Easy & Practical Home Dress Making Lessons

For The Small Girl.

When one notices many quaint models in silk, crepe de chine and crepe meteor, all, however, of washable variety. A dainty model is shown here, made with the front and back yoke cut in one. The distinguishing feature of the dress is the smocking which trims it. In medium size it requires 2 3/4 yards of 36-inch material.

There are eight pieces to the pattern and it is necessary to fold the material in half so that each piece will be cut in duplicate. The front is placed on the lengthwise fold, as shown on the cutting guide (A), and to the right of it is laid the back (B). Next come the yoke and collar.

On the second row are placed the lap, the pocket and the sleeve, all on a lengthwise fold. For the open neck, cut out the neck edge of the yoke 3/4 inch above small "o" perforations. Many mothers prefer the high neck, however, with straight collar, in which case a double row of buttons may be added to the decorative scheme, being sewn directly down the front.

The smocking is a simple design and works up very quickly. Threads of contrasting color may be used for the work, for instance, white on a blue or pink ground, and vice versa.

There is a plait at either side of the back of the dress and between this are several rows of smocking. Shirring may take the place of smocking and is also very fashionable.

FOLD OF 36 INCH MATERIAL. Patented April 30, 1907. Pictorial Review Dress No. 6591. Sizes, 2, 4 and 6 years. Price, 15 cents. Smocking No. 11752. Price, 10 cents.

Sleepytime Tales

TIP GOES TO SCHOOL.

Once upon a time Baby and Tip were playing on the floor when Baby John's older brother came in and threw his coat on a chair near Tip. Tip hopped up and into one of the pockets and snuggled down to have a nap. He was sleeping so hard that he didn't hear Joe come in or feel him put on his coat.

In fact, the first thing Tip heard was a bell ringing and Joe running as fast as he could. Very soon it was all still and Tip poked his head out to see where he was and what was happening. His little bright eyes peeped out of Joe's pocket and he saw a lot of boys and girls sitting in seats with books in their hands.

When he grew a little more used to the light he saw some of the boys were friends of his and the girls were some that used to stop and talk to Baby John and Nurse. He didn't take Tip long to wiggle out of Joe's pocket and down to the floor and it didn't take the children long to see that they had a new scholar in Tip, the squirrel.

laugh and the teacher saw that the squirrel was tame and must have been brought to school by one of the scholars. They all denied that they had brought the squirrel until finally Joe jumped up and said: "Let me look at the squirrel. My baby brother has a squirrel and perhaps it is Tip. If the tip of his tail is gone it surely is my brother's pet."

Before Joe had time to leave his seat Tip saw Joe and scrambled up his legs and into his pocket again, leaving just the tip of his tail. The children all crowded around to see if it was really Tip and the squirrel seemed to think it was a reception in his honor and sat up on his hind legs and chattered as good natured as could be.

There was no more study that morning, but instead the teacher told them all about the habits of squirrels and lots of stories about all sorts of animals. The children said they wished Tip would come to school every day, but Teacher told Joe he had better look in his pockets and see that Tip wasn't there before he started to school again.

DOING THEIR "BIT"

PUPILS AND TEACHERS HELP TO FIGHT GERMAN.
Public Schools Have Raised \$700— Good Work Of Edith Cavell Club At Collegiate—Teachers Work for Red Cross Society.

That both teachers and scholars are doing their "bit" in the war, was shown at the meeting of the Board of Education held on Thursday night, by the reports presented.

The secretary reported that up till the end of March, the pupils of the public schools had raised the sum of \$700 for war purposes. The statement was received with a round of applause by the trustees.

Inspector J. Russel Stuart reported that the lady teachers had at the outbreak of the war, organized and had agreed to take their share of work, with the Red Cross Society, in addition to Red Cross work, they had also identified themselves with other work on behalf of the soldiers at the front.

Principal E. O. Slinger stated that the work of the Edith Cavell Club, at the Collegiate Institute, was progressing nicely. The Club had donated \$30 to the Richardson Convalescent Home, and in addition it was the intention of the Club to raise \$200 by the end of the year, to be given to Queen's Stationery Hospital, for the endowment of beds in Queen's Hospital, which will bear the name of the Edith Cavell Club.

The meeting of the Board was a very short one, as there was very little business on the slate. Chairman Metcalfe presided, and the other members present were Trustees Anglin, Craig, Cohen, Elliott, Farrell, Godwin, Henderson, Laird, Macdonald, Macnee, Mills and McLean.

Only two committees presented reports, that of the Finance and Industrial Committees, and both were adopted. The Finance Committee recommended payment of a number of accounts. The Industrial Committee reported as follows:

That the accounts for the January-April term of 1916 be paid.

The salary list is as follows:—Miss Edna Booth, \$24.00; Mrs. W. Miller, \$24.00; Miss M. Jackson, \$24.00; A. Lanigan \$36.00; John Macdonald, \$12.50.

It was noted that during the corresponding term of 1915, nine instructors were employed, at a total cost of \$476.50; also, that after special advertising during the autumn of 1915, only two men made enquiries as to the proposed high classes. During the winter, classes were conducted in three departments—Domestic Science, by Miss Booth; Dressmaking, by Mrs. W. Miller; and Millinery, by Miss M. Jackson. In each of these, ten lessons were given before Christmas, 1915, and twelve from January to April, 1916. The school nurse Miss Jean McCallum, presented a report for the month of March, which was as follows: Pupils inspected, 640; number of instructions given, 30; consultations with parents, 30; home visits, made, 34; defective teeth, 535. During the month, eight children suffered from defective vision and were fitted with glasses, four received

treatment for tonsils and adenoids, and forty-five received dental treatment. Eight dental slips were returned by parents who were unable to provide dental treatment for their children.

A circular was received from the Provincial Association of School Trustees of Ontario, notifying the Board of the annual sessions to be held in Toronto, April 25th, 26th and 27th, and asking that a delegate be sent from the Board.

On motion of Trustee Anglin, seconded by Trustee Macnee, Trustee Elliott was appointed to attend the sessions. Trustee Elliott has represented the Board at these meetings for many years.

Trustee Elliott thanked the Board for appointing him to attend these sessions. He said that Inspector Stuart had been asked to give an address on "School Attendance" at this gathering, and asked that Mr. Stuart also be appointed as delegate from the Board. He moved to this effect, Trustee Godwin seconded his motion, and it was carried.

J. G. Ettinger and Miss Barry made application for an appointment on the High School entrance Board of Examiners.

The Secretary notified the Board of the receipt of two Government cheques on the cadet corps account. One was for \$150 for public schools and the other \$50, for the Collegiate Institute.

As stated at the last meeting of the Board W. R. Sills, one of the veteran teachers at the Collegiate Institute is on the sick list, suffering from nervous trouble and his physician ordered him to take a rest.

Trustee Farrell reported that he might be able to resume his work by Easter, but that in the meantime he had provided for the care of his classes. He moved that the Management Committee be given power to act in the matter, Trustee Elliott seconded this motion, and it was carried.
