FRONTENACS WIN OUT

IN AN OVERTIME PERIOD BY 4 GOALS TO 3.

Defeated Queen's on Friday Night—Queen's Captain Was Ruled Off When Frontenacs Scored Winning Goal.

After one of the hardest fought battles in some time the Frontenac senior hockey team proved that it was the superior goal getting team when it won from Queen's at the covered rink on Friday evening in the O. H. A. series by a score of 4 to 3.

Although Frontenacs won the game the Queen's players gave a great struggle. At the end of the second period the winners were leading by 3 to 1 but in the next period the University boys tied the score.

At many points of the game the losing team was playing better hockey than Frontenacs, but unfortunately many of its shots went wild after the players had got range of the Frontenac nets.

At 8:35 Referee McCreath called the players to the centre of the ice for the throw up which resulted in the Frontenacs depending the nets at the south end of the rink. As both teams started out with some very fast hockey which resulted in the first goal being scored by Reid of Frontenacs after three and one-half minutes play, from a scramble in front of them.

Purvis, Derry, Rappell, Gooch and Reid served periods with the timekeepers for playing something else than hockey.

The second period opened with Queen's working hard to get a score. Frontenacs seemed to have some what the better of the game although they were unable to register for eighteen minutes when Derry scored on a pass from Reid. Brouse scored again in about thirty seconds, ending the scoring for this period. Reid, Blaklee, Goddard and Rappell adorned the bench for short periods for tripping and lagging. Reid got through for a beautiful play which looked like a sure goal, but he shot wild.

Queen's came back strong in the third period with the sole aim of tying up the score which they did after ten minutes play. Box scored the first goal while Goddard got the second.

As the score was a tie at the end of the sixty minutes, two additional periods of five minutes each were played.

When Frontenacs scored the winning goal, Queen's had only six players on the ice to the Frontenacs' seven. The referee had ruled off Rappell, Queen's captain, saying he was offside and looting. Queen's protested strongly against such a procedure at such a critical period in the game, especially as Rappell was down towards his own goal.

It would be almost impossible to say which was the better team as each displayed good work. For the Frontenacs Gooch played exceptionally good hockey. Time and time again he worked up the ice but he did not have any support when it was needed. Although Reid served three or four minutes with the timekeepers, he played one of his best games. He was all over the ice and he is credited with two goals out of the four. "Punch" Derry and Brouse showed up well. Heintzman, of the 40th Battery, who held down the centre position, was right on the job. Cook in goal stopped some hot ones.

"Jack" Goddard was probably the most effective man on Queen's. Box is certainly a wonder on skates, but his shooting is not as effective as it should be. Wallace showed that he knew the game while Purvis, Blaklee and Rappell were right with the game all the while.

When the teams meet for the second time there promises to be one of the hardest fought games which has been seen.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in moments.

If you care for heavy hair, that glazes with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flinch and die; then the hair falls out fast.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually why not now?

PLAN OF OTTAWA PARLIAMENT BUILDINGS. This sketch shows only the central part of the buildings. The fire starting in the Commons reading room (X) took a curious L-shaped course sweeping through the building to the front by way of the chambers and members' corridors. It then turned eastward along the front to the Senate Chamber, though missing the Press Room and the Premier's office. Several correspondents in the Press Room climbed to safety down ladders when this section of the building was cut off.
