LAURIER ON EDUCATION. I want every child in the Province of Ontario to receive the benefit of an English education.

JAPAN SEEKING WAR. Mun Hey Weekly, a Chinese paper, edited by H. P. Hsieh, the President of the Chinese Nationalist League, and the former Lieutenant-Governor of Kwang-Tung, has a remarkable article, and one which cannot be read by Canadians without the deepest concern.

CHEERING THE TROOPS. A citizen has expressed himself as very much disappointed when on Saturday there was a march out of the largest body of troops, and the finest that has been seen in this city.

Random Reels. "Of Shoes and Ships, and Sealing Wax, of Cabbages and Kings."

CHANGING TIRES. Changing tires is a popular American pastime which engages the thought, soul and leg muscles of thousands of apologetic citizens every day during the touring season.

EDITORIAL NOTES. The soldier boys are going to the war to fight for us. They are entitled to our cheers, our affections, and our God speeds.

FIRST IMPULSE IS WRONG. Blunders occur when anything is done in a hurry in connection with the war. When the Allies entered into a campaign against the Germans they incurred a lot of expenses, while influenced by a generous spirit, which had to be restrained later.

EARLY MORNING. The early morning's glory has baffled all the poets; no one can chant in glory in comprehensive notes.

Judging the Ontario Government by the later speeches of Messrs. Lucas and Ferguson, it is degenerating very fast. The serious mind and firm hand of the late Sir James Whitney are being seriously missed.

and some of a year or more—the favors shown in certain of the early enlistments were remarkable.

Officials, civic and provincial, were given their salaries in full, and for an indefinite period, while they received their usual pay and allowance from the Militia Department.

The regular soldier gets \$14 a month, and nothing for any family dependent upon him. The National Guardsman will get the same pay, and in most cases, whether he has a family or not, liberal employers will give him his full salary as long as the war lasts.

"Now," says the New York Herald, "it is true that the regular never enlisted with any idea that he would get more than army pay. But here will be discrimination in favor of the militia man, which, in a short time, will put an end to the recruiting for the regular army."

The United States should have profited by the experience of other countries that have been in the war. There was no occasion to rush into an imprudent arrangement, and there is no justification for the continuance of it.

Hon. Joseph Martin has returned to England to give the people his advice in political matters. We thought his old constituency of St. Pancras had repudiated him.

Aviation is the attractive branch of the Allies' war service. To be a member of the Royal Squadron of Aviators is to be one of the King's prize men.

Allison in Luck. Allison getting in American goods free of duty is violation of the customs regulations; Allison taking a rake-off from the Colts;

Government, and the cheap power which was promised to Kingston is no nearer at hand. The Ontario Government and its Hydro Commission are equally disappointing.

Sixteen carloads of munitions, intended for the Allies, were seized by the United States Government on Saturday at Shamokin, Pa., and sent to Fort Worth, Texas, for United States use.

The German are behind Carranza and his troops in their treacherous attack upon the American troops. German agents have not been busy for months without purpose.

It has now become apparent that the German navy will not make a second appearance during this war. All of the ships that did not go down at sea, as the result of their meeting with the British fleet off Denmark, have been battered out of use and commission.

Meaning of Nova Scotia Election. St. John, N.B., Times-Star. It was more than a Liberal victory. It was a notice to the Conservative leaders that they must mend their ways or take the consequences.

Conservative Press. The Christian Guardian stated last week that the Alberta Conference had contributed no less than fifty-three of her ministers and probationers for the ministry to the Canadian overseas forces, and that of these three had already been killed in action.

Allison profiteering in shell and fuse lease; Allison in on the damaged ammunition episode—a regular patriot is Allison!

KINGSTON EVENTS 25 YEARS AGO

The Light, Heat and Power Company will light the city all night for three hundred nights yearly at 30 cents per light.

Butter sold on the market to-day for 15 cents per pound, and eggs from 12c to 15c per dozen. Strawberries were purchased at three boxes for 25 cents.

E. Halliday, of the Hub Hotel, has accepted the challenge of H. Boyle, of the Frontenac, who claims to have beaten Hanlan's time in a skiff, for a race any distance and in any weather for a purse of money.
