EVENING DRESS IN SURPLICE EFFECT.

6293

slik, with a surplice underblouse of

The woman who wants a lovely frock for formal summer wear usually seeks a material that will be fashionable through a coming season. This model in Compadour silk, with surplice waist draped to form its own girdle, is most desirable. Three sections compose the 314 PRINCESS STREET. skirt. The waist crosses over a surplice underbody cut in one with the sleeves. If chiffon is used for the underblouse 1 yard 44 inches wide will be required. Seven and one-half yards \$6-inch silk makes the dress.

The usual method of cutting is departed from in today's dressmaking lesson. By referring to the guide it will be noticed that the material is laid first in an open width, then it is folded, and then there is a 1/4 fold, which is used in case the shield and collar are added and made of net or some contrasting material. The underbody front, back and sleeves are cut from the open width of the goods, as are also the back and outer front.

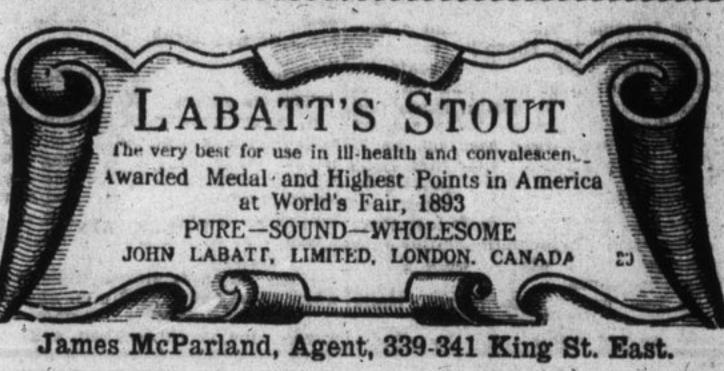

Now, folding the material, place into position first the peplum, then the lining front and, lastly, the back. None of these sections, however, is laid on a lengthwise fold of the materials, as the proper line is gained only by placing the parts of the pattern on a lengthwise, thread of the goods. When it comes to the 14 Inch folds, however, it will be noticed that the shield is laid along the lengthwise fold—that is, the front section-with collar and back section on a lengthwise thread.

The waist is a model of unusual priste and may be used independently. Developed in chiffon, crepe de Chine, silk or any of the semi-transparent materials, it makes a dressy accompaniment to a skirt of silk, voile or chiffon broadcloth. The idea of chiffon flounces, stik bordered, on a silk skirt is popular, as is that of silk flounces on a chiffon skirt, and such combinations tend toward fullness without too great bulk. Flounced skirts of chiffon A gown for summer formalities with just the borders of the flounces in fashionably carried out in Pompadour taffeta are liked also.
