Films We guarantee to sell you the best films made and will replace any which are defective.

Supplies We can supply the most satisfactory papers and developers used to-day.

Best's The Popular Drug Store. OPEN SUNDAYS.

SEE US WHEN YOU CANNOT SEE. A Paradox? No!

We provide proper glasses through which you can see.

Being eyesight specialists we know when eyes are wrong and why glasses are right.

See us—we understand our business.

KEELEY Jr., M. O. D. O. OPTOMETRIST AND OPTICIAN.

E. P. Jenkins

Our Message to the Public—

Fashion Craft and 20th Century Suits stand alone for style and workmanship.

Our New Grey Hats cannot be excelled for the price, \$2.50.

Our W. G. & R. Shirts appeal to every man who requires the utmost in his demand for fit, exclusive patterns and superior make.

In short, our message to the public is that better apparel cannot be sold than is sold at this shop, and that part of the public which has done business with us for years appreciate this fact.

E. P. Jenkins' Clothing Co.

LOOK OUT FOR BUMPS

COL. PORTER WILL TELL TRUTH ABOUT CANADA.

He Has Had Considerable Newspaper Experience—He Did a Fine Stunt On One Occasion While Down East.

Few persons in Winnipeg or the Canadian West are unacquainted with a certain gentleman from Missouri in the person of Colonel Garnet Clay Porter, who until recently was news editor of The Winnipeg Telegram, a post which he held for some years, and previously officiated in the same capacity with The Calgary Herald.

As a member of the staff of The Toronto World, he went at things from an individual angle. When Sir William Osler, then Prof. Osler, of Johns Hopkins University, Baltimore, made a jocular speech, which was taken seriously, to the effect that all men should commit suicide at forty, he took it into his head to go and ask the aged Goldwin Smith what he thought about it.

With the few men employed, of course, it is different; but, as I said before, they are only employed for the really physically hard work, and are paid accordingly.

It is a great work and necessary one, that of supplying the munitions of war, and every man and woman employed at it ought to feel proud and thankful to be allowed to do it.

Between seventy and eighty women conductors have appeared on the buses run by the London General Omnibus Company.

There are 150 women conductors on the metropolitan electric trams and 120 on the London United lines.

All snails are edible and nutritious, says Canon Hershey in a book on British land and fresh water molluscs, just published.

Snails are easy to raise in large quantities. They need lime for making their shells, but they do not have to be fed, as they can find their own food, which is exclusively the leaves of many plants.

Australia's navy is expanding. Recently the cruiser Brisbane was launched at Cockatoo Island, and it is notified that a new light cruiser is about to be laid down where the Brisbane was built.

Everybody is troubled at this season with indigestion, failure of appetite, tired feeling, with biliousness, dull headaches, indigestion and other stomach troubles, or with pimples and other eruptions on the face and body.

Not very long ago Lord Shaughnessy announced that so far as possible Canadian woods only would be used in connection with the construction and interior finish of all Canadian Pacific buildings, railway cars, etc.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished authorities—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny, Sugar-coated Pellet a Day. Cure Sick Headache, Bilious Headache, Excessives, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

WOMEN MAKING MUNITIONS.

Few Men Employed in a Great English Ammunition Factory.

One thing struck me very forcibly—the small number of men employed at the works. I did not see a single man doing work that could have been done by a woman.

Sorting, testing, using the machines, cleaning, packing, and kindred things are all women's jobs. Rows and rows of women I saw sitting at machines and benches, filling the great wooden cases with the finished bullets; women in rows everywhere, but men only in ones and twos here and there.

It is not hard labor that is required of them, but a mechanical and automatic efficiency. Physical strength is not an essential for most of the women's work, but intelligence, deftness, rapidity, and care only.

With the few men employed, of course, it is different; but, as I said before, they are only employed for the really physically hard work, and are paid accordingly.

It is a great work and necessary one, that of supplying the munitions of war, and every man and woman employed at it ought to feel proud and thankful to be allowed to do it.

NEW POLICE SERGEANT

JAMES BATESON SUCCEEDS LATE ALEXANDER SNODDEN.

He Has Been On the Kingston Police Force for Twenty-Six Years and is a Most Capable Man.

Police Constable James Bateson has been appointed to succeed the late Sergt. Alexander Snodden, who died recently. The Police Commissioners met on Wednesday afternoon and appointed Constable Bateson to the position.

Constable Bateson has been a member of the local force for almost twenty-six years, having joined the ranks on July 1st, 1890. During all these years he has done faithful work, which is shown in the fact that no one complaint has been registered against him.

Constable Bateson will make a good sergeant on account of his experience as a constable. He walked the streets of Kingston for over a quarter of a century and knows what it is to be a constable, especially on the cold nights during the winter.

When Constable Bateson joined the force there were only eight men doing police duty in Kingston. He was made to the staff. Since he has rounded up through the efforts of Constable Bateson, who is an experienced detective.

It is expected that Sergt. Bateson will commence on his new duties on Monday. At the present time he is on night duty.

RT. HON. LEWIS HARCOURT. Who has declined the office of the Secretaryship of Ireland. He belongs to one of England's most aristocratic families. His wife was Mary E. Burns, wife of W. H. Burns, of New York.

Bland is the humor of Canon Oswald Rigby, of St. Bartholomew's-in-the-East, Ont., also, when he wishes it, delicately barbed. The Canon, who was a Dean of Trinity College before it gave up its university charter, and he did, at the same time, the chair in history, is an enthusiast on the subject of Shakespeare, whose tercentenary is being celebrated this year.

"Of course," said the Canon, the other day, when on his favorite theme, "the plays of Shakespeare might not do as these text-books which to plug up for a history examination, but if you want to absorb the spirit of the English people, there is no better source of supply. Shakespeare had an intense love for England—his feeling for her was one of almost religious devotion."

"An American critic, Mr. Warner, objects to this trait in Shakespeare. He calls it his 'patriotic bias,' and seems to feel that it is a quality from which the poet should have been free. One knows, to be sure, that an Englishman was more than a match for any three men of another nationality, but that is just the attitude for which one should expect to find the fullest American sympathy."

"I so very well remember—the Canon's mellow voice was reminiscent, and his smile disarming—"I so very well remember my first visit to the United States, just twenty-four years ago, and my first conversation with one of that country's leading men. He said to me shortly after I arrived—and I have never forgotten it—that the New York State militia alone could easily 'whop' the whole British army."

Canadian Woods. Not very long ago Lord Shaughnessy announced that so far as possible Canadian woods only would be used in connection with the construction and interior finish of all Canadian Pacific buildings, railway cars, etc., an announcement which was hailed with great satisfaction by the lumber interests of the Dominion.

That such a program was possible was known to the forestry contractors who have supplied to the various Canadian Government exhibits in Europe and the United States magnificent samples of hardwoods with beautiful grains and attractive finish. It would seem that these woods are not being exploited unduly, but, no doubt, now that it is known there will be a good demand for it, manufacturers will give the matter greater consideration.

Probs.: Friday, fair with much the same temperature.

Friday Bargain List!

Nottingham Lace Curtains

280 pairs of imported Lace Curtains, in White and Ecru, in two assortments, as follows: 180 pairs of 2 and 2 1-2 yards lengths, regular 60c and 75c a pair. Friday 48c. 100 pairs of 2 1-2 yard lengths, regular 85c a pair. Friday 69c.

See "Special Ad." To-morrow STEACY'S "THE WOMAN'S STORE OF KINGSTON."

How You Can Quickly Remove Hairy Growths

(Aids to Beauty) A well known beauty specialist advises this treatment for the removal of hair from the face. Mix into a paste some powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, wash the skin and every trace of hair has vanished. This method is quick and entirely safe. To avoid disappointment, however, it is well to make certain you get genuine delatone.

- WAR BULLETINS. The Russians have captured Kaar-I-Shirin on the Persian frontier, northeast of Bagdad. British guns heavily bombard positions of the foe in Flanders. Much mining activity continues in Artois. An Austrian transport, laden with war material, was sunk in the Lower Adriatic Sea by a French submarine.

Differences Settled. Cobalt, May 11.—What threatened to be a strike of all the miners in Cobalt has been averted, the mines agreeing to give the men an increase of 25 cents to \$3.50 a day, and a bonus of 25 cents a day as long as silver remains above 70 cents an ounce. The new schedule will take effect from May 1st.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished authorities—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N.Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which has found its thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Assure" put up by Dr. Pierce. Dr. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a large trial package for 10c. of any one of these remedies by writing Dr. Pierce.
