

### Sleepytime Tales

**LARRY AND THE BEARS.**  
Once upon a time Lanny had a big Teddy-bear that he was very fond of and he had a little puppy that he had named Bear. Lanny slept in a bed so near his brother Larry that when he wished he could put his hand out and touch his brother. Teddy-bear always went to bed with him and sometimes Bear crept up, hopped on the bed and went to sleep.

One night, after Lanny had kissed his mother good night, he lay in his bed thinking what he would do next day and all at once he saw Teddy-bear get up, jump down on the floor and call to the little dog. He saw Larry get up very quietly and follow them out of the room, down the stairs and out into the streets.

No one paid any attention to them and in a minute they were in some woods and a lot of dogs and big black bears and kittens were taking hold of hands and dancing round and round just as he had danced with the children this very last May-day. Bear turned round and saw Larry and called to him to come and play with them and a big black bear came and took hold of Larry's hand with his black paw.

They danced and played games

and after they had something to eat, but Larry didn't know what to call it as he had never tasted it before. It was sweet and good, however, and he ate a lot of it with the rest. Then the big black bear came and asked Larry if he didn't want to ride on his back. He thought that would be fun and he hopped on and held on tight to the bear's thick hair.

Soon he saw them walking along toward home and Teddy-bear and Bear were walking along beside Larry and the big bear and he heard Bear say they must take care of Larry for he was so good to them and never pulled their tails or hurt them.

It seemed very strange to see Larry riding on a bear's back but the bear walked slowly and carefully and Larry didn't joggle off once. When they reached their gate the big bear held out his paw to say good-bye and after that Larry, Teddy-bear and Bear walked up and each hopped up to bed and went to sleep.

In the morning Lanny said: "Oh, Larry, I wish I had been with you last night, you had such a funny time." When he told his brother about it what do you suppose he said? "I didn't go any place and I had hold of your hand all night."

### "Low Cost of Living" Menu

**Menu for Tuesday**

**BREAKFAST**  
Stewed Apricots and Raisins  
Tougher Toast  
Graham Gems Coffee

**LUNCHEON**  
Baked Apples with Beef  
Crackers Cheese Tea

**DINNER**  
Cora Soup  
Mocked Venison Creamed Potatoes  
Stuffed Beans Sliced Rhubarb  
Lettuce with Russian Dressing  
Strawberry Shortcake

**LUNCHEON**  
Baked Apples with Beef—Core and cut enough apples to hold a heaping teaspoon of chopped and seasoned beef. Fill the centres with the beef and bake in a moderate oven.

**DINNER**  
Mocked Venison—Buy a cheap but solid piece of mutton and cover with vinegar—a quarter teaspoon cloves, the same of mace, a little pepper, but no salt. Let this stand three or four hours. Place the roast in a very hot oven and let it gradually become moderate. Baste often with the vinegar diluted with water—one-half, with which it was covered.

**BREAKFAST**  
Stewed Apricots and Raisins—Soak over night a cup of each of raisins and apricots. Drain and cover with water and a little sugar. Simmer until tender. Serve cold.

Graham Gems—Stir together two cups of sour milk, three tablespoons of molasses, two teaspoons of soda, two-thirds cup of flour, and two cups graham flour. Bake in gem pans.

**Russian Dressing**—Mix three tablespoons of French mustard, a tablespoon of vinegar, a teaspoon of Worcester sauce, and half a cup of olive oil, stirring constantly.

**Sliced Rhubarb**—To five pounds of finely cut rhubarb add 1 pint of vinegar, 4 1/2 pounds of sugar and 2 tablespoons each of cloves and cinnamon. Cook gently for about half an hour, turn into jelly glasses and cover with paraffin when cold.

**ROOSEVELT AFTER "HYPHENS"**  
Hyphen is "Bar Sinister" Across U. S. Coast-of-Arms  
Oyster Bay, N.Y., May 29.—"We regard the hyphen as the bar sinister across our national coat of arms, and we do not intend to permit it to remain there." Col. Roosevelt told 2,600 Sagamore Hill pilgrims Saturday afternoon, when they asked him to make a fight for presidential leadership on the issue of Americanism, which he has raised.

**A COLLEGE BURNED**  
Tank of Gasoline Explodes and Fatalities Result in Iowa  
Ottumwa, Iowa, May 29.—Robt. H. Williams, business manager, and Henry Oakley, freshman, were killed and George Minear and Kelly Davis, both students of engineering, were perhaps fatally injured, when Pennsylvania College, together with all its buildings, were burned at Ottumwa Saturday. The loss is \$160,000. The explosion of a 30-gallon tank of gasoline caused the fire.

### HISTORIC BRENNER PASS.

This Alpine Gap is a Famous Pathway For Great Armies.  
The mighty Brenner pass is the Thermopylae of Tyrol. From times immemorial the northern tribes have sought the refinements and culture of the south over this wonderful Alpine and, first in fame among all the gaps in the rugged Alpine defenses against the north, and a way which has echoed to the dying cries of warriors and clashing accoutrements of myriad Roman legions and to the noisy disorder of the passage of many armies through more than 2,000 years of restless history.

Innsbruck, the Tyrolean capital, is at the northern terminus of this way, while Botzen, the largely Latinized metropolis of the south, lies 3,000 feet below. Innsbruck is exclusively of the northland, surrounded by pines, apples and fir trees, and Botzen, like Italy beyond the mountains, is in the midst of a region of vines, figs and olives.

Historic points crowd one another along the Brenner. Guidestones of the time of Caracalla and Septimius Severus have been found buried here. Some of the world's greatest generals have traveled this path, north and south, and here the Tyrolean peasant, Andreas Hofer, the simple, untaught Austrian hero, proved himself greater than one of the best officers of Napoleon—National Geographic Bulletin.

**Conditions Reversed.**  
One of the finest examples of "pawky" humor is placed to the credit of an old gardener who was in the service of Admiral of the Fleet Sir Alexander Milne. The admiral was a grand old man, full of goodness and kindness, but a strict disciplinarian. The gardener having omitted to do something which he had been told to do, his master said to him:

"When I was on board ship I would have had you put in irons for disobedience."

The old gardener was not much perturbed at the idea, but, leaning on his spade, replied:

"Aye, maybe, Sir Alexander, but when ye were on board ship ye had a hunder men tae dae ae job, an' nou ye tae ae man tae dae a hunder jobs."—London Tit-Bits.

**Emotionally Senile.**  
I know no more dismal spectacle than a man talking shop on a moult hill in August, a woman gossiping by the rail of a steamer plunging through the sapphire of the gulf stream or a couple perusing advertisements throughout the finest stretch of the Canadian Rockies. He was not a man, but a sample fed, word emitting machine. These people, emotionally speaking, are senile. They should not try to read poetry.—Henry Seidel Canby in Harper's Magazine.

**A Trick With an Egg.**  
Place two V shaped wineglasses of the same size near the edge of a table. In the right hand one put an egg, just fitting the rim of the glass. Hold the bases of the glasses firmly down, the top rims touching each other. Now with a quick, sharp breath blow upon the line where the egg and the glass meet. The egg will jump to the other glass. With a little practice this can be done every time. Be careful to blow in a line with the left hand glass, or the egg will jump in the wrong direction and land on the table.

**Submarine Wonders of Hawaii.**  
Nowhere in this wide world are there such rainbow fish as in Hawaii, of every color and shade and hue. If there is any that or grandeur of tints in the prism that is not reflected in the scales of the finny tribes in the waters around the islands I should like to see it. A visit to the Honolulu aquarium far superior as it is to the world famous one in Naples, or to the Coral gardens, where we see the fish through a glass bottomed boat, disporting themselves in their own front yards, so to speak, is well worth while.

**Go Light on Buckshot.**  
Buckshot should be relegated to the past along with the buffalo gun and the market hunter's "cannon." It will inflict a painful wound upon deer and yet will not kill except at very close quarters. Even the poorest shot can usually score a hit with buckshot, and he will in nine cases out of ten be tempted into "letting her have it" when the game is absolutely out of effective range. About the only useful purpose for which buckshot can be recommended is in self defense against a human enemy at close range.—Outing.

**The Total Sum.**  
The three children came and stood in a row in front of their mother.  
"Mamma," they said, "what would you like for your birthday?"  
The mother looked down benignly upon the group and answered:  
"My dears, mamma wants nothing for her birthday, nothing but three good children. She'd like that."  
"But then, mamma," cried the eldest, "then we'd be six."

**Had an Answer.**  
"She looked killing."  
"How can a woman look killing?" demanded the purist.  
"I suppose it is when she looks dangerous," answered the resourceful party of the first part.

**They Meetly Do.**  
She (recalling college days)—What became of our man of might? He—Oh, he married the woman of mustn't—Judge.

Reports presented at the district meetings of the Methodist church show that over 5,000 grants to Methodists have joined the colors.  
The League to Enforce Peace met in Washington.

## Laminated Tubes Hold Air Longer

An automobile tire tube must hold air. The longer a tube holds air, the more completely it satisfies. Tubes of poor rubber—rubber containing flaws or foreign matter—allow the air to seep gradually through microscopic and invisible holes. You can't find the leak. But the air escapes and your tire is under-inflated.

To overcome this Goodyear invented the laminated tube. Lamination is an extra safeguard, and added inspection against faults in the rubber, against dust, sand or other foreign matter.

## Goodyear Laminated Tubes

### Save Tires and Lower Tube Cost

Goodyear Laminated Tubes will add many miles to the life of your tires by preventing under-inflation. They will save you the annoyance of frequently inflating your tires. They will give longer service and so cut motoring cost. They will help to make your lower tire cost-per-mile offset your increased gasoline cost-per-mile.

Goodyear Tubes, like Goodyear Tires and Accessories are easy to get to from Goodyear Service Stations everywhere.

The Goodyear Tire & Rubber Co. of Canada, Limited, TORONTO, Ontario

## A Costly Process—But One That Makes Better Tubes

Goodyear Tubes could be made without lamination—but we would not be so sure that they were perfect. So we absorb this extra expense in order to maintain Goodyear high standards.

Ordinary tubes are made from one sheet of rubber the proper thickness—too thick to detect tiny particles of foreign matter that may have escaped the washing machine.

Goodyear Tubes go through an extra process. The washed rubber is passed through heavy rollers and rolled into thin sheets—thinner than the paper you hold, and almost as transparent as tissue paper. Thus the expert is enabled to detect and remove the minutest grains of dust, sand or wood.

These sheets—now perfect—are laid layer on layer and rolled into a solid, inseparable sheet of extra thickness and extra strength.

Despite the cost of this process, these tubes are sold you at average prices. This is part of Goodyear Service.

# GOODYEAR MADE IN CANADA

Sunlight Soap has a high standard of purity which is backed by a \$5,000 guarantee. If a soap has no standard there is no reason why it should always be of uniform quality, always contain the best materials or be anything like as good as the soap with a standard.

### Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

### This Suit Features A New Skirt.

Itself congenially to the latest skirt modes. The model shown here is cut in four parts, with the front and back gored in panel style, while the side gored are gathered and tucked.

In medium size the entire costume requires 7 yards 40-inch material, but if made separately the skirt calls for only 4 1/2 yards.

The making is very simple. First form tucks in the side gored, creating six crosslines of slot perforations; stitch 1 1/2 inch from folded edges.

CONSTRUCTION GUIDE 6687  
THE WHOLE STORY CO. NEW YORK

Gather upper edge between double "T" perforations. Turn under the side edges of front and back gored on slot perforations, lap on side gored to small "o" perforations, notches even; stitch 1 inch from folded edges to any desired depth, leaving edges to left of center-back free above large "O" perforation in back gore for a placket; press plaits. Turn under lower edge of skirt 3/4 inches for a hem.

Adjust the stay to position underneath the skirt, bringing single large "O" perforation to center-front and small "o" perforation to center-back. Then stitch the upper edges of skirt and stay together.

This model is well suited to linen and tub materials frequently used for separate skirts.

The tailored suit of taffeta is always distinctive, and this design featuring a new four-piece skirt promises to prove exceedingly popular during the summer.

Skirts add more than the usual variety and interest to tailored costumes this year. Taffeta is the popular choice this season and adapts

Pictorial Review Jacket No. 6727. Sizes, 34 to 44 inches bust. Price, 15 cents. Skirt No. 6687. Sizes, 22 to 32 inches waist. Price, 15 cents.

## Above Patterns can be obtained from NEWMAN & SHAW, Princess Street

Between \$4,000 and \$5,000 worth of opium smuggled into Montreal from Liverpool on a liner was seized by the Montreal police.

A young child of Joseph O'Connor, Brantford, was fatally burned when his clothes caught on fire from a gas stove.
