MacRoe, fifty loads gravel on division eight and four and sixteen loads on York road; \$1. Hy. MacRoe, 50 loads gravel on 4a charged to division 4a.

OXO CUBES at the War The value of OXO CUBES to all branches of His Majesty's Forces has received remarkable endorsement in numerous letters received by OXO Ltd., and the Press, from those on active service and in training. OXO CUBES exactly meet their needs. They take up little space; are easily carried and can be converted quickly into a hot nourishing drink which, with bread or biscuits, will sustain for hours. In the home, OXO CUBES are handy and good for many purposes—ready in a moment as a warming, strengthening and sustaining beverage. For Soups, Stews and Gravies they are an economical substitute for fresh beef. OXO CUBES save time, trouble and expense.

OXO in the Trenches. "In the trenches we specialise on hot drinks, ranging from tea to OXO, and I think to really appreciate a hot drink you should have a spell here." "Daily Telegraph" (St. John N.B.), March 26th, 1915. From No. 3 Field Ambulance, 1st Contingent, Canadian Expeditionary Force. "During recent night manoeuvres on Salisbury Plain we found OXO invaluable as a very sustaining hot drink, and is considered by all to be the real goods." "Daily News," London, England, September 9th, 1915. A CUBE TO A CUP. Tins of 4, 10, 50 and 100 Cubes.
