Letters From Kingston

Boys At Front

The British Whig is setting aside a column for the exclusive use of its readers who may have received letters from friends at the front or in Eng-land. Care will be taken for censorship reasons, that these extracts do not contain the mention of any unit, casually or the location of the unit. The person sending the letter in should be careful that the name of the writer is given. If requested, letters will be returned promptly to the sender. Most any letter from the front has something in it which is of interest to Canadians, even though it be only the reference to some remark sung out between trenches to "Fritz."
