### CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick give "California Syrup of Figs."

Children love this "Fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become thickly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't sleep or act naturally, breath is bad, system full of cold, has sore throat, stomachaches, or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50 cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind and with contempt.

### LOST HAND LOSES ACTION

Commercial Traveller Took Unnecessary Risks in Jumping.

Ottawa, Feb. 21.—Samuel J. Martin, Kempville, boarded a train to reach his home at Smith's Falls just a year ago. He knew it was a through train that was not booked to stop till it arrived at Montreal, but he took a chance of its stopping at the Kempsville station. When on board the conductor told him it wasn't going to stop, and he jumped while the train was going between ten and twelve miles an hour.

He was a man of forty years, weighing 200 pounds, and was clad in a winter overcoat and was carrying a travelling bag. He was a commercial traveller. His thermometer was thirty-two degrees below zero, ice and snow was on the ground. He slipped, and his arm went under the wheels, his hand being taken off about the wrist.

The Appellate Division allowed the appeal of the Protective Association in which Martin was insured, from the decision of the County Court of Callerton, allowing him \$650 for the loss of his hand. The court takes the view that Martin was taking unnecessary risks, and that Justice H. M. Meredith, while according the unfortunate man sympathy, says:

"Where passengers will not walk for, or for other reasons will not take the regular and proper trains stopping for passengers, to alight and board at their destination, they ought to remember that they are acting in breach of their contracts, and of the rights and interests of the railway company, and are taking risks."
