Many Military Matters

(Continued from page 8.)
Major R. J. Gardiner, A.D.M.S., has returned from Ottawa where he was engaged in business in connection with leasing the Cunningham home on King street as a military hospital. In an interview, Major Gardiner stated that owing to the increased amount of surgical work for the soldiers the home was urgently needed. In speaking of supplies and equipment he intimated that if some good Samaritan would donate the money the hospital could be furnished with the most up-to-date equipment. At present the Department is being put to great expense in hospital work and it might take some time before the best apparatus could be secured. In the meantime the soldiers would have to be taken care of as at present by the equipment at the Queen street Military Hospital which is only equal to the average doctor's office. There are other reasons why it would be very much better that the money for the operating room equipment should come from other sources. This statement is made after giving careful consideration to the great need for money for other patriotic purposes at the present time.

It should be remembered that this home is being used not as a convalescent home for returned soldiers as is the Richardson and Elmhurst homes, but as a military hospital. It will take the place of the Queen street hospital which will be used for other medical purposes. The Queen street hospital which has been in use for some years is sufficient for twenty patients which is not nearly enough for Kingston at the present time or for Kingston's needs for years to come. Any sick soldier in the garrison or camp who is sick up to the limit of the capacity sixty to eighty beds will go to this home. Preference of course will go to those who need electrical or surgical treatment.

For the sake of the soldiers of the Kingston garrison any person interested is advised by the Whig to interview Major Gardiner on the matter.

No. 5 F.C.C.E. have just submitted a finished plan of Barfield camp. It will be used in future camps on the heights to determine the best location for locations.

The following is contributed to the Whig's military column by one of the boys of Lennox, Addington and Frontenac:
Pard'n, if for love of fun
We should perpetrate a pun,
Saying to the camp officials,
Who are neither blind nor deaf,
We have got the laugh on you;
For undoubtedly 'tis true,
That our Counties' three initials
Are the letters L. A. F.

So we merry lads and "gaffers,"
You may call "the jolly laughers,"
And we'd make goodnatured fighters,
Always ready for a tussle;
Wearing each a grin or smile
Plainly seen for half a mile,
And though not all clever writers,
Some of us have made our mark ("x")
"Front'nae's Own" we think not best
As a name; it slights the rest,
But if named, or only numbered,
We will heed the bugle's blast.

In the World of Sport

George Goulding, the Toronto walker, is going to New York March 18th, in an attempt to smash all records.

The final game of the American Amateur Hockey League will take place at New York on Saturday, when St. Nicholas meet Boston A. A. St. Nicholas won the title last season, but only after a hard fight with B. A. A.

And fall into the ranks,
Cutting out unseemly pranks,
We, Gray, too long have slumbered,
But we're waking up at last.

Some of us are home-tied lovers,
Some are held perhaps, by mothers,
Some their duty leave to others,
Some have other nuts to crack.
But we'll give a long, strong pull
Till our home battalions' full—
Mates and chums, a thousand brothers
Serving 'neath the Union Jack.

Late reports show that most of the battalions recruiting in this part of the division have reached the 600 mark and some are considerably more than that. The 146th of Kingston the 154th of Cornwall, the 156th of Brockville and the 139th of Co-voeur, which have been conducting a vigorous campaign in this city, are all around 700 strong, the 139th having 748. The object is to bring all these battalions up to strength of slightly over 1,100 by the time they can go under canvas.

Lieut. O'Leary came to Kingston yesterday with the following recruits:
For the 51st Battery—C. D. Matheson, F. S. Dickson, W. C. Herbst, S. A. Hutton, J. Albert, W. Rockburn, S. Wert, L. O. Britton, P. H. Britton, C. Cochrane, M. Wallace, J. O'Connell.
50th (Queen's) Battery—Gunners Brown, Stroud, Parlow, Mark.
Lieut.-Col. G. Roy, O.C., R.C.A., was in Ottawa on Tuesday.

Capt. W. E. Steacy, R.C.H.A., Capt. W. F. Ingon and Lieut. M. H. S. Penhale are respectively president and members of a board of enquiry for the purpose of enquiring into and reporting upon the accident to Pro. Lieut. T. St. C. Ryley, C.F.A.

Lieut. H. H. Wallace, 9th Battery, C.F.A., has been attached to "C" Battery.

B. S. M. Inst. Pennie, R.C.H.A., is on duty in Toronto.

Q. M. S. A. Smith, R.C.H.A., has re-engaged for a further period of three years.

Major J. Hamilton, A.D., of S. and T., is advertising for supplies for Kingston for the next year.

Four recruits were secured at the recruiting meeting of the 146th Battalion held on Tuesday night, at Verona.

The Kingston men of the 146th Battalion certainly appreciate the privilege of living at home and drawing subsistence allowance.

There are men in every overseas battalion who unfortunately through circumstances over which they had no control, have had an education that puts them on an equal footing with the average man. This is vividly brought out where men are together as in the overseas units and several times the Whig has been asked to voice a request for some system of elementary education to these men.

It is understood that the matter

will be taken up in the 146th Battalion on the request of an officer and these men who have made the request will be given the rudiments of an education.

It is certainly a splendid move for at any time a man might be called on to read a written message that might have a vital interest to him.

The following have been taken on the strength of the 146th Battalion: J. H. George, L. Stewart, W. S. Campbell, H. Hannah, A. A. Dasey, H. A. Ashby, J. B. Merchant, W. J. Lower, J. Clark, C. Payne.

Lieut. W. S. Parks, 56th Regiment, Prescott was in the city on Wednesday.

Lieut.-Col. W. J. Brown, G. S. O., and Major H. R. Wilson, D.A.A., and C.M.G., were in Ottawa on Wednesday.

Capt. R. E. V. Jobb, 46th Regiment, has been appointed paymaster of the 136th Port Hope Battalion.

It is published for general information that recruiting by overseas units shall be confined to the military division or district in which the units are organized; and further that such recruiting be confined to the area allotted to each unit, excepting only pioneer, tunnelling and forestry units.

Commanding officers will, in accordance with the above instructions, withdraw all recruiting officers who are posted at points outside of regimental limits.

The following have been taken on the strength of "C" Battery, R.C.H.A.: H. M. Miller, P. J. Fitzgerald, A. E. Bryant, H. A. Hudson, H. R. McDonald, E. Harris, E. S. Sutherland, C. Noel, G. H. Chambers, J. W. E. Hynd, W. N. Parsons, E. J. Sharpe, P. H. C. Clinkinboomer, R. J. Cowles, H. J. Michael, F. A. McKenna, A. Hynd, R. A. Davies, D. Herron, W. G. Adams, A. H. Grant, W. J. Brown, R. S. Fowler, R. H. Sully, W. Shires, and W. Mackery.

There are now 160 attending the School of Signalling and every day lectures and class work of different kinds are being given to this number. It means tremendous amount of work on the instructors and the success that is coming to the school is a matter of much credit and is only coming after a great deal of hard work.

There are now seven officers attending the School of Signalling.

The 80th Battalion had that played here on Monday night played in Napanee on Tuesday night and in Picton on Wednesday night.

A trooper who recently joined a Canadian mounted regiment, a native of Ireland, was assigned to a particularly ugly horse. When the trooper mounted the animal commenced to kick and kept on kicking until it got one hind foot caught in the stirrup. Hastily dismounting the trooper exclaimed: "Begorra, if you're going to get on I'll dismount. There's not room enough for both of us in the one saddle."

The anti-racing element at New Orleans has not desisted in the fight, although the grand jury failed to indict, for evidence is at hand of the continuation of a vigorous warfare against the sport during the off months.

New York World: The playgrounds of this country are just as important, if not more so, in their way as the playing fields of Eton, where, according to the Duke of Wellington, the battles of England were won. In the great manufacturing centres they are the safety valves for a lot of stored-up energy which otherwise might be misapplied. Athletics under proper regulation and control are highly educational. Through them standards of sportsmanship and fair play can be better explained and emphasized than in any other way perhaps.

Many major league players have been signed by the International League clubs. How the clubs are going to induce these men to report and conform at the same time to the salary limits, which have been still further reduced this year, is a problem for the owners to solve. "Lena" Blackburne, bought from the White Sox by Toronto, is already talking of retiring from the game. Nothing has been heard from Tuesday of the Highlanders.

A new baseball magnate made his appearance in Chicago in the person of Barney Oldfield, the famous automobile racer, who announced that he had purchased an interest with Frank Chance in the Los Angeles club, and had come east looking for playing talent. Los Angeles was announced as securing three players from the Cubs, including Shortstop Bobby Fisher, formerly of Toronto, but it is now said Fisher may go to Indianapolis instead, as he does not wish to play on the coast.

President Tener has put a damper on the originality of ground-keepers in the National League. Before the present season begins, each baseball park must be surveyed by competent engineers, and the correctness of the measurements certified by the president of the league. Particular attention is to be paid to the pitcher's box, which shall, on no account, be more than fifteen inches higher than the home plate. The day of the mountain is over. Hereafter pitchers will ascend a moss
