SECOND SECTION

HAD FAITH IN INDIA And Britain Has Received 300,000 Troops. EMPIRE WAS DENUDED

OF SOLDIERY AT BEGINNING OF THE WAR. Lord Hardinge Tells of the Remarkable Loyalty of the People That Brought to Naught the Kaiser's Revolt Schemes. London, May 23.—Lord Hardinge, of Penhurl, who was appointed Viceroy of India in 1910 and returned to England last month after an administration which was commonly described as a highly successful continuation and development of the Liberal policy initiated by Lords Morley and Minto, disclosed some interesting facts in the course of a statement made to a correspondent, whom he received at his home in Gloucester Place.

BAIRON HARDINGE

Lord Hardinge showed how India's voluntary contributions to the prosecution of the war had justified that dependency being regarded as an integral part of the British Empire united to the central administration by consideration of self-interest and political development, which, in the eyes of the Indians themselves, had assumed paramount importance and had received a most striking exemplification during the course of the war.

I'll Do It---

The ability—to do things worth while is almost always limited to the fortunate combination of a well-balanced mind and body. Food—right food, and right living play an indispensable part in the program. Unfortunately the usual dietary consists of too many heavy, indigestible foods, often lacking the mineral elements, phosphate of potash, etc., which are absolutely essential for physical well-being.

Grape-Nuts

is a food especially designed to correct these faults of the modern dietary. Made of whole wheat and barley, it contains all the nutriment of these grains including the mineral salts stored by Nature in these cereals. Grape-Nuts combines readily with other food, and is a wonderful help in restoring and maintaining healthy balance of body, brain and nerves. Thousands have found the "Road to Wellville" by cutting out improper foods and using Grape-Nuts as a daily ration. Ready to eat, nourishing, appetizing, economical.

MUST WIN OR PERISH

This is the Position of Great Britain. LONDON POST ANSWERS

Chicago, May 23.—James Larkin, the Irish labor leader and founder of the Irish "Citizens Army," who has been living in Chicago for some time, leaped from the stage of a downtown theatre, cleared a brass railing, and landed in the orchestra pit Sunday, and attacked Matthew Thomas Newman, the Irishman who came during the preliminary stages of a mass meeting called to protest against the execution of James Connolly and thirteen other Irish revolutionists.

A MOTHER'S DUTY TO HER DAUGHTER

Her Health Must Be Carefully Guarded As She Approaches Womanhood. The mother who calls to mind her own girlhood knows how urgently her daughter is likely to need help and strength in the years between early school days and womanhood. It is then that growing girls droop, become feeble, bloodless and nervous. Nature is calling for more nourishment than the blood can supply. Signs of distress are plainly evident in dull eyes, pale cheeks, weak aching backs, fits of depression and often a dislike for proper food. These signs mean anaemia—that is bloodlessness.

ALLIES WAIT KNOCKOUT DAY

When They Will Crush Germany To Death. THE DECISIVE MOMENT NOT YET ARRIVED FOR THE GREAT OFFENSIVE. London, May 24.—A despatch to the Daily Chronicle from its Paris correspondent says: "To whichever part of the European fronts we look, the most remarkable fact is still the refusal of the Allied commands to be provoked into a premature offensive."

THE WORLD'S NEWS IN BRIEF FORM.
