## Sleepytime Tales

### THE GOODGIVERS' CLUB.

Once upon a time two little girls who belonged to the Goodgivers' Club were walking home from school together, and as they turned a corner they saw a little girl leaning up against a building and crying very hard. They stopped and asked her what was the matter, and she told them her mother had sent her out with five cents to buy a loaf of bread, and she had lost the money.

It was very cold, and the child had on only a thin dress and an old worn-out shawl over her shoulders and head, and she was shivering with the cold.

Both the Goodgivers had their pocketbooks out at once and gave the little girl, who said her name was Emily, ten cents to get some more bread, and they went with her and saw that she got two loaves and some milk too.

The girls offered to help carry the food home, and Emily was almost happy to have them with her, and smiled through her tears and shivers.

When they reached Emily's home they found it was in an old tumble-down house. They found Emily's two little sisters huddled on a bed of straw trying to keep warm, while the mother, thin and ill, was sitting in front of an old stove trying to get some heat and warmth by burning some old papers.

The girls saw how poor they were, and watched to see the children so eagerly eat the bread and milk. They felt very badly for the family, and decided to tell the Goodgivers' Club all about it. In a few days the club had found some light work for the mother, and each of the children had been given a warm dress and coat and a whole load of wood and coal had been sent to the home.

Emily's mother told them if she could have steady work she could take care of her little ones, and the girls promised she should have all the work she could do. Now little Emily goes to school and her sisters are warm, well fed and happy, all because of the good work of the Goodgivers' Club.
