Eggs For Export.

Canada's egg trade is in a peculiar position this season, due chiefly to overseas demand. Exports of eggs from the port of Montreal were almost trebled during the shipping season of 1915, the total being 279,000 cases, against 112,000 cases in 1914. There were no shipments in recent previous years. The demand came chiefly from Britain.

GRAIN QUOTATIONS.

Toronto, Jan. 18.—Manitoba wheat—No. 1 northern, new crop, \$1.22 1/4; No. 2, \$1.17 1/4; Manitoba oats—No. 2 C-W, 46c; in store at Port William, No. 2, 46c; extra No. 1 feed, 44c; No. 1 feed, 42c. Montreal.

Montreal, Jan. 18.—There was some demand for Manitoba spring wheat and barley from foreign buyers to-day, and as the prices bid were in line's sales of a few odd loads were made. The demand on spot continues good. Flour is unchanged with a steady trade passing for local account. Mill feed is firm under a fair demand. Corn, American, No. 2 yellow, 84c to 85c. Canadian Western, No. 2,

Don't Suffer Longer and allow yourself to become grouchy, upset, nervous and depressed. These conditions usually indicate a disordered digestive system, which, if neglected, may be hard to remedy. ain, the ordinary sources of supply for that country being cut off. As is the custom during the flush season, especially April, Canadian packers, including most of the large local firms, put away considerable quantities of eggs, more than in recent previous years. It would have paid them to store much greater quantities. Each winter in recent years Canada has imported in the neighborhood of 20,000,000 dozen eggs from the United States to take care of the domestic trade. This year, with a big British market open, Canadians have not only pretty well cleaned up their own supplies of stored eggs, but have been importing large quantities from the United States, and after rebranding have shipped them on to Britain. It is inevitable, therefore, that large quantities of eggs than usual will be imported from now forward to supply not only Britain, but the home consumer.

Yesterday's Chicago egg and butter markets are quoted in another column. During 1915 over 9,000,000 dozen eggs came to Toronto. Towards the close of the year daily receipts swelled, this being due to imports from Canada. During December \$70,000 dozen arrived and \$79,000 dozen in November. These figures well indicate the extensive business being done in eggs in Toronto at the present time.

Tommy Thompson, trainer of the late Jimmy Duffy, who died of wounds received while at the front, has sent the deceased runner's trophies home to his mother in Scotland. She wrote asking for something in the way of a remembrance of her late achievements in the running world. Two of the three trophies are Herald cups, one of them being won in 1912, when he established the record of 1:46.15 that still stands. Benny Kauff, star outfielder of the Federal League for the last two seasons, was sold to the New York Giants by Harry F. Sinclair. Kauff cost the Giants \$20,000. It is understood. He will occupy a regular place in McGraw's outfield next season. Nels Nelson, Revelstoke, B.C., who last week broke the Canadian record for long distance ski jumping by two feet, jumped one hundred and fifty-one feet six inches, the official Canadian record thereby being exceeded by twenty-seven feet six inches. Trustees of Princeton University

The Man and His Clothes. What is the score? How is the stock market? What is the weather outlook? When a man wants to know anything of these things he turns to his newspaper. It is his reference book. What is more, natural than he should refer to it when he wants to buy clothes? Several manufacturers of branded clothing have been shrewd enough to see this and have advertised their trade mark in the newspapers. This advertising has cashed in directly over the counter of the dealer, as the latter has been only too glad to co-operate in pushing sales—for he believes in newspapers.
