Many Military Matters

(Continued from page 8.)

The Dental Corps of Barrieffield Camp will be one of the most important branches of the service to bring troops up to a high standard of physical ability so that they will be able to undergo the training necessary to fit them for overseas work. Capt. J. M. Wilson, Assistant Director of Medical Services for Military District No. 3, is hard at work arranging for the appointment of a dozen highly qualified and efficient dentists for the work. There are now six practicing dentists through the district and most of these will be brought to the camp if their services can be dispensed with at their present stations.

Besides having to look after the work for 10,000 men at Barrieffield Camp, Wilson will also be in charge of some half dozen dentists at Petawawa. The final arrangements for the northern camp however have not yet been made.

When the first suggestion of the Canadian Army Dental Corps was made it was strongly "knocked" by those in authority. The very force of objection was that it was not recognized as one of the most important branches of the service. There is a proposition on hand now and it will undoubtedly soon come into general use to have a dental medical sheet similar to the present military sheet. This will contain every item of work that is done on the men's teeth and when they are put into perfect shape the sheet will go with the attested papers at the battalion headquarters.

Below is the list of names of the medical students of Queen's University who attended the Army Medical Corps qualifying class to qualify as officers in the Canadian Army Medical Corps for service overseas:

- M. G. Brown, Morris Mills, N.B.
- M. J. Mober, Cobourg.
- J. P. Houston, Perth.
- P. T. McIlroy, Kingston.
- O. E. Kennedy, Quyon, Que.
- J. A. Key, Shanty Bay.
- J. P. Campbell, Napanee.
- R. A. Dowd, Ottawa.
- W. H. McMillan, Blenheim.
- E. B. Moles, Brockville.
- H. Dunlop, St. Lambert, Que.
- D. A. Coon, Kingston.
- E. R. Graham, Saskatoon, Sask.
- J. G. McNeill, St. Stephen, N.B.
- J. H. Moxley, Malton, Ont.
- R. R. MacGregor, Brantford.
- J. H. Blair, Aneroid, Sask.
- C. M. Finlayson, North Battleford, Sask.
- W. G. Blair, Fallbrook.
- C. J. Garofalo, Syracuse, N.Y.
- C. S. Tennant, Malton, Ont.
- W. H. Hicks, Canadac, Sask.
- C. A. Morrison, City.
- C. M. Crawford, Vernon.
- William Gibson, Kingston.
- H. C. Wallace, Sask.

On Wednesday afternoon the announcement was made that four new depot batteries had been authorized for Kingston. This is taken as an intimation that the four batteries—(50th, 51st, 52nd and 53rd, which have been training with an ammunition column have attained a high standard of efficiency and going to Petawawa as the 13th Kingston Artillery Brigade should soon be ready for the great fight at the front. The officers for the four new bat-

teries and ammunition column have not been chosen but will be selected by headquarters as soon as suitable men can be picked.

No. 5 Field Company, Canadian Engineers, which will be in charge of the engineering work at Barrieffield Camp, is now organizing and recruits are being taken on the strength. Already thirty-one have been secured from the many applications received. There is great trouble in selecting men who will prove suitable. The men in the Engineering Corps must be of the very best type of intelligence and energy. Capt. E. W. Henderson is in command of the company and will be assisted by Lieuts. Parrott, Scott and Martin.

Sergt. Mayor, C.A.P.C., has returned from Belleville where he inspected the pay department of the 80th Battalion.

The 146th Battalion minstrel show is making great progress under the efficient management of C.Q.M.S. William McFedridge. Those who will take part are working hard every day and on May 12th when the show is produced it should prove a great success.

The following certificates of qualification have been issued: Sergt. J. T. Reid, P.A.M.C. for staff sergeant; Corp. M. Sutherland, P.A.M.C., for sergeant; and A. N. Raven, P.A.M.C., for corporal.

The examinations for the N.C.O.'s attending the School of Machine Gunnery were conducted on Wednesday by Lieut. Dymond, Toronto.

Lieut-Col. W. J. Brown, G.S.O., is in Ottawa and Belleville on duty.

Major H. R. Wilson, D.A.A., and Q.M.G., was in Ottawa in connection with the clothing, etc., in charge of the Engineer Training Depot.

Capt. W. E. Swaine, musketry officer, left on Monday for Belleville and other points throughout the district.

It has been decided by the Militia Council that where Highland clothing is authorized for issue to units, it will consist of one pattern only and will be of the same material as the serge clothing now issued to the C.E.F. It will consist of a doublet, trousers, a Balmoral or Glengarry cap. No other Highland or Norman will be authorized. Size rolls for doublets and caps should be sent forward at once as the stock for the present will be maintained at the H. Q. Depot.

A board of officers composed as under, assembled at Perth on the 29th and 30th ultimo, for the purpose of conducting examinations in connection with the P.S.I. 130th Battalion: President, Major S. W. Gibney, 80th Battalion, and Major E. J. Watt, 80th Battalion, and Lieut. J. Elliott, 155th Battalion as members.

A board of officers, composed as under, will assemble at Belleville on the 6th instant for the purpose of conducting examinations in connection with the P.S.I. 130th Battalion: President, Lieut-Col. W. J. Brown, G.S.O. and Lieut-Col. C. J.

Burritt, C.R.C.E., as member

Lieut-Col. G. H. Gillespie was in the city on Tuesday but left for Trenton to continue his inspection work.

The Victoria Day celebration committee of the 146th Battalion will hold an executive meeting on Thursday at 4 p. m., to receive reports from committees.

Lieut. N. Munroe, adjutant School of Signalling, is on the sick list.

Capt. Wilson, A.D.D.S., has arrived in the city from Belleville.

The School of signalling at Barrieffield camp will have the Queen's University wireless plant for the instruction of the men of the overseas units who will be attending. Owing to the fact that flag signalling at the front is seldom if ever used the only other ways are by means of telephone, buzzer or wireless, if the users of it do not receive the contents of a German cartridge before being able to make the first letter. For this reason Major D. E. Mundell is particularly fortunate in being able to secure the use of the Queen's outfit for his work.

A. J. Emery and H. J. Emery, Plevna, have enlisted in the 146th Battalion.

Lieut. H. J. Steacy, Army Service Corps, left on Wednesday for Quebec to take a qualifying course in A.S.C. work.

A school of musketry for officers and N.C.O.'s of the 156th has commenced at Picton armories under Captain Swayne. About 150 officers and sergeants from Belleville are attending.

Delay is dangerous. Get into uniform now.

Some of our young men who say that you are used to going to war will have a hard time explaining to your friends why you are well enough to play baseball and football.

In behalf of the standing of the 80th Battalion, Belleville, the Belleville Intelligencer wishes to say that it is in a position to emphatically deny the rumors of numerous absences from the ranks. At the present time but six are away which is a remarkable showing. The battalion on the whole is in splendid condition, and ready for moving orders at any moment.

Men, is it want of courage that keeps you from enlisting, or the failure to appreciate the seriousness of the situation.

The recruit who had a strong desire to escape service, was being examined in the eyesight test. The size of the type was increased continually, but it was no use. He couldn't see the words. Then a seasoned campaigner entered, and held up his mess-tin.

"Can you see that?" he shouted to the recruit.

"Of course I can," he replied, disdainfully, "but I'm not quite sure whether it's a fifty-cent piece or a dime!" Despair of examiner!

Albert Badoud, welterweight champion of Europe, is the latest foreigner to invade the United States in quest of a world's title. Badoud recently arrived in New York, having been brought over by Dan McKotrick, and will start his campaign against the American welterweights at the Stadium A. C., the management of which has signed Badoud for three contests.

Badoud is known throughout Europe as the "Knockout King." He has the most wonderful knockout record of any boxer in the world today. He has fought sixty contests, and has scored forty-five knockouts, giving him a "batting" average of 75 per cent., a record never equalled in the history of the prize-fighting.

Since Badoud's arrival, the American colony of promoters, managers, and boxers who have been abroad all predict that Badoud will be a sensation here. He is of the aggressive type, with a terrific punch in either hand. He is the same type of fighter as the late Stanley Ketchel, and such great judges of boxers as Joe Jeanette, Young Ahearn, Willie Lewis, Frank Moran, Kid McCoy, George Engle, George Considine and George Munroe are all unanimous in declaring that Badoud will be the same sensation as was Ketchel.

Toronto News: English-speaking athletes in the city of Quebec are doing their full duty in these times. A recent list published by the Quebec Chronicle is of the keenest interest. Of the football clubs, 32 men are in khaki. The Quebec Snowshoe Club has sent 41. This number includes Major-General Turner, V.C., D.S.O., and Major-General Watson, C.B. From the Cricket Club, 30 have gone. Fifteen hockey players have done the uniform, and three lacrosse men. From the Lawn Tennis Club 23 have enlisted, from the Ski Club 23, from the Trident Canoe Club 10. Three Irish athletic organizations have sent 27 all told. The Laval Baseball Club sends two. The total is well over 200. Here is the remarkable fact: The French names in all this list number 10. The French population of Quebec is about 80,000. The English-speaking residents are in the neighborhood of 5,000.

In the World of Sport

Col. Allard, commander of the 207th, was a well known amateur baseball pitcher around Ottawa a few years ago. He twirled great ball for Ottawa College.

Jules Kustus, the former centre fielder of the St. Thomas Canadian League Club and who for two seasons was one of the premier sluggers of the circuit, died at his home in Detroit from tuberculosis.

Sporting News report has it that Arthur Irwin will not continue his connection with the Toronto International Club as business manager and that he has been engaged as the business manager of a new publication to be devoted to golf.

The invitation of the Duluth Rowing Club has been received by the Argonauts and Dons, asking members of those organizations to attend the U. S. National Regatta in Duluth during August. It is hardly likely Toronto will send any crews.

"Joe" Corbett, brother of ex-heavyweight champion "Jim" Corbett and pitcher of the famous Baltimore Orioles of 1897, failed to "come back." He has been released by San Francisco in order to cut the team to the eighteen-player limit.

Frank Shaughnessy left Ottawa for Warren, Pa., yesterday where he will manage the Interstate League Club of that city this season. Shag will have a team of all-star Canadian Leaguers under him and should have a successful season, though there are more ex-big leaguers in the Interstate League than in any other minor circuit outside the Class AA. leagues.

Dates for the Eastern Canada lawn bowling tourney will be changed this year to conform with the new dates of the Ontario Bowling Association at Niagara. The event will be held the week of July 3rd. The Eastern will follow the week of July 10th, in Ottawa, and the St. Lawrence tournament will be pulled off the week of July 17th, at Brockville.

A Montreal despatch says: It was announced last night that the Royals had secured the services of a new second baseman by the name of Fuller, from the Detroit Club. Fuller, who is a native Detroitist, went south with the Tigers this season, and made so good an impression that Hughie Jennings held on to him until the last minute. He will come

to the Royals under optional agreement. Fuller was with the Ottawa Club last year, and had an excellent season. He ranked fourth on the batting list, hitting for .326, and he batted for .344.

Christy Mathewson, former mainstay of the Giants' pitching staff, expects to start for the Giants for the first time this season on Thursday. He will face the Boston Braves at the Polo grounds. Matty has not rounded into shape because of neuritis in the left shoulder. He has been taking treatment constantly for the ailment since it first bothered him late last season.

Friends of Fred Washorne, the veteran hockey and lacrosse referee, will be glad to learn that he is able to be around again after a siege of sickness lasting over five weeks. Fred was hit by the puck on the shin while refereeing a hockey game two months ago, and blood-poisoning set in. "Wags" says that for twelve years he always carried an accident policy, and wore shin guards, but owing to passing up refereeing this year had let the policy lapse. He was pressed into the game in which he was injured, and did not wear shin guards.

The greatest number of thoroughbreds raced in any one year in the United States and Canada was 6,232 in 1905. When the troubles that subsequently beset racing attained their greatest effect, there was a falling off to the 3,541 horses engaged in the racing of 1913. That was low water mark since 1906. There has been a slow but steady trend upward since 1913, with 3,700 horses raced last year. Owing to the establishment of new breeding farms and the influx of several hundred horses from abroad, 1916 should show nearly 4,000 horses participating in racing. The present tendency is gratifying. At the same time it will be many years before figures of ten years ago will be reached again.

The Free Press says: That Ottawa is badly in need of another athletic park is shown by the demand for dates at the exhibition grounds, the only enclosed park in the city. Lansdowne Park is really the only suitable place in the capital for baseball and lacrosse purposes, and all the clubs seeking Saturday dates there cannot be satisfied. When Varsity Oval was enclosed it relieved the situation considerably, but the sporting
