ICE CROP HARVESTED

KINGSTON'S SUPPLY HAS BEEN PROPERLY HARVESTED.

Mild Weather Early in Season Caused Much Anxiety, But Ice Men Are Well Satisfied. Kingston's big ice crop has been harvested. The ice houses of the Kingston Ice Company have been filled to overflowing, and in addition to this several merchants who get in a supply of ice for cooling purposes have also filled up their ice houses.

"We have lots of ice, and it is of fine quality," remarked one ice man, when asked by the Whig. "There need be no worrying about the supply during the warm weather."

The weather was so unsettled the first part of the winter that it was feared that the ice crop would be rather small. However, there was a severe cold snap all February, and nearly all March, and for this season there were no further complaints regarding the Weather Man.

Some of the ice was harvested in exceedingly cold weather; in fact, the weather was so cold one day the men had to quit work. In view of the fact that the hotels are to be cut off from selling liquor this fall, they will not need as large a supply as usual. However, all the ice which could be cut in the time offered was hauled to the shore and properly stored. The mild weather of this week has been hard on the ice bridge, and a break-up is now looked for at an early date.

A Good Time. Sergt. and Mrs. D. O. Edgar entertained a number of their friends at their home, 17 Ellis street, on Wednesday evening. Music and games were indulged in. George Brennan rendered a couple of greatly appreciated solos. Those present were Misses Manion, L. Lyons, K. Devry, F. Richardson, J. McDonnell, G. Cook, and Messrs. V. Farley, E. Vanorder, R. Grimshaw, G. Brennan. Dainty refreshments were served, the table being prettily decorated with pink and white carnations. Toasts were proposed to the bride and groom, which were well responded to. The party broke up at a late hour, all voting a pleasant evening spent.

Went Through Ice. It was reported to the Whig Wednesday afternoon, that two teams had gone through the ice crossing to Barriefield, from the ship near Tote de Pont Barracks. One team came to grief just before noon and the other early in the afternoon. Both were rescued, but it is stated one of the animals is suffering from pneumonia, as a result of the cold ducking it got. One of the teams belonged to Mr. Gillespie, of Pittsburgh township. "There should be some sign there night and day to warn the people of the danger," said a citizen to the Whig.

Fresh haddock, 8c lb., at Gilbert's.

BASEBALL MEETING IN FAR-OFF FIELDS

TO BE HELD THE SECOND WEEK OF APRIL

Stanley Trotter Hopes to Re-Organize the City Baseball League - There May Be a Team From Queen's. Stanley Trotter, president of the City Baseball League, is planning to call a meeting of the league about the second week in April. At this meeting the election of officers for the year will take place. When speaking to the Whig, the president stated that he was looking forward to one of the busiest years in the history of the league. Victorias, the old reliables, will have a team and it is expected that Athletics and Ponies will also enter. There appears, however, to be some doubt about Athletics having a team on account of so many of their players enlisting for overseas service or being out of the city. Victorias and Ponies have also contributed men to the cause.

On account of there being a summer session at Queen's, the chances are that the students will not be a team in the City League. If they apply for admission the league will grant their request.

Sporting Notes. It is an open question whether the Toronto professionals will play across this summer, according to Charles Querries. There was no money in the game a year ago, he continues, and the players who were in the habit of drawing down from \$25 to \$100 a week just went out and took little or nothing, but made quite a lot of fun. It was rumored that there would be only one team in Toronto and they would play in the N. L. U. with Cornwall, Shamrocks, Nationals and the M. A. A. A. No salaries would be paid, and all the boys would get would be the exercise and a few trips to the city.

The American National Hockey Association is as yet in the air, but is apparently going to be professional organization under an amateur guise. President Fitzgerald of Chicago (where there is no team of hockey) says: "The principal object of the movement is to organize all the hockey interests in the United States, so that we will have some power when we act, and that one club will stand back of the others. An American hockey team, the St. Paul team, won the Art Ross Cup fairly and squarely. The Canadian hockey authorities have refused to turn it over. If we were all allied together it would not take long to bring them to their senses."

Though Ottawa will not have any league baseball this summer, it is likely that a series of semi-professional games will be arranged for Lansdowne Park and Dupuis Park. Manager Shaughnessy has several offers under consideration, the Warren, Pa., club being after him day and night, but the Ottawa pilot has built up an insurance business in the Capital and will decide to remain. He stated yesterday that he had under consideration the plan to have a number of exhibition matches here. He and Cozy Dolan of last year's Ottawas, will be available and in addition there are a number of crack ball players in the Capital and Hull.

Commenting on the Willard-Moran fight the New York Times says: "Boxing has never before held the high place in public estimation that it does at the present time. The Willard-Moran bout attracted a crowd of the nature of which, especially in character, has never before witnessed a glove contest. When conducted by a capable governing body and held within reasonable bounds, boxing is a sport which appeals to almost all men. It never has been, and perhaps never will be, a game for which women can have much fondness. It is a man's game, for men to look at and acclaim. Conducted as Saturday night's bout was at Madison Square Garden, boxing becomes a sport which commands the support of those who are interested to keep all kinds of sport clean and square."

In after years a man rejoices because of the failure of youthful ambitions. As long as a man does his level best he isn't going down hill. Had Terrible Pains in Kidneys and Back. Dear Mr. Editor - I was very sick, could hardly get up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anuric Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I can't say enough for this medicine. Sincerely, Mrs. Wm. KELLER.

NOTE: This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, indigestion of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys. Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country, in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and vigorous.

THE WORK IN WHICH BISHOP LUCAS IS ENGAGED.

For Quarter Of Century He Has Labored Among The Indians and Esquimaux - Description Of The Diocese.

Right Rev. Dr. Lucas, Bishop of MacKenzie River Diocese, who preached in Kingston on Sunday, and who was the guest of Dean Starr left for Toronto on Monday afternoon, and later on will start on his long journey home. His Lordship, who made the journey from his field of labor to Kingston, came especially to bid good-bye to a couple of his men who are leaving for the front shortly with the 53rd Battery, to do their "bit" at the front. For a quarter of a century, Bishop Lucas has been engaged on the MacKenzie River Diocese, and he is now a veteran in missionary work among the Indians and Esquimaux. He loves his work, is a most entertaining speaker and has a most interesting story to tell.

Bishop Lucas was consecrated in Holy Trinity Church, Winnipeg, in 1913, by the Archbishop of Rupert's Land. He is located at St. Paul's Mission, Chipewyan, Alberta. The Bishop's wife is an active worker in the diocese, and during the absence of the Bishop conducts the services for the Indians.

How would you like to be 250 miles away from your nearest neighbor? Port Simpson is the nearest mission station to the Bishop, and the travelling he has to do, by canoe in summer time, and by dog sleds, can well be imagined. That the work is progressing nicely, is the encouraging statement Bishop Lucas has to make, in speaking of the diocese. A descriptive of the Diocese of MacKenzie River will be of interest. This diocese was separated from the Diocese of Rupert's Land in 1873, and from Athabasca in 1884, and divided in 1890, the portion west of Ruskina forming the Diocese of Selkirk (now Yukon) but it still remains one of the largest colonial dioceses. The Mackenzie Diocese covers 600,000 square miles, and a population of about 100,000 square miles for every inhabitant, remarked the Bishop.

The Indians in the Mackenzie River are few in number, and are scattered over a vast country. In the spring and fall they bring their furs to the forts of the Hudson Bay Company. Several different tribes of Indians are located in this Diocese, Chipewyan Dog Rib, Nehaney, Mountain, Hare, Tene, Tukudh, each tribe speaking a dialect differing more or less from its neighbor. The Diocesan school at Lang River, and at Kittingauag, under Rev. A. J. Vale, and has now about forty boarders besides day scholars. The expenses are heavy, and in order to meet the requirements of the Government, which gives a per capita grant, new buildings must be erected and the ordinary expenses of expenditure. The Mission is in need of financial assistance.

An interesting and an encouraging work is being carried on among the Esquimaux on the Arctic Coast, and a station has been established on Herschel Island, and at Kittingauag, on the eastern end of Richard's Island. Many are showing a desire for instruction and the prospects are of the brightest. It is of interest to note that forty years ago, there were only three missionaries and two Stations in this district, one at Port Simpson, the other at Fort Yukon, more than a thousand miles apart. MacKenzie River, with Athabasca and Selkirk, formed part of Rupert's Land, now all three have each a Bishop, clergy, churches and schools, and five of the Triukudh Indians have been ordained deacons.

At a short time ago, a new tribe of Eskimo were discovered east of the Mackenzie River, north of Great Bear Lake, in the Coppermine River district. It is difficult to form any estimate of their number, but it is said to be between 1,000 and 1,500. The following statistics are given of the diocese: Clergy, 9; lay agents, 5; native boarding schools, 1; day schools, 4; scholars, 90; communicants, 360; church population, 1,200.

QUEEN'S HOSPITAL GOES TO FRANCE. Lieut. J. C. Connell received a communication from the British War Office on Wednesday to the effect that No. 7 General Hospital is being removed from Cairo, Egypt, to France, and that the Queen's reinforcements which left here recently will join the hospital in France.

London Druggists Apposed. At a meeting of London, Ont., druggists, a resolution, following a short discussion, was sent to J. A. Roberts, of Parkhill, district representative of the Ontario College of Pharmacy; to Andrew Johnston, president of the Ontario College of Pharmacy, and to Sir Adam Beck, expressing the view that the sale of liquor should be handled exclusively by the Government, and not by the druggists. Mr. Johnston is working in conjunction with Hon. W. J. Hanna on the prohibition issue, while Sir Adam will be asked to put the matter before the House.

Are Very Grateful. J. Gilbert and Ex-Mayor Dan Cooper have received a courteous letter from Major Craig, 59th Battalion, Brockville, asking them to again thank the subscribers for the 3000 Gurney Field Kitchen on behalf of Lieut. Col. Dawson and members of the 59th. He writes: "The kitchen has been of valuable service to us after long marches and as we are eating the warm meals feelings of gratitude goes out to the good-hearted subscribers of the old Lamestone City and to J. Gilbert and Ex-Mayor Dan Cooper for their efforts."

A TIMELY TALK ON HATS FOR MEN

Campbell's, the big hat dealers, are receiving new stock from the leading hat factories of the world almost daily, and are showing very many nobby styles, particularly in soft hats, which promise to be even more popular than ever this season.

IRON IN THE ROCKS

INTERFERES WITH THE WORK OF A COMPASS. Vessels Often Meet With Trouble Coming Into the Kingston Harbor - Incorrect Findings Are Registered. It may not be generally known, but the fact that there is iron in the rocks along the shore of Macdonald Park, and other parts of the waterfront in and around Kingston, have given marine men some trouble.

The iron in the rocks has been the means of affecting the compass on board a vessel, and as a result, captains have been a mile and sometimes a mile and a half out in their findings. A report has been going the rounds to the effect that trouble of this kind had been experienced, and the Whig asked a prominent marine man about it. "Yes, that is the case," was his reply. "Iron in the rocks has been the cause of putting a compass wrong."

LOSS OF APPETITE

Most Successfully Treated by Taking Hood's Sarsaparilla. Loss of appetite is accompanied by loss of vitality, which is serious, is especially in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions. Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist to-day. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that—it is the best spring medicine. Hood's Sarsaparilla makes the rich red blood the digestive organs need.

James Reid, The Leading Undertaker. Phone 147 for personal services.

Letters To The Editor. Don't Burn Your Waste Paper. Kingston, March 29.—(To the Editor): The season for "spring cleaning" is approaching, when housekeepers begin to groan over the winter's accumulation of old newspapers, etc. Just now we are frequently reminded that it is a patriotic duty to make the most of all we have, and though in Canada we do not feel the scarcity of paper as they do in Britain, where many newspapers have had to reduce their size, and in some cases to suspend publication, yet we are often warned by the wastage of our pulpwood and the increasing price of paper, that it certainly should not be wasted. Even our old papers need not be altogether "waste paper" as they can be turned to good uses by the firms that buy them in large quantities. It is hoped that many will remember that the Y. W. C. Association is hoping to get some assistance in paying for necessary repairs by sending a carload of old papers, pamphlets, etc., to Toronto, to be turned to good account. This is better than burning them, and less dangerous! WASTE NOT, WANT NOT.

Hot Water for Sick Headaches. Tells why everyone should drink hot water with phosphate in it before breakfast. Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins. A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal. Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

None From St. Andrew's. Kingston, March 29.—(To the Editor): On reading over the list of delegates appointed by the Kingston Presbytery to the meeting of the General Assembly in Winnipeg next June, one is struck by the fact that not one member of old St. Andrew's church was chosen. The other three city churches are represented, along with Queen's College. Why was the mother Presbyterial church of Kingston thus ignored. It would appear that a strong band of church unionists was desired for the Assembly. Chalmers, Cooke's and Zion churches vote union, while St. Andrew's went strongly against it. The Presbytery's selection of delegates is unfair and a reflection on St. Andrew's. —PRESBYTERIAN.

Real Estate Transfer. E. W. Mullin and Son report the sale of detached brick dwelling, No. 183, on the east side of Alfred street, owned by J. F. Singleton, to Capt. W. A. G. Sprigg.

It wises would continue to be sweethearts most husbands would forget to pay their club dues.

CATARRH OF THE BLADDER. SANTAL MIDY. Relieved in 24 Hours. Each capsule contains 100 mg. Santal Midy is the best medicine for Catarrh of the Bladder.
