

TO BE FOUGHT IN GERMANY

The War Will Be Decided There, Kitchener Says.

8 GERMAN SUBMARINES ARE REPORTED TO HAVE BEEN CAPTURED.

By the British North of Scotland—The Submarines Tried To Get At The Fleet And Were Caught. (Special to the Whig.)

London, Jan. 11.—A mailed story from Athens says: One story which Lord Kitchener told in Athens made a particularly deep impression. No public account of the incident had ever been given.

"When the manoeuvres of the great fleet were held about a month ago north of Scotland," said Lord Kitchener, "eight German submarines of the newest and strongest type went out with the purpose of getting to the fleet and playing havoc with the manoeuvres. One came to grief in our North Sea net. The others nosed through and approached the fleet, but could not reach it. They could no longer find the way back. The gate in had been closed. Two were lost desperately trying to get through. The remaining three finally were forced to come to the surface and surrender themselves. We took them intact, crews, sumamines and all."

"Suppose the Germans do conquer Egypt," Kitchener is credited with saying, "suppose they extend their line throughout Turkey and hold the Euphrates valley; suppose they take India, what then? We shall get it all back when we defeat the Germans in France. The war is not going to be fought out in Egypt or India or the Balkans. It is going to be fought out in Germany."

SEEKING FOR IT.
Gang of Men Digging to Find Stolen Gold.
Vancouver, B. C., Jan. 11.—The Bank of Montreal has a gang of workmen digging in an effort to unearth forty-five thousand dollars, part of the loot taken from the bank's premises in New Westminster in the Fall of 1911. The bank received information that twenty thousand dollars in gold and twenty-five thousand in bills was cached at a spot near ten miles from the city, part of \$77,000 stolen, and while no success had attended the operations up to last night, bank officials are confident the money will be found.

IRISH WITHDRAW THEIR OPPOSITION To Conscription Bill—Independent Laborite Moves Bill's Rejection.

(Special to the Whig.)
London, Jan. 11.—Rejection of the Government's conscription bill was moved in the House of Commons this afternoon by J. Anderson, Independent Laborite.

Amid wild cheers, Will Thorne, labor leader, declared that Anderson did not represent the views of the labor party in the House.

John Redmond, Irish leader, announced in the Commons this afternoon that Irish opposition to the Government's conscription bill was withdrawn.

Will Thorne travelled through Canada recently, and was immensely popular with Canadian trades unionists.

SUNK BY SUBMARINE.
Thirteen Drowned and Twenty-four Rescued.

(Special to the Whig.)
London, Jan. 11.—The British steamer Clan McFarlane was sunk by a submarine, it was announced this afternoon.

The Clan McFarlane was owned by the Clan Line of Glasgow. She displaced 4,323 tons, and was built in 1898. Thirteen persons perished when the steamer was torpedoed. Twenty-four others were rescued.

Allies Will See Greeks Fed.
London, Jan. 11.—The Athens correspondent of the Daily Mail telegraphs that Sir Francis Elliott, British Minister to Greece, had an audience to-day with King Constantine, in which he told His Majesty that the necessities of war made it impossible that grain should accumulate in Greece, but assured him that Greece would never be allowed to go hungry.

ITALY MAY ASSUME CONTROL.

Significant Articles Have Made Their Appearance.

Rome, Jan. 11.—The Italian Press is significantly urging that the Government assume the control and defence of Montenegro. Montenegro, they urge, is dynastically united with Italy through the Italian Queen, who is the daughter of King Nicholas. In the second place they point out that as Montenegro is now situated she is threatened by the Austrians with the loss of Mount Lovcen, which in Austrian hands would make Cattaro impregnable and defeat of the Austrian Navy in the Adriatic impossible.

Austria is determined on the conquest of this strategic fortress, they say, and Montenegro is fighting them unaided—a task to which she is hardly equal. Reports have reached here to-day of a violent bombardment of Mount Lovcen by the Austrian fleet in progress off Cattaro, an incident with energetic attacks by the Austrian armies along the Montenegrin front.

There are now in Italy 58,000 Austrian prisoners, besides 62,000 who have been transferred from Serbia.

HE HAS RESIGNED.

He Was Rector of a Fine Church in Syracuse, N.Y.

(Special to the Whig.)
Syracuse, N.Y., Jan. 11.—Rev. Dr. James Empringham, rector of St. Paul's Episcopal Church, supposed to be the wealthiest congregation in Central New York, has tendered his resignation to the vestry. Dr. Empringham was the only Episcopal minister to take part in the "Billy" Sunday campaign. Some say perhaps he wishes to go to the States. His wife is the daughter of Dr. J. B. Rutan, Picton, Ont. Dr. Empringham was born in Cambridge, England.

INCREASES GIFT TO \$150,000.

Hamilton Cassels, K.C., Toronto, chairman of Queen's University Board of Trustees, and G. Y. Chown, University Registrar, recently went down to New York and presented to Dr. John Douglas, the Chancellor, plans of the proposed library which the doctor is presenting to Queen's. Chancellor Douglas' first gift was \$100,000. Now it has increased to \$150,000. The Toronto architects are still working on the details of the plans. Tenders will soon be called for.

INDIA GIVES FUNDS FOR MESOPOTAMIA HOSPITAL.

Strenuous Efforts Also Put Forth to Assist Campaign for Munitions.

(Special to the Whig.)
London, Jan. 11.—A special despatch from Delhi says: "The princes and people throughout India continue to shower their gifts to carry on the war to a successful issue. The Punjab aeroplane fund now exceeds \$35,000. Ambulance carts, ponies and motor cars have been given while recently there came a request for a general hospital of 3,000 beds for Mesopotamia, and the greater portion of the material for it has already been collected. A special gift of two lakhs of rupees (about \$80,000), for the Nepal Durbar and one lakh (\$40,000) from the Prime Minister of Nepal, have been made. The expenses of the war, strenuous efforts to assist in the manufacture of munitions continue to be put forth; and, indeed, India's endeavour to assist the Allies to victory grows daily."

Britain Will Consign Wealth.

London, Jan. 11.—A Treasury Commission is preparing a scheme for organizing the surplus wages and surplus profits of manufacturers and dealers in war materials. When matured, it says, the campaign will begin along the lines of the Derby recruiting campaign, of which the officials of the Derby campaign would be asked to take charge.

If the scheme fails, compulsion will follow.

60,000 GERMANS MADE THE ATTACK

Against the French in Champagne Region on Sunday.

Paris, Jan. 11.—At least 60,000 Germans participated in Sunday's offensive movement against the French lines in the Champagne region, it was established to-day. The War Office said: "Our artillery fire, together with the brilliant defence of our soldiers and their subsequent counter-attacks, have completely nullified the effects of the German attack."

RUSS DRIVE TO AID ALLIES

Was Planned With Secrecy But Leaked Out.

TAKING HUN POSITIONS

GERMANS HAVE WITHDRAWN BEFORE THE FOE.

The Bulgarians Urged to March Upon Salonika—The Remarkable Recuperative Power of the Russians—They Are Now Well Supplied With Ammunition.

London, Jan. 11.—The Times' Petrograd correspondent, who is visiting the Russian front, says he learns that the Russian plan in Galicia and Bessarabia was planned with great secrecy as a strategic means for helping the Entente Allies in the Balkans, but that, as in previous movements of the same kind, the Germans got wind of it, and began immediately to withdraw their troops from the Danube.

21ST BATTALION FELT GERMAN GAS.

Huns Let Some Loose on Lieut.—Colonel Hughes' Men.

A letter from a private of the 21st Battalion to his parents in the city reads in part as follows: "The weather here is very wet just now. We are in the reserve trenches and will be for sixteen days. Yesterday I received a parcel from the Red Cross Society of Wolfe Island, and I am acknowledging it in this mail.

"Things are beginning to get a little more lively over here. On Sunday last (December 19th) we had a little gas, quite enough for me and I do not want more of it. Lieut. Maegie is in charge of our platoon, taking the place of Lieut. Wilgros."

Another letter says that the 21st gave the Germans all that was coming to them on Dec. 19th. When the Huns left their trenches the artillery mowed them down.

(Special to the Whig.)

He declared that the nation was facing a great crisis and had fallen far short of its duties for the past eighteen months since the great European war began.

BRITISH MARCH TO RELIEF Of Beleaguered Garrison of Kut-El-Almara.

SEVENTEEN MILES OFF DECISIVE BATTLE MAY NOW BE OVER.

Garrison Well Provisioned and Can Stand Long Siege—Turks Draw Down River From Baghdad.

(Special to the Whig.)
London, Jan. 11.—British forces marching to the relief of Kut-El-Almara are within seventeen miles of the beleaguered garrison, according to the best information available here to-day. They must fight their way seaward through a Turkish army believed to outnumber them two to one.

No news of the fate of the Kut-El-Almara garrison has reached London since the arrival of official despatches covering Saturday-night's fighting and it is believed possible the decisive battle has already been fought.

Not since the Boers surrounded a British force at Ladysmith and Markinghas a British army faced a similar peril. For that reason, news of the progress of the relief expedition is being awaited with the greatest anxiety. The latest despatches indicated that the relief forces, under Gen. Aylmer and Gen. Campbell were at Gripi, with the Turks in the bend of the Tigris, east of Kut-El-Almara. Weather conditions, it is stated, are impeding the British advance.

Kut-El-Almara undoubtedly is provisioned sufficiently well enough to stand a long siege having been used as a base for the campaign against Baghdad. The town itself is well fortified. Defences were first built by the Turks, who intended that Kut-El-Almara's fortification should check the advance the British and Egyptian forces into Mesopotamia. The British improved these works when they took the town. It is believed they are impregnable to assault by light artillery. The Turks have drawn down the river from Baghdad.

Samuel Succeeds Simon.

(Special to the Whig.)
London, Jan. 11.—It is announced that Herbert Samuel, Postmaster-General, has been appointed Home Secretary, succeeding Sir John A. Simon.

TALKING ABOUT THEM

We wonder if those young men who are medically fit, and who could enlist if they would, know what people are saying about them. Men, duty first, pleasure afterwards. Don't get the idea that the farm will not be worked without you. Let those who are unable to pass the medical examination do your work. The man who says he would rather be a living coward than a dead hero leaves no doubt in the public's mind to which class he belongs. Daddy, what did you do in the great war?

POPE'S WORD TO BELGIUM.

Complete Reparation From Germany Before He Intervenes.

Paris, Jan. 11.—The Paris Post Journal prints the following special despatch from Havre: "Father Hennesse, almoner-in-chief of the Belgian army, just returned from Rome, where he talked with the Pope, addressing the Belgian troops, said: "The Pope asked me to say that he believes Belgium has a right to complete reparation from Germany. He will never consent to intervene for peace unless Belgium, at least, is reinstated in the plenitude of her former rights. These must include every title of her European and African territories restored, and indemnity given for the complete reconstruction of her ruling lands, monuments, arts and industries."

R., on the sixth floor. The damage, it is estimated, will reach \$50,000.

GEN. SIR PERCY LAKE

In Command in Mesopotamia, Is A Canadian.

Ottawa, Jan. 11.—The announcement of the appointment of Sir-Percy Lake is of great interest to Canadians, and to Ottawa people in particular, for he lived here for some years. He was Quartermaster-General of the Canadian Militia from 1893 to 1898; Chief of the General Staff, Canadian Militia, from 1905 to 1908, and Inspector-General of the Canadian Militia from 1908 to 1910. GALLIOLI MOVE PLEASES PAPERS.

General Munro Praised by London Times—No Precedent For It.

London, Jan. 11.—The London morning papers comment with satisfaction and relief on the successful evacuation of Gallipoli. They consider, despite General Munro's generous tribute to Generals Birdwood and Davies, that credit for the remarkable double retirement should be attributed to General Munro himself. The Times says editorially: "Twice within a few weeks General Munro has managed to remove his men and guns under the eyes of the Turks and German officers. We doubt if a precedent for such an achievement can be found in the annals of war. The extraordinary freedom from casualties by the fact that, unlike Anzac and Suvla, it gave us one beach sheltered from the enemy's fire. But neither operation would have been possible with any but the boldest and steadiest troops. The Government may be congratulated on their prompt decision for the complete evacuation of the peninsula."

POPE HAS BEGUN PEACE EFFORTS.

Belgium Must First Be Restored—Cardinal Mercier at Vatican.

(Special to the Whig.)
Rome, Jan. 11.—Pope Benedict hopes to take his first practical step toward peace this week. Cardinal Mercier, with Mgr. Heylen, Bishop of Namur, is expected to arrive here from Belgium to-day or to-morrow. They will be received in audience by His Holiness and are expected to tell him upon what terms the people of Belgium will agree to an early peace. Pope Benedict is convinced that the restoration of Belgium by Germany is imperative as a preliminary to peace proposals, and has made this fact known both to Germany and the Allies.

ASK SEYMOUR FOR POWER

The Utilities Commission To Make Application.

NEW MEMBERS LEARN THAT THE HYDRO DOES NOT DOMINATE

The Kingston Commission—the Local Plant Able to Supply 200 Horse Power to the Locomotive Works.

The Utilities Commission, whose existence as a governing body in Kingston, was almost ended by the vote of the people, a week ago, held its inaugural session of the year on Monday afternoon and for the third time elected T. J. Rigney Chairman. The resolution to this end was moved by G. Y. Chown and seconded by R. F. Elliott, and was adopted, Mayor Richardson, the other member present, supporting it.

A discussion was raised by Commissioner Elliott to whether the Utilities Commission was dominated by or under the control of the Hydro-Electric Commission of the province. He said that this appeared to be the correct impression, and he would like to be informed if it was the case. Mayor Richardson remarked that the City Council had been under the impression that the Hydro-Electric Commission was in control, and he also would like to have the matter cleared up.

Chairman Rigney and Commissioner Chown assured the two new commissioners that the idea of the Hydro-Electric Commission controlling the Kingston Commission was wrong. It was governed by statute, like all other utilities commissions, but the fetters were very light. The Chairman admitted that the local Commission had adopted some Hydro-Electric ideas, and that it had gone to the Provincial Commission to advise which could not be secured here.
