS

The Cleaning and Dyeing of Feathers is a most important branch of our business, and one to which we devote a great deal of attention. Feathers can be cleaned or dyed very successfully.

We carry at all times an extensive stock of feathers manufactured in our own workrooms, which are on sale at very moderate prices.

PARKER'S DYE WORKS LIMITED 69 Princess Street, Kingston, Ontario.

About Baby

THE best indication of proper development is a right increase in weight coupled with increase in muscular strength. At five months Baby should be able to hold his head erect. At seven months he will be able to sit up for a while. When ten months he crawls, pulls himself up or stands by a chair. Do not encourage a child to walk before he does so of his own accord. The "Allensbury's" Foods Nos. 1, 2 and 3 provide the right nourishment for Baby step by step, and promote sturdy growth and sound development.

SPECIAL SALE OF TRIMMED HATS

\$4 to \$6 values. For \$2.95 MISS HAMILTON 370 Princess St. Phone 1267. Open Thursday Evening, 7.30 to 9.30.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

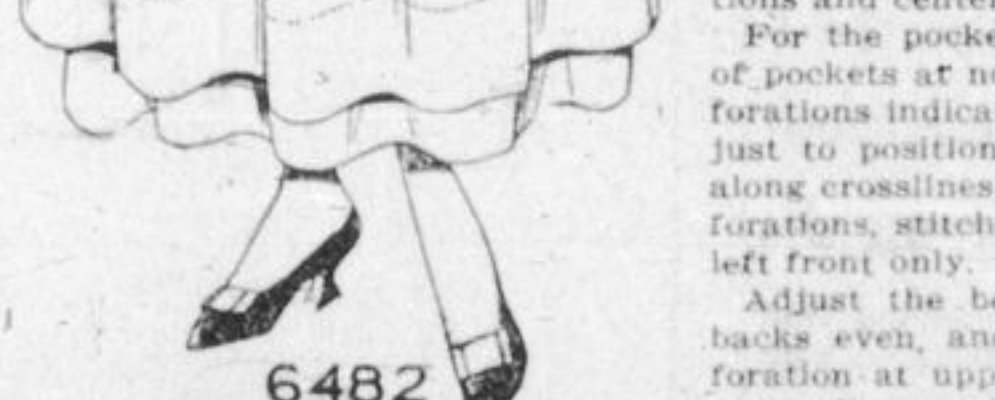

A REAL "SLIP ON" APRON.

Many of the "slip on" fashions are misnomers, but not with this apron of plain blue gingham. Cutting, sewing and every detail of its development have been reduced to a minimum. The front, back and sleeves are cut in one and the front is slashed and laced for a closing. In medium size the apron requires 3 1/2 yards of 36-inch material, and if trimming is desired there is nothing more effective than a simple design of finishing hemstitch.

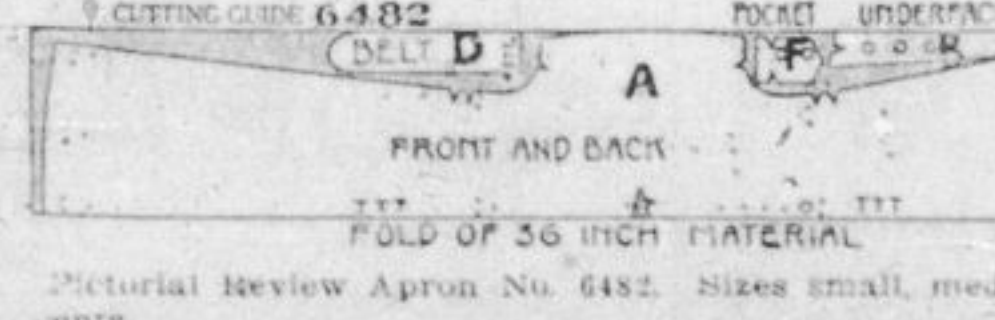

The material is folded full length, before cutting. Then the front and back section is placed on the lengthwise fold. The belt, pocket and underfacing are laid along the selvage edge of the gingham in the space where the short sleeve leaves a bit of surplus material. To the right of the front and back section the collar is placed, right along the lengthwise fold, and opposite this the large pocket.

Eyebelts are used on the front through which the linen cord may be laced, but even easier are the little thread-covered rings which may be obtained at the notion counters. These are sewn on either side of the opening and the cord laced through them instead of eyelets. To make the apron, first slash down the fold at center-front from neck edge to large "O" perforation. Next, adjust underfacing to position underneath the slash edges corresponding notches and edges even. Work eyelets at small "o" perforations, if eyelets are used. Close under-arm and sleeve seams as notched. Stitch a straight or bias band of material about 1 1/2 inches wide when finished on lower edge of sleeve. Face collar and sew to neck edge, notches, small "o" perforations and center-backs even.

For the pockets, turn hems at edges of pockets at notches. Large "O" perforations indicate front of pockets; adjust to position on front, upper edges along crosslines of single small "o" perforations, stitching the small pocket on left front only. Adjust the belt to position, center-backs even, and bring small "o" perforation at upper edge of belt to corresponding perforation in back. Close belt in front. Made of unbleached muslin and stitched with wedgewood blue finishing thread the apron makes an effective design for house use.
